### What is this product?

<b>Type:</b>	Société d'Investissement à Capital Variable (SICAV) – Undertaking for Collective Investment in Transferable Securities incorporated under Luxembourg law.
<b>Objective:</b>	Robeco QI European Conservative Equities is an actively managed fund that invests in low-volatility stocks in European countries. The selection of these stocks is based on a quantitative model. The fund aims to achieve long-term returns greater than equity markets with lower downside risk over the full investment cycle, whilst still controlling relative risk through the applications of limits (on countries and sectors) to the extent of deviation from the Benchmark. The fund will take exposure of at least two-thirds of its total assets to equities of companies incorporated or exercising a preponderant part of their economic activities in Europe. The fund will focus on investing in equities that show lower volatility than average European equity. Conservative stands for the focus on equity with low volatility. The fund aims for a better sustainability profile compared to the Benchmark by promoting E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrating sustainability risks in the investment process and applying Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, proxy voting and engagement.
<b>Benchmark:</b>	MSCI Europe Index (Net Return) (Hedged into USD) The Sub-fund is actively managed and uses the Benchmark for asset allocation purposes. However, although securities may be components of the Benchmark, securities outside the Benchmark may be selected too. The Sub-fund can deviate substantially from the weightings of the Benchmark. The Management Company has discretion over the composition of the portfolio subject to the investment objectives. The Sub-fund aims to achieve returns equal to, or greater than, those on the Benchmark with lower expected downside risk, whilst still controlling relative risk through the applications of limits (on countries and sectors) to the extent of deviation from the Benchmark. The Benchmark is a broad market weighted index that is not consistent with the environmental, social and governance characteristics promoted by the Sub-fund.
<b>Subscription and Redemption:</b>	You can purchase or sell (partial) units any given workday, with the exception of Fund Holidays. An overview of fund holidays can be retrieved from <a href="http://www.robeco.com/riam">www.robeco.com/riam</a> .
<b>Currency Risk:</b>	All currency risks are hedged into the USD.
<b>Dividend policy:</b>	Accumulating
<b>Intended Retail Investor:</b>	The Sub-fund is suitable for Investors who seek ESG considerations to be integrated as binding element in the investment process, while still seeking optimum returns. This Sub-fund is suitable for Investors who see funds as a convenient way of participating in capital market developments. It is also suitable for informed and/or experienced Investors wishing to attain defined investment objectives. The Sub-fund does not provide a capital guarantee. The Investor must be able to accept volatility. This Sub-fund is suitable for Investors who can afford to set aside the capital for at least 5-7 years. It can accommodate the investment objective of capital growth, income and/or portfolio diversification.
<b>Product Term:</b>	The fund does not have a fixed term of existence or maturity period. In certain circumstances, as described in the fund documentation, the fund may be unilaterally terminated following written notice to shareholders subject to compliance with the fund documentation and applicable regulation.
<b>Other Information:</b>	The depositary of the SICAV is J.P. Morgan SE. The English prospectus, the semi annual report and the details of the remuneration policy of the management company are documents required by law and can be obtained free of charge on <a href="http://www.robeco.com/riam">www.robeco.com/riam</a> . The website also publishes the latest prices and other information.

### What are the risks & what could I get in return?

**The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level

**Be aware of currency risk. If you receive payments in a currency different to that of your home jurisdiction, the final return you will get will depend on the exchange rate between the two currencies.** This risk is not considered in the risk indicator shown. If we are not able to pay you what is owed, you could lose your entire investment. This product does not include any protection from future market performance so you could lose some or all of your investment.

#### Other relevant risks

The following data are deemed material for this fund, and are not (adequately) reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets.
- The fund is managed using quantitative models. Materialisation of the model risk may be detrimental to fund performance.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

## What are the risks & what could I get in return? (continued) Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years.

<b>Recommended holding period</b>	<b>5</b>
Example investment	USD 10,000

### Minimum Scenario

There is no minimum guaranteed return. You could lose some or all of your investments.

Stress Scenario	1 Year	5 Years
-----------------	--------	---------

The stress scenario shows what you might get back in extreme market circumstances.

What you might get back after costs	USD2,090	USD2,270
Average return each year	-79.00%	-25.73%

Unfavourable Scenario	1 Year	5 Years
-----------------------	--------	---------

This type of scenario occurred for Robeco QI European Conservative Equities DH USD between n 2021-12- and 2024-04-30.

What you might get back after costs	USD8,590	USD10,090

What you might get back after costs	USD11,910	USD14,578
Average return each year	19.10%	8.88%

## What happens if Robeco is unable to pay out?

The fund's assets are held separately from Robeco Institutional Asset Management B.V. (the "Manager"). A pay-out of the fund's assets is thus not affected by the financial position or potential default of the Manager. The financial instruments in the portfolio of the fund are placed in custody with J.P. Morgan SE, Luxembourg Branch (the "Depository"). The fund runs the risk that its assets placed in custody may be lost as a result of the liquidation, insolvency, bankruptcy, negligence of, or fraudulent activities by, the Depository. In that case the fund may suffer a financial loss. However this risk is mitigated to some extent as the Depository is required by law to keep the fund's assets separate from its own assets. An investor compensation or guarantee scheme is not applicable in case of such financial loss.

## What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs have on your investment over time.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest; how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested. For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

	If you cash in after 1 year	If you cash in after 5 years
<b>Total cost</b>	<b>USD610</b>	<b>USD1,420</b>
<b>Annual Cost Impact (*)</b>	<b>6.10%</b>	<b>2.25%</b>

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.91% before costs and 5.66 % after costs.

## Composition of Costs

One-off costs upon entry or exit		If you cash in after 1 year
Entry Costs	5.00% Maximum of your investments that you pay to your distributor when entering this investment.	Up to 500 USD
Exit Costs	0.00% Maximum of your investments that you pay to your distributor when entering this investment.	0 USD

## Ongoing costs

Management fees and other administrative or Operating Costs	1.03% of your investment that will be used for the payment of annual charges on your investment levied for managing the investment.	103 USD
Transaction Costs	0.07% of your investment that will be used for the payment of estimated annual costs incurred when we buy and sell the underlying instruments for the product. The actual amount will vary depending on how much we buy and sell.	7 USD

## Incidental costs taken under specific conditions

Performance fee	There is no performance fee for this product.	0 USD
-----------------	---	-------

## How long should I hold it and can I take money out early?

We have determined the recommended holding period of this product to be 5 years.

The recommended holding period of this product is determined taking into consideration the nature of underlying investment securities and the volatility of thereof. The product can be traded daily and no minimum holding period applies. Exiting before the end of the recommended holding period does not bear any additional risks or costs other than those mentioned in the text above.

## How can I complain?

Complaints about the behaviour of the person who advised you on the product or sold it to you, should be addressed directly to that person. Complaints about the product or the behaviour of the manufacturer of this product should be directed to the following address:
