Directors' report for the financial year ended 31 July 2023

The Directors of FundLogic Alternatives p.l.c. (the "Company") submit their annual report together with the audited financial statements for the financial year ended 31 July 2023.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and the audited financial statements in accordance with the Companies Act 2014 and the applicable regulations. Irish company law requires the Directors to prepare financial statements for each financial year. Under the law, the Directors have elected to prepare the Company's financial statements in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS"). Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company as at the financial year end date and of the profit or loss of the Company for the financial year and otherwise comply with the Companies Act 2014.

In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is not appropriate to assume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy and which enable them to ensure that the financial statements are prepared in accordance with IFRS and comply with the provisions of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations"), the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"), the Listing Rules of the Euronext Dublin (for listed funds) and enable the financial statements to be audited.

Directors' Compliance Statement

The Directors acknowledge that they are responsible for securing the Company's compliance with relevant obligations as set out in section 225 of the Companies Act 2014.

The Directors confirm that:

- a compliance policy statement has been drawn up that sets out policies, that in their opinion are appropriate to the Company, in respect of the Company's compliance with its relevant obligations;
- appropriate arrangements and structures have been put in place that are, in their opinion, designed to secure compliance with the Company's relevant obligations; and
- during the financial year, the arrangements or structures referred to above have been reviewed.

Statement of Relevant Audit Information

In the case of each person who was a Director of the Company at the time the annual report is approved:

- so far as the Director is aware, there is no relevant audit information of which the Company's statutory auditors are unaware; and
- the Director has taken all steps that he ought to have taken as a Director in order to make himself aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information ('all steps' means that a Director has made such enquiries of his fellow Directors and of the Company's statutory auditors for that purpose, and taken such other steps (if any) for that purpose).

Principal Activities

The Company was incorporated on 28 April 2010 and is authorised as an Undertaking for Collective Investment in Transferable Securities ("UCITS") by the Central Bank of Ireland. The Company is structured as an umbrella investment company with variable capital and segregated liability between Sub-Funds pursuant to the UCITS Regulations.

Directors' report for the financial year ended 31 July 2023 (continued)**Principal Activities (continued)**

At financial year ended 31 July 2023, the Company had 18 Sub-Funds in existence which are detailed in note 1 with their respective launch dates.

The following Sub-Funds have been admitted to trading on the Main Securities Market of Euronext Dublin and the Main Securities Market of the London Stock Exchange (the "LSE").

Sub-Fund	Euronext Dublin trading date	LSE trading date
SciBeta HFE Europe Equity 6F EW UCITS ETF	14 December 2017	18 December 2017
SciBeta HFE EM Equity 6F EW UCITS ETF	14 December 2017	18 December 2017
SciBeta HFE US Equity 6F EW UCITS ETF	14 December 2017	18 December 2017
SciBeta HFE Japan Equity 6F EW UCITS ETF	14 December 2017	18 December 2017
SciBeta HFE Pacific ex-Jap Equity 6F EW UCITS ETF	14 December 2017	18 December 2017
SciBeta HFI US Equity 6F EW (USD) UCITS ETF	12 February 2020	19 February 2020

Principal Risks

Investment in the Company carries with it a degree of risk including, but not limited to, the risks referred to in note 13 of these financial statements. Information about the financial risk management objectives and policies of the Company is also disclosed in note 13 and in the investment manager reports of each Sub-Fund. The investment manager reports also detail the impact of changes in the macroeconomic environment on the Sub-Funds, where applicable. Examples of changes that may impact the Sub-Fund are increased interest rates and increased global inflation.

Index tracking disclosures

Sub-Fund	Index	Tracking error	Anticipated tracking error
SciBeta HFE Europe Equity 6F EW UCITS ETF	Scientific Beta Developed Europe Europe HFI Multi-Beta Multi Strategy Six-Factor EW Market Beta Adjusted (Leverage) Net Return	0.03%	0.20%
SciBeta HFE EM Equity 6F EW UCITS ETF	Scientific Beta Emerging ex-India HFI Multi-Beta Multi-Strategy (Six-Factor) EW Market Beta Adjusted (Leverage) Index Net Return	0.04%	0.20%
SciBeta HFE US Equity 6F EW UCITS ETF	Scientific Beta United States HFI Multi Beta Multi Strategy Six Factor EW Market Beta Adjusted (Leverage) Net Return	0.03%	0.20%
SciBeta HFE Japan Equity 6F EW UCITS ETF	Scientific Beta Japan HFI Multi-Beta Multi-Strategy Six Factor EW Market Beta Adjusted (Leverage) (Six-Factor) Index Net Return	0.04%	0.20%
SciBeta HFE Pacific ex-Jap Equity 6F EW UCITS ETF	Scientific Beta Developed Asia-Pacific ex-Japan HFI Multi-Beta Multi-Strategy Six-Factor Equal Weight Market Beta Adjusted (Leverage) Index Net Return	0.04%	0.20%
SciBeta HFI US Equity 6F EW (USD) UCITS ETF	SciBeta United States High-Factor-Intensity Diversified Multi-Beta Multi-Strategy 6-Factor 4-Strategy EW Market Beta Adjusted (Leverage) Net Return	0.03%	0.20%
Morgan Stanley Alpha Tracker UCITS Fund	Morgan Stanley Alpha Tracker Index™	0.04%	1.00%

The realised divergence with the anticipated level of tracking error, is due to the quality of the synthetic replication of the Index. During this period, the replication was not impacted by corporate actions and was only slightly impacted by credit or debit interest accrued on cash balances.

Review of Business and Future Developments

A detailed review of the business and future developments is included in the Investment Managers' Reports. The Directors believe that the change in the net asset value per share is the key indicator of performance. Further detail on the change in the net asset value per share can be found in note 10 to the financial statements.

Directors' report for the financial year ended 31 July 2023 (continued)

Results and Dividends

The results and dividends for the financial year are set out in the statement of comprehensive income on pages 169 to 180. There were distributions of €244,807 (31 July 2022: €591,765) declared and paid on Class D Eur of Equity Risk Managed Fund. The ex-dates were 3 October 2022, 4 January 2023 and 3 April 2023. The distribution rate was 0.70% during the financial year ended 31 July 2023 (31 July 2022: 0.70%). No distribution was declared in July 2023 as the Equity Risk Managed Fund terminated on 27 June 2023.

Please see note 14 for further details.

Directors, Secretary and their interests

The names of the Directors who have served for the financial year under review are as follows:

- Simon O'Sullivan
- David Haydon
- Maurice Murphy
- Rowena Mallaghan

Matsack Trust Limited acted as Company Secretary throughout the financial year.

None of the Directors or the Secretary or their families had any direct interest in the shares of the Company or shares issued by the Sub-Funds at any time during the financial year.

Transactions involving Directors

There were no contracts or agreements of any significance in relation to the business of the Company in which the Directors had any interest, as defined in the Companies Act 2014 at any time during the financial year, other than those set out in note 7 to the financial statements.

Going Concern

The Directors believe there are no material uncertainties relating to events or conditions that may cast significant doubt on the ability of the Company to continue to meet its ongoing obligations as:

- the Sub-Funds invest primarily in marketable securities and other financial instruments which, under normal market conditions, are readily convertible to cash;
- the Sub-Funds' policy is to maintain sufficient cash and cash equivalents to meet normal operating requirements and expected redemption requests; and
- the Sub-Funds have access to a bank overdraft facility to help mitigate liquidity risk.

The Directors have made an assessment of the Company's ability to continue as a going concern and are satisfied that the Company has the resources to continue in operational existence for the foreseeable future and do not consider there to be any threat to the going concern status of the Company. Therefore, the financial statements continue to be prepared on the going concern basis.

Accounting Records

To ensure that adequate accounting records are kept in accordance with Sections 281 to 285 of the Companies Act 2014, the Directors of the Company have employed a service organisation, Northern Trust International Fund Administration Services (Ireland) Limited, the Administrator. The accounting records are located at the offices of the Administrator as stated under General Information.

Connected Persons Transactions

Regulation 43(1) of the Central Bank UCITS Regulations requires that any transaction between a UCITS and a management company or depositary of a UCITS, the delegate or sub-delegates of such a management company or depositary (excluding any non-group company sub-custodians appointed by a depositary), and any associated or group companies of such a management company, depositary, delegate or sub-delegate ("connected persons") is conducted at arm's length and is in the best interests of the shareholders of the UCITS.

Directors' report for the financial year ended 31 July 2023 (continued)

Connected Persons Transactions (continued)

The Directors are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and all transactions with connected persons entered into during the financial year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

Audit Committee

The Board of Directors ("the Board") has decided it is not necessary to constitute an audit committee given the oversight provided by the Board throughout the year on the Company and its matters and the size of the Board. Instead, it is deemed more appropriate that the entirety of the Board carry out the activities that would otherwise be carried out by an audit committee.

Remuneration

The Central Bank UCITS Regulations require UCITS Management Companies and self-managed UCITS, to establish and apply remuneration policies and practices that promote sound and effective risk management, and also requires the financial statements of the Company to include certain remuneration information, for details please refer to Appendix 2 on page 301. The Company has adopted the remuneration policy of MSIM Fund Management (Ireland) Limited which complies with the UCITS Regulations. This policy was last updated in August 2022 and is under continuous review.

Details of directors' remuneration are disclosed in note 7 on page 254.

Key Investor Information Documents

The current Key Investor Information Documents ("KIID") for all share classes of the Company are available on www.fundlogic.morganstanley.com.

