Rolinco EUR G (NL0010510798)

Rolinco - EUR G is a share class of Rolinco N.V.

Management Company: Robeco Institutional Asset Management B.V.

Objectives and investment policy

Rolinco is an actively managed fund that invests worldwide in equities from developed and emerging countries. The selection of these stocks is based on a fundamental analysis. The fund's objective is to achieve a better return than the index. The fund focuses on growth by investing in promising long-term growth trends. It also invests in five different and independent top-down trends: the digital world, the emerging middle class, resource stewardship, connected enterprise, and healthy aging. Within the identified growth trends, the fund mainly invests in shares of companies that have the purest possible exposure to the trends.

The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions.

The fund can engage in currency hedging transactions.

The Fund does not use a Benchmark for its investment policy.

The Fund is actively managed and uses the MSCI All Country World Index for comparison purposes. However, although securities may be components of the Benchmark, securities outside the Benchmark may be selected too. The Manager has discretion over the composition of the Portfolio subject to the Investment Guidelines.

The reference index is a broad market weighted index that is not consistent with the environmental, social and governance characteristics promoted by the Fund. The methodology used for the calculation of the reference index can be found on the website of the benchmark administrator (MSCI).

This share class of the fund will distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment. Equity theme funds have a view on a specific segment of the equity market. By making the choice to focus on a specific segment the fund becomes more volatile as price movements of shares within this theme tend to have a larger impact on the value of the fund. The fund may use financial derivatives.

The following data are deemed material for this fund, and are not (adequately) reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets.
- The fund invests or may invest in China A-shares. Investing in China A-shares carries increased risk, most notably liquidity, regulatory, quota, custody and broker risks.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The charges are used to pay the costs of running the fund, including the costs of marketing and distributing. The charges reduce the potential growth of the investment.

The entry and exit charges shown are the maximum figures. Contact your financial advisor or distributor to find out the actual entry or exit charge.
*Dependent on the distribution channel, it is possible that additional costs are charged by the distributor.

Ongoing charges are based on the expenses for the last calendar year ended 31-12-2023. This figure may vary from year to year and does not include performance fees or transaction costs, except in the case of exit/entry charges paid by the UCITS when buying or selling units in another collective investment undertaking. For funds launched or for fee changes that are implemented during the current calendar year, the ongoing charge is estimated.

For more information on fees, charges and performance fee calculation methods we refer to section Fees and Expenses within the prospectus, available on the website: www.robeco.com
