## What is this product?

### Type

### Term

The Fund was established for an indefinite period. However, it may be wound up at any time if it is no longer possible to manage the Fund efficiently or if a change in the economic and/or political environment makes it necessary to wind it up.

### Objectives

### Target retail investor group

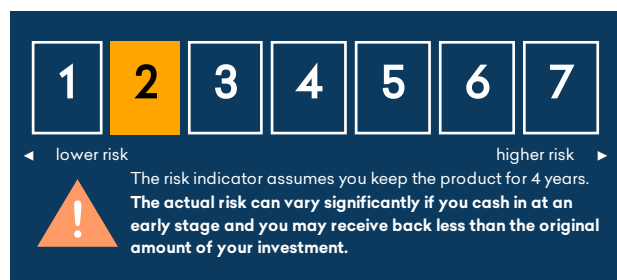

The UCITS is intended for private clients, professional clients and eligible counterparties that pursue the objective of asset accumulation/optimisation. This UCITS is a product for investors with general knowledge of and/or experience with financial products. Prospective investors may incur financial losses and do not value capital protection.

## What are the risks and what could I get in return?

### Risk Indicator

We have classified this product in risk class 2 on a scale of 1 to 7, where 2 corresponds to low risk class.

The risk of potential losses from future performance is classified as low. In adverse market conditions, it is very unlikely that the ability of the Hauck & Aufhäuser Fund Services S.A. to pay you will be affected.

The product may be exposed to further risks that are not reflected in the global risk indicator. Please refer to the sales prospectus for more information.

The global risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to repay you.

### Performance Scenarios

The figures shown include all the costs of the product itself, (where applicable) [but may not include all the costs that you pay to your advisor or distributor, and includes the costs of your advisor or distributor]. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The final amount you receive from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of an appropriate benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment (using a suitable benchmark) between 1/13/2022 and 6/16/2023.

The moderate scenario occurred for an investment between 3/15/2015 and 3/15/2019.

The favourable scenario occurred for an investment between 2/14/2016 and 2/14/2020.

Example investment: 10,000 EUR

Recommended holding period: 4

		If you exit after 1 year	If you exit after 4 year(s)
Minimum	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>

### What happens if Hauck & Aufhäuser Fund Services S.A. is unable to pay?

It should be noted that the assets of the Fund are held separately from the assets of the Management Company. Consequently, investors in the Fund will not suffer any losses in the event of the failure or insolvency of the Management Company.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have made the following assumptions:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 4 year(s)
Total costs	615.77 EUR	912.48 EUR
Impact on return (RIY) per year	6.16 %	2.17 %

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.83% before costs and 0.66% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. This person will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (5% of amount invested /500 EUR). This person will inform you of the actual distribution fee.

**How long should I hold it and can I take money out early?**

**Recommended holding period: 4 year(s)**

In view of the risk and return profile, we recommend a holding period of at least 4 years for this fund. However, you may redeem the fund on the terms set out in the prospectus. Early redemption may significantly affect the risk and return profile. Redemption may be temporarily suspended if there are circumstances that require a suspension and if this is considered justified, while taking into account the interests of the investors.