Significant Events During the Financial Year

Funds liquidated during the year

MS Scientific Beta US Equity Factors UCITS ETF terminated on 17 November 2022.

Zebra Kante™ 80 Protect terminated on 21 November 2022.

Emerging Markets Equity Fund terminated on 22 November 2022.

MSCI Emerging Markets ESG Equity Fund terminated on 19 January 2023.

Equity Risk Managed Fund terminated on 27 June 2023.

New Prospectus

The Company issued a new Prospectus and Supplements on 1 August 2022 to reflect the appointment of MSIM Fund Management (Ireland) Limited as Management Company of the Company.

Management Company

With effect from 1 August 2022 MSIM Fund Management (Ireland) Limited was appointed as Management Company of the Company. This appointment followed the Board's decision to change the legal structure and management model of the Company, from self-managed to employing a separate management company.

MSIM Fund Management (Ireland) Limited is an indirect wholly owned subsidiary of Morgan Stanley having its registered office at 24-26 City Quay, Dublin 2, D02 NY19, Ireland. MSIM Fund Management (Ireland) Limited was incorporated as a company limited by shares under the laws of Ireland on 5 December 2017 and is regulated in Ireland by the Central Bank of Ireland.

There were no other significant events during the financial year.

Significant Events After the Financial Year End

There were no significant events subsequent to 31 July 2023 to the date the financial statements were approved by the Directors which require adjustment or disclosure in the financial statements.

Directors' report for the financial year ended 31 July 2023 (continued)

Auditors

Ernst & Young, Chartered Accountants, were appointed to act as Auditors on 26 November 2010. The Company is required to rotate its statutory auditor under Public Interest Entity ("PIE") guidelines starting from the year ending 31 July 2024. A tender process took place which will result in the appointment of the Company's new auditor, once approved by the Board.

Statement of Corporate Governance

The European Communities (2006/46 EC) Regulations 2009 requires the directors of all companies with securities admitted to trading on a regulated market to make an annual statement on corporate governance. The statement is required to include commentary on compliance with applicable codes of governance, systems of risk management and internal controls together with other details, including the operation of the Board of Directors and arrangements for shareholder meetings. Relevant information on the Company's governance arrangements for the financial year ended 31 July 2023 are set out below.

The Company is subject to corporate governance practices imposed by:

- (i) the Companies Act 2014, which can be obtained from the Office of the Attorney General's website at www.irishstatutebook.ie and is also available for inspection at the registered office of the Company;
- (ii) the Central Bank in their Central Bank UCITS Regulations, which can be obtained from the Central Bank's website and is available for inspection at the registered office of the Company; and
- (iii) Euronext Dublin ("XDUB") through their Code of Listing Requirements and Procedures, which can be obtained from the Euronext Dublin's website at www.euronext.com/en/markets/dublin.

Corporate Governance Code

The Board has adopted the Corporate Governance Code for Collective Investment Schemes and Management Companies as published by Irish Funds (the "CGC"), as the Company's corporate governance code, practices and procedures. The Board has assessed the measures included in the CGC as being consistent with its corporate governance practices and procedures for the financial year.

Internal Control and Risk Management Systems in Relation to Financial Reporting

The Board is responsible for ensuring that adequate internal control and risk management systems of the Company in relation to the financial reporting process are in place. Such systems are designed to manage, rather than eliminate, risks and can provide only reasonable, not absolute, assurance against material misstatement or loss.

The Administrator, as the relevant delegate of the Manager, has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and half-yearly financial statements. The Administrator is authorised and regulated by the Central Bank of Ireland and is required to comply with the rules issued by the Central Bank in the conduct of its business. The Board receives and considers reports from the Administrator on a regular basis and, from time to time, also examines and evaluates the Administrator's financial accounting and reporting routines.

The annual and half-yearly financial statements of the Company are required to be approved by the Board and filed with the Central Bank of Ireland and Euronext Dublin. The statutory annual financial statements are required to be audited by independent auditors who report annually to the Board on their findings.

The Board monitors and evaluates the independent auditor's performance, qualifications and independence. As part of the review procedures, the Board receives and considers reports on the audit process and evaluates and discusses significant accounting and reporting issues as the need arises.

Shareholders' Meetings

The convening and conduct of shareholders' meetings are governed by the Articles of Association of the Company and the Companies Act 2014. Although the Board may convene an extraordinary general meeting of the Company at any time, the Board is required to convene an annual general meeting of the Company each year ensuring that it is held within fifteen months of the date of the previous annual general meeting. Not less than twenty one clear days' notice of every annual general meeting and any extraordinary general meeting convened for the passing of a special resolution must be given to shareholders and fourteen clear days' notice must be given in the case of any other extraordinary general meeting unless the auditors of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice.

Directors' report for the financial year ended 31 July 2023 (continued)

Shareholders' Meetings (continued)

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders' meeting. An ordinary resolution of the Company or of the shareholders of a particular Sub-Fund or class requires a simple majority of the votes cast by the shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the Company or of the shareholders of a particular Sub-Fund or class requires a majority of not less than 75% of the shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the Articles of Association.

Board Composition and Operations

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Currently the Company's Board is composed of four Directors, being those listed in the General Information section in these financial statements.

The business of the Company is managed by the Directors, who exercise all such powers of the Company as are not required by the Companies Act 2014, the UCITS Regulations, and the Central Bank UCITS Regulations or by the Articles of Association of the Company to be carried out in general meeting.

A Director may, and the Company Secretary on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the Chairman has a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

Annual Depository report to the shareholders for the financial year ended 31 July 2023

We, Northern Trust Fiduciary Services (Ireland) Limited, appointed Depository to FundLogic Alternatives p.l.c. (the “Company”) provide this report solely in favour of the shareholders of the Company for the financial year ended 31 July 2023 (the “Annual Accounting Period”). This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011), as amended, which implemented Directive 2009/65/EU into Irish Law (“the Regulations”). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depository obligation as provided for under the Regulations, we have enquired into the conduct of the Company for this Accounting year and we hereby report thereon to the shareholders of the Company as follows:

We are of the opinion that the Company has been managed during the Annual Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documents and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documents and the Regulations.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF FUNDLOGIC ALTERNATIVES P.L.C.

Report on the audit of the financial statements

Opinion

We have audited the financial statements of FundLogic Alternatives p.l.c. ('the Company') for the year ended 31 July 2023, which comprise the Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Cash Flows and notes to the financial statements, including the summary of significant accounting policies set out in note 2. The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Company as at 31 July 2023 and of its loss for the year then ended;
- have been properly prepared in accordance with IFRS as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard as applied to public interest entities issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the Company's ability to continue to adopt the going concern basis of accounting included:

- Confirming our understanding of management's going concern assessment process and also engaged with management to understand the key factors, which were considered in their assessment;
- Obtaining management's going concern assessment, which covers a year from the date of approval of the financial statements and reviewing the key factors considered by management in making their assessment of going concern;

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF FUNDLOGIC ALTERNATIVES P.L.C.

Conclusions relating to going concern (continued)

- Considering post year-end performance and making enquires of management of any other subsequent events, which might give rise to conditions which could lead management to discontinue the operations of the Company.
- Reviewing the Company's going concern disclosures included in the annual report in order to assess that the disclosures were appropriate and in conformity with the reporting standards.

Conclusion

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR’S REPORT TO THE MEMBERS OF FUNDLOGIC ALTERNATIVES P.L.C.

Key audit matters (continued)

Risk	Our response to the risk	Key observations
<p>Valuation of financial assets at fair value through profit or loss of \$641,599,064 (2022: \$1,362,347,284) and financial liabilities at fair value through profit or loss of \$7,476,500 (2022: \$41,884,253)</p> <p>We have considered valuation of the Company’s investments as a key audit matter for the financial year because it significantly impacts the Company’s performance and net asset value.</p> <p>Refer to the Note 4 Fair Value hierarchy and Note 5 Financial Derivative Instruments.</p>	<p>We have obtained the listing of all financial assets and financial liabilities at fair value through profit or loss as at year-end and assessed the reasonableness of the valuation by performing the following procedures:</p> <p>Valuation of Total Return Swaps (TRS) We confirmed 100% of the value of the TRSs by obtaining confirmation from the counterparty. We also reviewed the reasonableness of the valuation methodology used including the inputs adopted by the Company. Additionally, for a sample of TRSs, we agreed the reset amounts to post year end bank statements.</p> <p>Valuation of other investments We have re-priced all other positions using independent pricing sources or using industry standard valuation models with market observable inputs.</p>	<p>No issues have been noted from the performance of our procedures over this key audit matter.</p>

Our application of materiality

We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

Materiality

The magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. Materiality provides a basis for determining the nature and extent of our audit procedures.

We determined materiality for the Company to be 0.5% (2022: 0.5%) of Net Asset Value. We believe that Net Asset Value provides us with an appropriate measurement basis since the users of the financial statements may focus more on assets or equity than earnings.

During the course of our audit, we reassessed initial materiality and there were no changes in the materiality.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF FUNDLOGIC ALTERNATIVES P.L.C.

Performance materiality

The application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.

On the basis of our risk assessments, together with our assessment of the Company's overall control environment, our judgement was that performance materiality was 75% (2022: 75%) of our planning materiality. We have set performance materiality at this percentage due to our knowledge of the entity and industry, our past history with the entity, effectiveness of the control environment and our assessment of the risks associated with the engagement.

Reporting threshold

An amount below which identified misstatements are considered as being clearly trivial.

We agreed with the Board of Directors that we would report to them all uncorrected audit differences in excess of 5% of planning materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations in forming our opinion.

An overview of the scope of our audit report

Tailoring the scope

Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the company. This enables us to form an opinion on the financial statements. We take into account size, risk profile, the organisation of the company and effectiveness of controls, including controls and changes in the business environment when assessing the level of work to be performed. All audit work was performed directly by the audit engagement team.

Other information

The directors are responsible for the other information. The other information comprises the information included in the Annual Report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF FUNDLOGIC ALTERNATIVES P.L.C.

Opinions on other matters prescribed by the Companies Act 2014

In our opinion, based solely on the work undertaken in the course of the audit, we report that:

- the information given in the directors' report for the financial year ended for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with applicable legal requirements.

We have obtained all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

Matters on which we are required to report by exception

Based on the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures required by sections 305 to 312 of the Act, which relate to directors' remuneration and transactions are not complied with by the Company. We have nothing to report in this regard.

Respective responsibilities

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 2, the directors are responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework that give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as going concerns, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF FUNDLOGIC ALTERNATIVES P.L.C

Explanation to what extent the audit was considered capable detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud, that could reasonably be expected to have a material effect on the financial statements. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. In addition, the further removed any non-compliance is from the events and transactions reflected in the financial statements, the less likely it is that our procedures will identify such non-compliance. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the company and management.

Our approach was as follows:

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the company and determined that the most significant are Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.
- We understood how the Company is complying with those frameworks by updating our understanding of the adequate system of internal control in place. We also considered the existence of independence service providers, proper segregation of duties and the regulated environment in which the Company operates, which may reduce opportunities for fraud to take place.
- We assessed the susceptibility of the Company's financial statements to material misstatement, including how fraud might occur by management override of controls.
- Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved inquiries to those charged with governance into possible instances of non-compliance with laws and regulations, review of board meeting minutes during the year and obtaining representation from the management.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf. This description forms part of our auditor's report.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF FUNDLOGIC ALTERNATIVES P.L.C.

Other matters which we are required to address

We were appointed by the directors on 26 November 2010 to audit the financial statements for the year ending 2011 and subsequent financial periods. The period of total uninterrupted engagement including previous renewals and reappointments of the firm is 12 years.

The non-audit services prohibited by IAASA's Ethical Standard were not provided to the company and we remain independent of the company in conducting our audit.

Our audit opinion is consistent with the additional report to the Board of Directors.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

**Emerging Markets Equity Fund
Investment manager's report for the financial year ended 31 July 2023**

The Sub-Fund's investment objective is to provide Shareholders with a return equivalent to the performance of the MSCI Emerging Markets Index (Total Return Net Dividend Reinvested) denominated in US dollars before all fees and expenses.

The MSCI Emerging Markets Index is representative of various emerging market countries. As at October 2022, the Index comprised of 25 emerging market countries: China, South Korea, Taiwan, India, South Africa, Brazil, Hong Kong, Mexico, Malaysia, Thailand, Saudi Arabia, Kuwait, Indonesia, Poland, Chile, Philippines, Turkey, United Arab Emirates, Qatar, Colombia, Peru, Hungary, Czech Republic, Netherlands, Egypt, plus five non-emerging markets: Greece, Luxembourg, Australia, United States and Singapore.

From 10 January 2011 (its inception) to 22 November 2022, the performance of the Sub-Fund was 6.11%, compared to 8.98% for the Index.

From 29 July 2022 to 22 November 2022, the performance of the Sub-Fund was -6.21%, compared to -5.95% for the Index.

The Sub-Fund and the Index had an annualised volatility of 15.89% compared to 15.88% for the Index.

In terms of tracking error (annualised standard deviation of the difference in performance between the return of the Sub-Fund and its benchmark) the Sub-Fund has achieved a low tracking error at 0.02% versus the Index since launch.

The Fund was closed on 22 November 2022.

Emerging Markets Equity Fund
Schedule of significant portfolio movements for the financial year ended 31 July 2023

Total purchases in the year	US\$ 3,914,852	
All purchases	Nominal holdings	Cost US\$

MS Swiss Life Multi Asset Protected Fund Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to provide Shareholders with long term exposure to the performance of a Portfolio Basket with 80% of the highest NAV being protected as minimum exit Net Asset Value.

The Portfolio Basket is composed of exposures to fixed income, equities, commodities, foreign exchange and volatility strategies as determined by Swiss Life (the Sub-Investment Manager) and to an effective overnight interest rate for the Swiss Franc. The allocation between the portfolio and the exposure to the interest rate return is rebalanced following a volatility target strategy. The volatility budget of the Portfolio Basket is 5% over the term of the investment. 80% of the highest Net Asset Value per share is protected as minimum Exit Net Asset Value via the purchase of a put option.

As at 31 July 2023 the Sub-Fund's exposure to the portfolio strategy was 100.00% with an average exposure since launch of 89.94%.

Sub Investment Manager's report on the discretionary strategy:

Over the period from the end of July 2022 until the end of July 2023, the Portfolio Basket posted a return of -1.6%. The core strategy remained similar to the previous years with an average allocation of 52.7% to bonds, 18.5% to international equity, 6.0% to commodities and a residual exposure to cash.

The average Sharpe ratio over the period was -0.02. The Portfolio Basket has been managed in accordance with the Swiss Life classification of the product as a defensive one. This classification means that the volatility considered for this product as a risk measure was around 5.7% on average.

For the near future Swiss Life as sub investment manager of the fund intends to keep a similar strategy considering this product as defensive with the aim of providing a low volatility return.

The Sub-Fund was launched on 15 July 2013.

From 15 July 2013 (its inception) to 31 July 2023, the performance of the Sub-Fund was -12.03%.

For the year ended 31 July 2023, the performance of the Sub-Fund was -2.68%.

The Sub-Fund had an annualised volatility of 3.52%.

MSCI Emerging Markets ESG Equity Fund Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to provide returns equivalent to the performance of the MSCI Emerging Markets ESG Index (Total Return Net Dividend Reinvested) (the "Index") before all fees and expenses.

The Index is representative of the performance of companies with high Environmental, Social and Governance (ESG) performance relative to their sector peers (i.e. those companies which have a higher ESG rating relative to their peers - the ESG rating evaluates a company's impact on the environment, community and society, employees and its supply chain, customers and governance) located in various emerging markets. As of December 2022, the Index comprised of 25 emerging market economies; Brazil, Chile, China, Colombia, Czech Republic, Egypt, Hong Kong, Hungary, India, Indonesia, Malaysia, Mexico, Philippines, Poland, Qatar, Netherlands, Saudi Arabia, Kuwait, Peru, South Africa, South Korea, Taiwan, Thailand, Turkey, United Arab Emirates and two non-emerging markets: Greece and Singapore.

From 18 February 2015 (its inception) to 19 January 2023, the performance of the Sub-Fund was 28.54%, compared to 34.62% for the Index.

From 29 July 2022 to 19 January 2023, the performance of the Sub-Fund was 4.64%, compared to 5.16% for the Index.

The Sub-Fund had an annualised volatility of 18.16% compared to 18.15% for the Index.

In terms of tracking error (annualised standard deviation of the difference in performance between the return of the Sub-Fund and its benchmark) the Sub-Fund has achieved a low tracking error at 0.02% versus the Index since launch.

The Fund was closed on 19 January 2023.

MS Scientific Beta US Equity Factors UCITS ETF
Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to seek medium to long term capital appreciation by providing Shareholders with a return equivalent to the performance of the Scientific Beta United States Multi Beta Multi-Strategy Equal-Weight Index, denominated in USD before all fees and expenses charged to, or incurred by, the Sub-Fund.

The Scientific Beta United States Multi Beta Multi-Strategy Equal-Weight Index is an index designed to have allocation to a portfolio of equities and equity related securities through equally-weighted allocations to 4 sub-indices. Each sub-index will reflect one of the four following investment styles: Value, Momentum, Low Volatility and Size.

From 11 August 2015 (its inception) to 17 November 2022, the performance of the Sub-Fund was 71.64%, compared to 76.71% for the Index.

From 29 July 2022 to 17 November 2022, the performance of the Sub-Fund was -1.96%, compared to -1.84% for the Index.

The Sub-Fund and the Index had an annualised volatility of 18.78% compared to 18.77% for the Index.

In terms of tracking error (annualised standard deviation of the difference in performance between the return of the Sub-Fund and its benchmark) the Sub-Fund has achieved a low tracking error at 0.02% versus the Index since launch.

The Fund was closed on 17 November 2022.

80% Protected Index Portfolio
Investment manager's report for the financial year ended 31 July 2023

The investment objective of the Sub-Fund is to provide shareholders with long term exposure to the performance of the Portfolio Strategy (as defined below) with 80% of the highest net asset value (from the launch of the Sub-Fund onwards) being protected as a minimum redemption net asset value.

The Portfolio Strategy consists of long positions in a portfolio of regulated investment funds (including ETFs) (the "Investment Portfolio") and cash. The Investment Portfolio composition and allocation is determined by the investment manager and is set out in Annex I of the supplement of the Sub-Fund as amended from time to time. The allocation between the Investment Portfolio and cash is based on a volatility control mechanism with a budget of 8%. This seeks to control the volatility of the Investment Portfolio by adjusting the allocation to the Investment Portfolio if the volatility of the Investment Portfolio changes over a specified period.

As at 31 July 2023 the Sub-Fund's exposure to the portfolio strategy was 85.50% with an average exposure since launch of 85.56%.

The Sub-Fund was launched on 16 February 2016.

From 16 February 2016 (its inception) to 31 July 2023, the performance of the Sub-Fund was 6.34%.

For the year ended 31 July 2023, the performance of the Sub-Fund was -3.78%.

The Sub-Fund had an annualised volatility of 6.12%.

Cautious 85% Protected Fund Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to provide Shareholders with long term exposure to the performance of the Portfolio Strategy (as defined below) with 85% of the highest NAV (from the launch of the Sub-Fund onwards) being protected as a minimum exit Net Asset Value.

The Portfolio Strategy is a multi-asset portfolio which consists of investments in fixed income, equities, foreign exchange and alternative assets including ETFs, determined from time to time by OP Asset Management Ltd (the "Sub-Investment Manager") and exposure to cash.

The allocation between the portfolio and cash is rebalanced following a volatility control mechanism. The volatility budget (i.e. the maximum allowed level of annualised standard deviation of the Portfolio Strategy) is below 5% over the term of the investment.

As at 31 July 2023 the Sub-Fund's exposure to the portfolio strategy was 92.41% with an average exposure since launch of 83.73%.

The Sub-Investment Manager determines the allocation to the constituents of the strategy on a discretionary basis, subject to a minimum allocation of 50% of net exposure to fixed income and minimum allocation of 50% of net exposure to equities.

Sub Investment Manager's report on the discretionary strategy:

The Cautious 85% Protected Fund declined 2.7% after expenses from the end of July 2022 to the end of July 2023.

The global fixed income instruments were down on aggregate almost 5 percent in euros in the period from end of July 2022 to end of July 2023 – at worst they were down 10 percent in October 2022. The global equity markets were up 5 percent over the period from end of July 2022 to end of July 2023.

Large negative returns in the fixed income market (especially in October 2022) are extremely rare and were due to a sharp rise in interest rates and an increase in risk premia on corporate bonds. In practice, all interest rate classes were loss-making, and because the current interest income offered by the market was so weak, it was not enough to compensate for the losses caused by rising interest rates. During the latter part of year 2022 equity market returns suffered heavily from the same tightening of monetary policy and, to some extent, from the expected slowdown in the economy. Equity valuations were quite high and rising interest rates weighed on prices also when valuations were under pressure.

In the year 2023 investors faced a rise in equity prices based on an increase in valuation multiples, which has been justified by the productivity leap brought about by artificial intelligence. However, corporate earnings growth forecasts have not risen at the same pace, and downside risks to the real economy remain elevated, as the employment situation, which has up to now remained strong, has also started to show signs of weakening. Further pressure on exchange rate sustainability will be caused by tightening fiscal policy in the United States towards the end of the year, dwindling excess savings for consumers, the slow shutdown of balance sheets drying up central bank liquidity, and monetary policy remaining tight. As expected, inflation has fallen from its record high levels, but it is still clearly too high for central banks' targets in both Europe and the United States. For this reason, central banks will continue their monetary policy tightening measures. However, the economic effects of tightening will only be visible with a delay, so risks of economic downturn will rise while central banks fight inflation and seek to restore credibility.

The Sub-Fund was launched on 9 February 2017.

From 9 February 2017 (its inception) to 31 July 2023, the performance of the Sub-Fund was -7.94%.

For the year ended 31 July 2023, the performance of the Sub-Fund was -2.73%.

From 15 February 2017 (since the Sub-Fund has been exposed to the underlying strategy) to 31 July 2023, the performance of the Sub-Fund was -7.94%.

Since the Sub-Fund has been exposed to the underlying strategy it had an annualised volatility of 4.67%.

Equity Risk Managed Fund Investment manager's report for the financial year ended 31 July 2023

The investment objective of Equity Risk Managed Fund ("The Sub-Fund") is to provide shareholders with medium to long term capital growth, by taking exposure to a long only equity factors portfolio, while aiming to partially protect the Sub-Fund's value using an Option Hedging Strategy (as defined below).

The equity and equity related securities or indices within the Investment Portfolio are selected by Morgan Stanley Investment Management Limited ("the Investment Manager") by following an equity factor-based investment strategy.

The Investment Manager rebalances the exposure between the Investment Portfolio and cash within the Portfolio Strategy in order to control the volatility of the Portfolio Strategy. The volatility budget (i.e. the maximum targeted level of annualised change in value of the Portfolio Strategy) is 10% over the term of the investment.

The Sub-Fund has also implemented a risk mitigation mechanism (the "Option Hedging Strategy") through total return swaps:

(a) Purchasing put options that partially protect the Portfolio Strategy return (in the event of downward movement of the Portfolio Strategy the put options which the Sub-Fund holds may mitigate losses). The put options will have a strike level which is 90% of the prevailing level of the Portfolio Strategy.

(b) Selling call options on the value of the Portfolio Strategy in order to generate income. The premiums received pursuant to the sale of the call options will be utilised to pay the premiums (in full or in part) required to acquire the put options referenced above and any surplus will be used to generate returns for the Sub-Fund.

As at 27 June 2023 the protection level of the put options portfolio was 86.77% of the Portfolio Strategy. No call options were sold during the period.

As at 27 June 2023 the Sub-Fund's exposure to the portfolio strategy was 100.00% with an average exposure since launch of 79.14%.

The Sub-Fund was launched on 10 April 2017.

The D EUR share class was launched on the 28 May 2020 with the aim of distributing quarterly dividends to investors. On the 3 of April 2023, a 0.68 dividend per share was distributed and the fund was liquidated on 27 June 2023.

From 10 April 2017 (its inception) to 13 January 2023, the performance of the A EUR Share Class was 7.87%.

From 10 April 2017 (its inception) to 20 June 2023, the performance of the A GBP Share Class was 12.79%.

From 10 April 2017 (its inception) to 20 June 2023, the performance of the A USD Share Class was 21.02%.

From 28 May 2020 (its inception) to 27 June 2023, the performance of the D EUR Share Class was -3.27%.

From 29 July 2022 to 13 January 2023, the performance of the A EUR Share Class was -1.37%.

From 29 July 2022 to 20 June 2023, the performance of the A GBP Share Class was -1.24%.

From 29 July 2022 to 20 June 2023, the performance of the A USD Share Class was -0.12%.

From 29 July 2022 to 27 June 2023, the performance of the D EUR Share Class was -4.93%.

From 10 April 2017 to 13 January 2023, the annualised volatility of the A EUR Share Class was 7.87%.

From 10 April 2017 to 20 June 2023, the annualised volatility of the A GBP Share Class was 7.88%.

From 10 April 2017 to 20 June 2023, the annualised volatility of the A USD Share Class was 7.90%.

From 28 May 2020 to 27 June 2023, the annualised volatility of the D EUR Share Class was 8.36%.

The Fund was closed on 27 June 2023.

Moderate 80% Protected Fund Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to provide Shareholders with long term exposure to the performance of the Portfolio Strategy (as defined below) with 80% of the highest NAV (from the launch of the Sub-Fund onwards) being protected as a minimum exit Net Asset Value.

The Portfolio Strategy is a multi-asset portfolio which consists of investments in fixed income, equities, foreign exchange and alternative assets including ETFs, determined from time to time by OP Asset Management Ltd (the "Sub-Investment Manager") and exposure to cash.

The allocation between the portfolio and cash is rebalanced following a volatility control mechanism. The volatility budget (i.e. the maximum allowed level of annualised standard deviation of the Portfolio Strategy) is below 10% over the term of the investment.

As at 31 July 2023 the Sub-Fund's exposure to the portfolio strategy is 125.00% with an average exposure since launch of 104.27%.

The Sub-Investment Manager determines the allocation to the constituents of the strategy on a discretionary basis, subject to a minimum allocation of 0% of net exposure to fixed income and maximum allocation of 100% of net exposure to equities.

Sub Investment Manager's report on the discretionary strategy:

The Moderate 80% Protected Fund declined 4% after expenses from the end of July 2022 to the end of July 2023.

The global fixed income instruments were down on aggregate almost 5 percent in euros in the period from end of July 2022 to end of July 2023 – at worst they were down 10 percent in October 2022. The global equity markets were up 5 percent over the period from end of July 2022 to end of July 2023.

Large negative returns in the fixed income market (especially in October 2022) were extremely rare and were due to a sharp rise in interest rates and an increase in risk premia on corporate bonds. In practice, all interest rate classes were loss-making, and because the current interest income offered by the market was so weak, it was not enough to compensate for the losses caused by rising interest rates. During the latter part of year 2022 equity market returns suffered heavily from the same tightening of monetary policy and, to some extent, from the expected slowdown in the economy. Equity valuations were quite high and rising interest rates weighed on prices also when valuations were under pressure.

In the year 2023 investors faced a rise in equity prices based on an increase in valuation multiples, which has been justified by the productivity leap brought about by artificial intelligence. However, corporate earnings growth forecasts have not risen at the same pace, and downside risks to the real economy remain elevated, as the employment situation, which has up to now remained strong, has also started to show signs of weakening. Further pressure on exchange rate sustainability will be caused by tightening fiscal policy in the United States towards the end of the year, dwindling excess savings for consumers, the slow shutdown of balance sheets drying up central bank liquidity, and monetary policy remaining tight. As expected, inflation has fallen from its record high levels, but it is still clearly too high for central banks' targets in both Europe and the United States. For this reason, central banks will continue their monetary policy tightening measures. However, the economic effects of tightening will only be visible with a delay, so risks of economic downturn will rise while central banks fight inflation and seek to restore credibility.

The Sub-Fund was launched on 28 September 2017.

From 28 September 2017 (its inception) to 31 July 2023, the performance of the Sub-Fund was -9.68%.

The Sub-Fund had an annualised volatility of 7.50%.

SciBeta HFE Europe Equity 6F EW UCITS ETF **Investment manager's report for the financial year ended 31 July 2023**

The Sub-Fund's investment objective is to seek medium to long term capital appreciation by providing Shareholders with a return equivalent to the performance of the Scientific Beta Developed Europe HFI Multi-Beta Multi-Strategy Six-Factor EW Market Beta Adjusted (Leverage) Net Return denominated in EUR (the "Index") before all fees and expenses charged to, or incurred by, the Sub-Fund.

The Scientific Beta Developed Europe HFI Multi-Beta Multi-Strategy Six-Factor EW Market Beta Adjusted (Leverage) Net Return is an index designed to have allocation to a portfolio of equities and equity related securities that are listed or traded on any stock exchange that is located in developed Europe through equally weighted allocations to 6 sub-indices. Each sub-index will reflect one of the six following investment styles: Value, Momentum, Low Volatility, Size, Profitability and Investment.

From Inception to 19 April 2018, the Sub-fund was exposed to Scientific Beta Developed Europe HFE Multi Strategy Equal Weight (Six Factor) Index and thereafter to Scientific Beta Developed Europe HFI Multi-Beta Multi-Strategy Six-Factor EW Market Beta Adjusted (Leverage) Net Return.

From 7 December 2017 (its inception) to 19 April 2018 (change of the underlying Index), the performance of the Sub-Fund was 0.60%, compared to 0.66% for the Scientific Beta Developed Europe HFE Multi Beta Multi Strategy Equal Weight (Six Factor) Index.

From 19 April 2018 (change of the underlying Index) to 31 July 2023, the performance of the Sub-Fund was 33.82%, compared to 35.23% for the Index.

For the year ended 31 July 2023, the performance of the Sub-Fund was 6.97%, compared to 7.18% for the Index.

From 19 April 2018 (change of the underlying Index) to 31 July 2023, the Sub-Fund had an annualised volatility of 18.28% compared to 18.29% for the Index.

In terms of tracking error (annualised standard deviation of the difference in performance between the return of the Sub-Fund and its benchmark) the Sub-Fund has achieved a low tracking error at 0.03% versus the Index since launch.

SciBeta HFE EM Equity 6F UCITS ETF **Investment manager's report for the financial year ended 31 July 2023**

The Sub-Fund's investment objective is to seek medium to long term capital appreciation by providing Shareholders with a return equivalent to the performance of the Scientific Beta Emerging ex-India HFI Multi-Beta Multi-Strategy (Six-Factor) EW Market Beta Adjusted (Leverage) Index Net Return denominated in EUR (the "Index") before all fees and expenses charged to, or incurred by, the Sub-Fund.

The Scientific Beta Emerging ex-India HFI Multi-Beta Multi-Strategy (Six-Factor) EW Market Beta Adjusted (Leverage) Index Net Return is an index designed to have allocation to a portfolio of equities and equity related securities that are listed or traded on any stock exchange that is located in an emerging markets country through equally-weighted allocations to 6 sub-indices. Each sub-index will reflect one of the six following investment styles: Value, Momentum, Low Volatility, Size, Profitability and Investment.

From Inception to 19 April 2018, the Sub-fund was exposed to Scientific Beta Emerging HFE Multi Beta Multi Strategy Equal Weight (Six Factor) Index and thereafter to Scientific Beta Emerging ex-India HFI Multi-Beta Multi-Strategy (Six-Factor) EW Market Beta Adjusted (Leverage) Index.

From 6 December 2017 (its inception) to 19 April 2018 (change of the underlying Index), the performance of the Sub-Fund was 2.41%, compared to 2.69% for the Scientific Beta Emerging HFE Multi Beta Multi Strategy Equal Weight (Six Factor) Index.

From 19 April 2018 (change of the underlying Index) to 31 July 2023, the performance of the Sub-Fund was 9.02%, compared to 14.91% for the Index.

For the year ended 31 July 2023, the performance of the Sub-Fund was 7.88%, compared to 8.97% for the Index.

From 19 April 2018 (change of the underlying Index) to 31 July 2023, the Sub-Fund had an annualised volatility of 18.43% compared to 18.43% for the Index.

In terms of tracking error (annualised standard deviation of the difference in performance between the return of the Sub-Fund and its benchmark) the Sub-Fund has achieved a low tracking error at 0.04% versus the Index.

SciBeta HFE US Equity 6F EW UCITS ETF
Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to seek medium to long term capital appreciation by providing Shareholders with a return equivalent to the performance of the Scientific Beta United States HFI Multi Beta Multi Strategy Six Factor EW Market Beta Adjusted (Leverage) Net Return denominated in EUR (the "Index") before all fees and expenses charged to, or incurred by, the Sub-Fund.

The Scientific Beta United States HFI Multi Beta Multi Strategy Six Factor EW Market Beta Adjusted (Leverage) Net Return is an index designed to have allocation to a portfolio of equities and equity related securities that are listed or traded on any stock exchange that is located in North America through equally weighted allocations to 6 sub-indices. Each sub-index will reflect one of the six following investment styles: Value, Momentum, Low Volatility, Size, Profitability and Investment.

From Inception to 19 April 2018, the Sub-fund was exposed to Scientific Beta USA HFE Multi-Beta Multi-Strategy Equal Weight (Six-Factor) Index and thereafter to Scientific Beta United States HFI Multi Beta Multi Strategy Six Factor EW Market Beta Adjusted (Leverage) Index.

From 6 December 2017 (its inception) to 19 April 2018 (change of the underlying Index), the performance of the Sub-Fund was -3.18%, compared to -3.04% for the Scientific Beta USA HFE Multi-Beta Multi-Strategy Equal Weight (Six-Factor) Index.

From 19 April 2018 (change of the underlying Index) to 31 July 2023, the performance of the Sub-Fund was 72.46%, compared to 77.56% for the Index.

For the year ended 31 July 2023, the performance of the Sub-Fund was -3.11%, compared to -2.57% for the Index.

From 19 April 2018 (change of the underlying Index) to 31 July 2023, the Sub-Fund had an annualised volatility of 23.85% compared to 23.85% for the Index.

In terms of tracking error (annualised standard deviation of the difference in performance between the return of the Sub-Fund and its benchmark) the Sub-Fund has achieved a low tracking error at 0.03% versus the Index.

SciBeta HFE Japan Equity 6F EW UCITS ETF
Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to seek medium to long term capital appreciation by providing Shareholders with a return equivalent to the performance of the Scientific Beta Japan HFI Multi-Beta Multi-Strategy Six Factor EW Market Beta Adjusted (Leverage) (Six-Factor) Index Net Return denominated in EUR (the "Index") before all fees and expenses charged to, or incurred by, the Sub-Fund.

The Scientific Beta Japan HFI Multi-Beta Multi-Strategy Six Factor EW Market Beta Adjusted (Leverage) (Six-Factor) Index Net Return is an index designed to have allocation to a portfolio of equities and equity related securities that are listed or traded on any stock exchange that is located in Japan through equally weighted allocations to 6 sub-indices. Each sub-index will reflect one of the six following investment styles: Value, Momentum, Low Volatility, Size, Profitability and Investment.

From Inception to 19 April 2018, the Sub-fund was exposed to Scientific Beta Japan HFE Multi-Beta Strategy Equal Weight (Six-Factor) Index and thereafter to Scientific Beta Japan HFI Multi-Beta Multi-Strategy Six Factor EW Market Beta Adjusted (Leverage) (Six-Factor) Index.

From 7 December 2017 (its inception) to 19 April 2018 (change of the underlying Index), the performance of the Sub-Fund was -0.44%, compared to -0.30% for the Scientific Beta Japan HFE Multi-Beta Strategy Equal Weight (Six-Factor) Index.

From 19 April 2018 (change of the underlying Index) to 31 July 2023, the performance of the Sub-Fund was 11.89%, compared to 15.08% for the Index.

For the year ended 31 July 2023, the performance of the Sub-Fund was 5.59%, compared to 6.15% for the Index.

From 19 April 2018 (change of the underlying Index) to 31 July 2023, the Sub-Fund had an annualised volatility of 18.74% compared to 18.73% for the Index.

In terms of tracking error (annualised standard deviation of the difference in performance between the return of the Sub-Fund and its benchmark) the Sub-Fund has achieved a low tracking error at 0.04% versus the Index.

SciBeta HFE Pacific ex-Jap Equity 6F EW UCITS ETF **Investment manager's report for the financial year ended 31 July 2023**

The Sub-Fund's investment objective is to seek medium to long term capital appreciation by providing Shareholders with a return equivalent to the performance of the Scientific Beta Developed Asia-Pacific ex-Japan HFI Multi-Beta Multi-Strategy Six-Factor Equal Weight Market Beta Adjusted (Leverage) Index Net Return denominated in EUR (the "Index") before all fees and expenses charged to, or incurred by, the Sub-Fund.

The Scientific Beta Developed Asia-Pacific ex-Japan HFI Multi-Beta Multi-Strategy Six-Factor Equal Weight Market Beta Adjusted (Leverage) Index Net Return is an index designed to have allocation to a portfolio of equities and equity related securities that are listed or traded on any stock exchange that is located in the developed Asia Pacific region excluding Japan through equally weighted allocations to 6 sub-indices. Each sub-index will reflect one of the six following investment styles: Value, Momentum, Low Volatility, Size, Profitability and Investment.

From Inception to 19 April 2018, the Sub-fund was exposed to Scientific Beta Developed Asia Pacific ex Japan HFE Multi Beta Multi Strategy Equal Weight (Six Factor) Index and thereafter to Scientific Beta Developed Asia-Pacific ex-Japan HFI Multi-Beta Multi-Strategy Six-Factor Equal Weight Market Beta Adjusted (Leverage) Index.

From 7 December 2017 (its inception) to 19 April 2018 (change of the underlying Index), the performance of the Sub-Fund was -1.04%, compared to -0.86% for the Scientific Beta Developed Asia-Pacific ex-Japan HFE Multi Beta Multi Strategy Equal Weight (Six Factor) Index.

From 19 April 2018 (change of the underlying Index) to 31 July 2023, the performance of the Sub-Fund was 13.80%, compared to 17.78% for the Index.

For the year ended 31 July 2023, the performance of the Sub-Fund was -5.88%, compared to -5.25% for the Index.

From 19 April 2018 (change of the underlying Index) to 31 July 2023, the Sub-Fund had an annualised volatility of 18.26% compared to 18.25% for the Index.

In terms of tracking error (annualised standard deviation of the difference in performance between the return of the Sub-Fund and its benchmark) the Sub-Fund has achieved a low tracking error at 0.04% versus the Index.

ACUMEN Capital Protection Portfolio Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to provide Shareholders with long term capital growth from a multi-asset portfolio and to achieve a Common Protection Level (expressed in % of NAV per Share) for each share class. The "Common Protection Level" is 90% of the highest NAV per share ever achieved by the GBP A Share class, expressed as a percentage of the current NAV per share of the GBP A Share Class.

The Portfolio Strategy is a multi-asset portfolio which consists of investments in fixed income, equities, foreign exchange and alternative assets including ETFs, determined from time to time by Titan Asset Management Ltd (the "Sub-Investment Manager") and exposure to cash.

The allocation between the portfolio and cash is rebalanced following a volatility control mechanism. The volatility budget (i.e. the maximum allowed level of annualised standard deviation of the Portfolio Strategy) is between 5% and 7% over the term of the investment.

Sub-Investment Manager's report on the discretionary strategy:

The Acumen Capital Protection Portfolio has effectively reached its protection level and therefore effectively has no exposure to the underlying asset portfolio. The protection mechanism of the fund has worked as it was intended to and the performance of the strategy has been in line with expectations. During this period there have been no trades within the asset portfolio.

Turning to our market outlook, it has been a difficult market to navigate this year with the rally in Artificial Intelligence stocks dominating equity market returns since the turn of the year while the risk of recession remains prominent. The lagged effects of monetary policy tightening is still feeding through to the real economy. The US has yet to fall into recession, but global trade, corporate earnings and leading manufacturing indicators highlight the fragilities in the US and global economies. Lending standards have been tightening over the course of the year which has been exacerbated by the US regional banking stress and may have further to go. All these factors have led us to take a cautious approach in our investments. However, we are mindful that the market has been focused on potential rate cuts and falling inflation, particularly in the US. If inflation continues to fall faster than the economy contracts, equities could continue to increase in value.

As at 31 July 2023 the Sub-Fund's exposure to the Portfolio Strategy was 100.00% with an average exposure since launch of 88.37%.

From 11 May 2018 (its inception) to 31 July 2023, the performance of the GBP Share Class was -9.84%.

From 12 December 2018 (its inception) to 31 July 2023, the performance of the USD Share Class was -2.60%.

From 25 February 2019 (its inception) to 31 July 2023, the performance of the EUR Share Class was -11.17%.

For the year ended 31 July 2023, the performance of the GBP Share Class was 0.00%.

For the year ended 31 July 2023, the performance of the USD Share Class was 0.79%.

For the year ended 31 July 2023, the performance of the EUR Share Class was -1.56%.

From 11 May 2018 to 31 July 2023, the annualised volatility of the GBP Share Class was 3.18%.

From 12 December 2018 to 31 July 2023, the annualised volatility of the USD Share Class was 3.02%.

From 25 February 2019 to 31 July 2023, the annualised volatility of the EUR Share Class was 3.01%.

ACUMEN Megatrends Protection Portfolio Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to provide Shareholders with long term capital growth from a multi-asset portfolio and to achieve a Common Protection Level (expressed in % of NAV per Share) for each share class. The "Common Protection Level" is 90% of the highest NAV per share ever achieved by the GBP A Share class, expressed as a percentage of the current NAV per share of the GBP A Share Class.

The Portfolio Strategy is a multi-asset portfolio which consists of investments in fixed income, equities, foreign exchange and alternative assets including ETFs, determined from time to time by Titan Asset Management Ltd (the "Sub-Investment Manager") and exposure to cash.

The allocation between the portfolio and cash is rebalanced following a volatility control mechanism. The volatility budget (i.e. the maximum allowed level of annualised standard deviation of the Portfolio Strategy) is between 5% and 7% over the term of the investment.

Sub-Investment Manager's report on the discretionary strategy:

The Acumen Megatrends Protection Portfolio has effectively reached its protection level and therefore effectively has no exposure to the underlying asset portfolio. The protection mechanism of the fund has worked as it was intended to and the performance of the strategy has been in line with expectations. During this period there have been no trades within the asset portfolio.

Turning to our market outlook, it has been a difficult market to navigate this year with the rally in Artificial Intelligence stocks dominating equity market returns since the turn of the year while the risk of recession remains prominent. The lagged effects of monetary policy tightening is still feeding through to the real economy. The US has yet to fall into recession, but global trade, corporate earnings and leading manufacturing indicators highlight the fragilities in the US and global economies. Lending standards have been tightening over the course of the year which has been exacerbated by the US regional banking stress and may have further to go. All these factors have led us to take a cautious approach in our investments. However, we are mindful that the market has been focused on potential rate cuts and falling inflation, particularly in the US. If inflation continues to fall faster than the economy contracts, equities could continue to increase in value.

As at 31 July 2023 the Sub-Fund's exposure to the Portfolio Strategy was 100.00% with an average exposure since launch of 92.05%.

From 11 May 2018 (its inception) to 31 July 2023, the performance of the Sub-Fund was -14.48%.

For the year ended 31 July 2023, the performance of the Sub-Fund was -0.93%.

The Sub-Fund had an annualised volatility of 4.74%.

The statement of material disposals reflect the aggregate disposals of a security exceeding one per cent of the total disposals for the financial year. If there were fewer than twenty positions exceeding one per cent, the top twenty positions have been disclosed.

Movestic Avancera 75 **Investment manager's report for the financial year ended 31 July 2023**

The Sub-Fund's investment objective is to provide shareholders with long term capital growth from the Portfolio Strategy (as defined below) and to deliver protection at 75% of the highest Net Asset Value per Share ever achieved by the Sub-Fund.

The Portfolio Strategy is a multi-asset portfolio which consists of investments in fixed income, equities, foreign exchange and alternative assets including ETFs, determined from time to time by Movestic Kapitalforvaltning AB (the "Sub-Investment Manager") and exposure to cash.

The allocation between the portfolio and cash is rebalanced following a volatility control mechanism. The volatility budget (i.e. the maximum allowed level of annualised standard deviation of the Portfolio Strategy) is lower than or equal to 10% over the term of the investment.

Avancera 75 is a mutual fund with a derivatives-based protection on the downside in the form of a right to sell the fund at 75% of its maximally reached NAV. The fund pays for this protection which means it has the possibility to concentrate its holdings in assets with the highest expected returns.

As a sub investment manager, we allocate to cost efficient ETF's, indices and strategies and allocate between those based on the expected long-term return of the individual asset classes that are represented, taking the combined volatility of the portfolio into account.

Equity markets hit a bottom mid October 2022 and have been on a steady upward move since then, propelled by encouraging inflation data, increased probabilities of a soft landing and lately by a hype like demand for everything AI related. The latter has also made the rise rather narrow; the S&P100 has strongly outperformed the S&P500 which in turn outperformed its equal weighted counterparty by a wide margin. The move during the year has not been driven by rates in spite of more encouraging inflation data, especially in the US; the US 10Y was on a steady rise until October equity lows when it topped around 4.20% to settle slightly below that at end July 23. However, during the 12-month period of +10% equity market returns the 10Y increased by approx. 120 bps.

During the period we have slightly increased credit at the expense of equities while also slightly upping the credit quality. We have also increased allocation to real assets. Regionally we have decreased exposure to EM & US while increasing the weight devoted to Europe & Japan respectively.

The asset portfolio delivered 10.6% during the period, driven mainly by our exposure to the US equity markets. Our bets on staples paid off while our strategy to increase exposure to real assets was a bit more mixed; infrastructure paid off well while real estate has been more of a drag during the period. No other investments really stand out although EM – both bonds and equities – is a disappointment led by China.

We wrote last year that return expectations over the long run had improved as prices were lower. However, we did not expect those to materialise so strongly over the coming year as recession fears, hawkish central banks and a flattish earnings outlook all indicated at least some form of pressure on risk assets. As the soft-landing narrative has gained traction, underscored by upside economic surprises combined with already mentioned positive inflation data, markets have discounted a better economic environment than feared. While increased probability of a soft landing is an obvious positive, the higher prices that have accompanied it result in a smaller margin of error. Long term expected returns, especially outside of the US, looks reasonably appealing and for credit all in yields are attractive but we would like to see a larger share come from the spread, especially in high yield.

As at 31 July 2023 the Sub-Fund's exposure to the Portfolio Strategy was 88.25% with an average exposure since launch of 84.83%.

The Sub-Fund was launched on 9 May 2019.

From 9 May 2019 (its inception) to 31 July 2023, the performance of the Sub Fund was 1.73%.

From 20 May 2019 (since the fund has been exposed to the underlying strategy) to 31 July 2023, the performance of the Sub-Fund was 1.73%.

For the year ended 31 July 2023, the performance of the Sub Fund was 6.89%.

Movestic Avancera 75
Investment manager's report for the financial year ended 31 July 2023 (continued)

From 20 May 2019 (since the fund has been exposed to the underlying strategy) to 31 July 2023, the Sub-Fund had an annualised volatility of 9.18%.

Movestic Avancera 85 Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to provide shareholders with long term capital growth from the Portfolio Strategy (as defined below) and to deliver protection at 85% of the highest Net Asset Value per Share ever achieved by the Sub-Fund.

The Portfolio Strategy is a multi-asset portfolio which consists of investments in fixed income, equities, foreign exchange and alternative assets including ETFs, determined from time to time by Movestic Kapitalforvaltning AB (the "Sub-Investment Manager") and exposure to cash.

The allocation between the portfolio and cash is rebalanced following a volatility control mechanism. The volatility budget (i.e. the maximum allowed level of annualised standard deviation of the Portfolio Strategy) is lower than or equal to 5% over the term of the investment.

Avancera 85 is a mutual fund with a derivatives-based protection on the downside in the form of a right to sell the fund at 85% of its maximally reached NAV. The fund pays for this protection which means it has the possibility to concentrate its holdings in assets with the highest expected returns.

As a sub investment manager, we allocate to cost efficient ETFs, indices and strategies and allocate between those based on the expected long-term return of the individual asset classes that are represented, taking the combined volatility of the portfolio into account.

Equity markets hit a bottom mid October 2022 and have been on a steady upward move since then, propelled by encouraging inflation data, increased probabilities of a soft landing and lately by a hype like demand for everything AI related. The move during the year has not been driven by rates in spite of more encouraging inflation data, especially in the US; the US 10Y was on a steady rise until October equity lows when it topped around 4.2% to settle slightly below that at end July 23. However, during the 12-month period of +10% equity market returns the 10Y increased by approx. 120 bps. In credit, spreads have narrowed alongside the stronger than expected economic data and increased probability of a soft landing.

During the year we have increased allocations to both Emerging Market & US Corporate bonds while decreasing exposure slightly to real estate.

The asset portfolio delivered -1.75% during the period, including FX hedges, ex FX hedges the portfolio is up approximately 2% where the main contributors have been high yields and Emerging Market bonds. As bonds are a larger part of our portfolio their contribution has been higher than equities in spite of the latter outperforming the former. Our exposure to hedge strategies is a net positive, although marginal and in spite of two out of four posting negative returns over the period.

We wrote last year that return expectations over the long run had improved as prices were lower. However, we did not expect those to materialise so strongly over the coming year as recession fears, hawkish central banks and a flattish earnings outlook all indicated at least some form of pressure on risk assets. As the soft-landing narrative has gained traction, underscored by upside economic surprises combined with already mentioned positive inflation data, markets have discounted a better economic environment than feared. While increased probability of a soft landing is an obvious positive, the higher prices that have accompanied it result in a smaller margin of error. Long term expected returns, especially outside of the US, looks reasonably appealing and for credit all in yields are attractive but we would like to see a larger share come from the spread, especially in high yield.

As at 31 July 2023 the Sub-Fund's exposure to the Portfolio Strategy was 82.00% with an average exposure since launch of 81.10%.

The Sub-Fund was launched on 9 May 2019.

From 9 May 2019 (its inception) to 31 July 2023, the performance of the Sub-Fund was -10.52%.

From 20 May 2019 (since the fund has been exposed to the underlying strategy) to 31 July 2023, the performance of the Sub-Fund was -10.52%.

For the year ended 31 July 2023, the performance of the Sub-Fund was -2.56%.

From 20 May 2019 (since the fund has been exposed to the underlying strategy) to 31 July 2023, the Sub-Fund had an annualised volatility of 5.01%.

ACUMEN ESG Protection Portfolio Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to provide Shareholders with long term capital growth from a multi-asset portfolio and to achieve a Common Protection Level (expressed in % of NAV per Share) for each share class. The "Common Protection Level" is 90% of the highest NAV per share ever achieved by the GBP A Share class, expressed as a percentage of the current NAV per share of the GBP A Share Class.

The Portfolio Strategy is a multi-asset portfolio which consists of investments in fixed income, equities, foreign exchange and alternative assets including ETFs, determined from time to time by Titan Asset Management Ltd (the "Sub-Investment Manager") and exposure to cash. The investments are subject to ESG Investment Policy.

The allocation between the portfolio and cash is rebalanced following a volatility control mechanism. The volatility budget (i.e. the maximum allowed level of annualised standard deviation of the Portfolio Strategy) is between 5% and 7% over the term of the investment.

Sub-Investment Manager's report on the discretionary strategy:

The Acumen ESG Protection Portfolio has effectively reached its protection level and therefore has no exposure to the underlying asset portfolio. The protection mechanism of the fund has worked as it was intended to and the performance of the strategy has been in line with expectations. During this period there have been no trades within the asset portfolio.

Turning to our market outlook, it has been a difficult market to navigate this year with the rally in Artificial Intelligence stocks dominating equity market returns since the turn of the year while the risk of recession remains prominent. The lagged effects of monetary policy tightening is still feeding through to the real economy. The US has yet to fall into recession, but global trade, corporate earnings and leading manufacturing indicators highlight the fragilities in the US and global economies. Lending standards have been tightening over the course of the year which has been exacerbated by the US regional banking stress and may have further to go. All these factors have led us to take a cautious approach in our investments. However, we are mindful that the market has been focused on potential rate cuts and falling inflation, particularly in the US. If inflation continues to fall faster than the economy contracts, equities could continue to increase in value.

As at 31 July 2023 the Sub-Fund's exposure to the Portfolio Strategy was 100.00% with an average exposure since launch of 83.09%.

From 5 December 2019 (its inception) to 31st July 2023, the performance of the Sub-Fund was -5.67%.

For the year ended 31 July 2023, the performance of the Sub-Fund was -0.86%.

The Sub-Fund had an annualised volatility of 3.51%.

Pergola 90

Investment manager's report for the financial year ended 31 July 2023

The investment objective of the Sub-Fund is to provide shareholders with long term capital growth from a multi-asset portfolio and to deliver protection at 90% of the highest Net Asset Value per Share ever achieved by the Sub-Fund (the "Minimum Target NAV").

The Portfolio Strategy consists of long and short positions in a portfolio of securities and other assets through a systematic mechanism. This mechanism will allocate weights to an Equity Asset Group, a Fixed Income Asset Group and cash component as set out in the Supplement of the Sub-Fund. The mechanism seeks to maintain the anticipated realised volatility of the Portfolio Strategy close to 5%.

As at 31 July 2023 the Sub-Fund's exposure to the Portfolio Strategy was 100.00% with an average exposure since launch of 99.68%.

The Sub-Fund was launched on 22 January 2020.

From 22 January 2020 (its inception) to 31 July 2023, the performance of the Sub-Fund was -9.99%.

For the year ended 31 July 2023, the performance of the Share Class was -0.63%.

The Sub-Fund had an annualised volatility of 2.03%.

SciBeta HFI US Equity 6F EW (USD) UCITS ETF
Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to seek medium to long term capital appreciation by providing Shareholders with a return equivalent to the performance of the Scientific Beta United States High-Factor-Intensity Diversified Multi-Beta Multi-Strategy 6-Factor 4-Strategy EW Market Beta Adjusted (Leverage) Net Return index denominated in USD (the "Index") before all fees and expenses charged to, or incurred by, the Sub-Fund.

The Scientific Beta United States High-Factor-Intensity Diversified Multi-Beta Multi-Strategy 6-Factor 4-Strategy EW Market Beta Adjusted (Leverage) Net Return is an index designed to have allocation to a portfolio of equities and equity related securities that are listed or traded on any stock exchange that is located in North America through equally weighted allocations to 6 sub-indices. Each sub-index will reflect one of the six following investment styles: Value, Momentum, Low Volatility, Size, Profitability and Investment.

From 11 February 2020 (its inception) to 31 July 2023, the performance of the Sub-Fund was 18.50%, compared to 20.77% for the Scientific Beta United States High-Factor-Intensity Diversified Multi-Beta Multi-Strategy 6-Factor 4-Strategy EW Market Beta Adjusted (Leverage) Net Return index.

For the year ended 31 July 2023, the performance of the Sub-Fund was 5.79%, compared to 6.37% for the Index.

From 11 February 2020 (its inception) to 31 July 2023, the Sub-Fund had an annualised volatility of 27.62% compared to 27.61% for the Index.

In terms of tracking error (annualised standard deviation of the difference in performance between the return of the Sub-Fund and its benchmark) the Sub-Fund has achieved a low tracking error at 0.03% versus the Index.

Zebra Kante™ 80 Protect **Investment manager's report for the financial year ended 31 July 2023**

The Sub-Fund's investment objective is to provide Shareholders with long term exposure to the performance of a Portfolio Basket with 80% of the highest NAV being protected as minimum exit Net Asset Value.

The Investment Portfolio will have exposure to a sub-set of US equities (as selected by the Sub-Investment Manager under a proprietary methodology described below). The US equities will be large capitalisation and will be listed or traded on the Markets referred to in Appendix II of the Prospectus (with no specific industry focus). The Sub-Fund may also have exposure to cash at certain times. The Investment Manager rebalances (potentially on a daily basis) the exposure between the Investment Portfolio and cash through the Portfolio Swap as agreed between the Investment Manager and the Approved Counterparty (as further described below), on the basis of certain volatility rules summarised below. The rebalancing seeks to control the volatility risk of the Portfolio Strategy by reducing the allocation to the Investment Portfolio if and when the realised volatility of the Portfolio Strategy, as observed for certain periods, increases. The volatility budget (i.e. the maximum targeted level of annualised change in value of the Portfolio Strategy) will be between 9% and 13% over the term of the Portfolio Swap and is determined by the Sub-Investment Manager on a discretionary basis.

80% of the highest Net Asset Value per share is protected as minimum Exit Net Asset Value via the purchase of a put option.

As at 21 November 2022 the Sub-Fund's exposure to the portfolio strategy was 48.10% with an average exposure since launch of 78.00%.

Sub Investment Manager's report on the discretionary strategy:

Economic Outlook

The US unemployment rate was 3.7% in November 2022, compared to a Pandemic peak of 14.8% in April 2020 versus 3.5% in (pre-Pandemic) February 2020;

The ten-year Treasury yield on 21 November 2022 was 3.83%, compared to the Pandemic low of 0.52% in August 2020;

The November annualised CPI was 7.1% compared to a recent Pandemic low of 0.22% in May 2020, versus a 2.2% average annual rate since December 1999;

The November PMI was at 49.0% with most components decelerating, the notable exceptions were increasing Imports and Supplier Deliveries;

WTI was trading at \$79.74 on 21 November 2022, versus \$18.84 at the end of April 2020;

Baltic Dry Index (shipping costs) was at 1,171 on 21 November 2022 versus 487 at the end of Jan 2020.

Investment Outlook and Strategy

For the period the S&P 500 Low Volatility Index was down -0.65% while the S&P 500 was down -3.82%. Both Indices were down -5.33% and -1.59% respectively, 2022 year to date.

The portfolio demonstrated substantially lower volatility and beta relative to the S&P 500 during the period. The portfolios overall risk, as measured by Value at Risk (VaR), was within historical averages and sector contribution to risk were in line with sector allocations.

During the period, relative to the S&P 500, very strong Stock Selection was enhanced by moderately positive Style Factor return leading to positive excess returns for the period. The portfolio's factor exposures to beta and profitability were the main detractors of return, while long term reversal and momentum were the main drivers of positive return. Interestingly owning less popular stocks was a relatively neutral factor for the portfolio but two significant by-products of low popularity are low volatility and beta.

Zebra Kante™ 80 Protect
Investment manager's report for the financial year ended 31 July 2023 (continued)

Investment Outlook and Strategy (continued)

Measures of high popularity can signal a level of disagreement about what is a fair price for a stock. Over the period in question the SPX was down 3.82% after rising over 9.00% through year end 2021, then up over 8.00% during July 2022. The over-all market environment beginning with the rally in April of 2020 (but reversed during Q1 2022) has been a period marked by strong investor preferences, particularly in the US, for those stocks where disagreement and uncertainty are highest. In other words, investors have rewarded those stocks where it is most unclear what lies ahead. All of that being said, in aggregate, the style factors have been positively influencing the relative performance of the portfolio while stock selection has been strong.

As discussed above, during the period, Stock Selection has been strongly positive and enhanced by relatively strong Factor performance. Within the Kante's strategy sector performance was relatively strong in Technology, Industrials and Financials but relatively weak in real Estate and Consumer Discretionary Sectors. It's also worth noting that during the period the best performing sectors in the S&P 500 were Energy (+17.20%) and Financials (+5.84%) while the worst were Communication Services (-14.08%), Consumer Discretionary (-15.53%) and Information Technology (-16.95%).

The Sub-Fund was launched on 25 March 2021.

Since inception to 21 November 2022 the performance of the Investment Portfolio was -3.50% and the annualised volatility was 17.10%. During this period the performance of the Portfolio Strategy was -6.90%.

From 29 July 2022 to 21 November 2022 the performance of the Investment Portfolio was -4.05% and the annualised volatility was 21.75%. During this period the performance of the Portfolio Strategy was -3.16%.

From 25 March 2021 (its inception) to 21 November 2022, the performance of the A USD share class was -9.44%.

From 13 July 2021 (its inception) to 27 October 2022, the performance of the B USD share class was -11.80%.

From 13 July 2021 (its inception) to 28 October 2022, the performance of the B EUR share class was -13.19%.

From 13 July 2021 (its inception) to 17 November 2022, the performance of the D EUR share class was -13.26%.

From 12 August 2021 (its inception) to 3 November 2022, the performance of the A EUR share class was -15.00%.

From 29 July 2022 to 21 November 2022, the performance of the A USD share class was -3.73%.

From 29 July 2022 to 27 October 2022, the performance of the B USD share class was -4.37%.

From 29 July 2022 to 28 October 2022, the performance of the B EUR share class was -4.56%.

From 29 July 2022 to 17 November 2022, the performance of the D EUR share class was -4.63%.

From 29 July 2022 to 3 November 2022, the performance of the A EUR share class was -5.48%.

From 25 March 2021 (its inception) to 21 November 2022, annualised volatility of A USD share class was 9.01%.

From 13 July 2021 (its inception) to 27 October 2022, annualised volatility of B USD share class was 9.06%.

From 13 July 2021 (its inception) to 28 October 2022, annualised volatility of B EUR share class was 9.07%.

From 13 July 2021 (its inception) to 17 November 2022, annualised volatility of D EUR share class was 9.01%.

From 12 August 2021 (its inception) to 3 November 2022, annualised volatility of A EUR share class was 8.97%.

The Sub-Fund closed on 21 November 2022.

The statement of material disposals reflect the aggregate disposals of a security exceeding one per cent of the total disposals for the financial year. If there were fewer than twenty positions exceeding one per cent, the top twenty positions have been disclosed.

Morgan Stanley Alpha Tracker UCITS Fund Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is to seek medium to long term capital appreciation by providing Shareholders with a return equivalent to the performance of the Morgan Stanley Alpha Tracker Index™ (the "Index") before all fees and expenses charged to, or incurred by, the Sub-Fund.

The Index is designed to deliver exposure that approximates the return profile of a broad-based universe of hedge fund investment styles, by investing in a broad range of traditional assets and quantitative investment strategy indices. The hedge fund styles that the Index aims to track are: Equity Hedge Style, Macro Style, Event Driven and Relative Value Style.

From 18 June 2021 (its inception) to 31 July 2023, the performance of the B USD Share Class was 1.14%, compared to 1.91% for the Index.

From 31 August 2021 (its inception) to 31 July 2023, the performance of the A CHF Share Class was -6.25%, compared to 0.38% for the Index.

From 9 February 2022 (its inception) to 31 July 2023, the performance of the A USD Share Class was 0.28%, compared to 1.24% for the Index.

For the year ended 31 July 2023, the performance of the B USD Share Class was 4.34%, compared to 4.67% for the Index.

For the year ended 31 July 2023, the performance of the A CHF Share Class was -0.16%, compared to 4.67% for the Index.

For the year ended 31 July 2023, the performance of the A USD Share Class was 4.04%, compared to 4.67% for the Index.

The B USD Share Class for the year ended 31 July 2023 had an annualised volatility of 7.90% compared to 7.89% for the Index.

The A CHF Share Class for the year ended 31 July 2023 had an annualised volatility of 8.04% compared to 8.03% for the Index.

The A USD Share Class for the year ended 31 July 2023 had an annualised volatility of 8.36% compared to 8.35% for the Index.

In terms of tracking error (annualised standard deviation of the difference in performance between the return of the Sub-Fund and its benchmark) the Sub-Fund has achieved a low tracking error at 0.04% versus the Index since launch.

Ibercaja Vida Consolida Sostenible
Investment manager's report for the financial year ended 31 July 2023

The Sub-Fund's investment objective is (i) to provide Shareholders with long term capital growth from a multi-asset portfolio taking account of environmental, social and governance ("ESG") characteristics as outlined in further detail below and (ii) to deliver protection at 85% of the highest Net Asset Value per Share ever achieved by the Class A Shares of the Sub-Fund (the "Minimum Target NAV").

The Portfolio Strategy will provide an exposure to a portfolio of assets (the "Investment Portfolio"). The Investment Portfolio seeks to deliver exposure to the Equity Asset Group and Fixed Income Asset Group as set out in the Supplement of the Sub-Fund. The mechanism will determine on a periodic basis the optimal weight to be given to the Equity Asset Group in order to maintain the volatility of the Investment Portfolio close to 6%.

As at 31 July 2023 the Sub-Fund's exposure to the Portfolio Strategy was 101.77% with an average exposure since launch of 99.67%.

The Sub-Fund was launched on 15 July 2022.

From 15 July 2022 (its inception) to 31 July 2023, the performance of the Sub-Fund was -1.58%.

For the year ended 31 July 2023, the performance of the A EUR Share Class was -3.40%.

The Sub-Fund had an annualised volatility of 5.81%.

Notes to the financial statements for the financial year ended 31 July 2023

1. General information

FundLogic Alternatives plc (the "Company") was incorporated on 28 April 2010 in the Republic of Ireland as a public limited company under the Companies Act 2014 as an umbrella investment company with variable capital and segregated liability between Sub-Funds with registration number 483770. The Company's registered office is 70 Sir John Rogerson's Quay, Grand Canal Dock, Dublin 2, D02 R296, Ireland. The Company was authorised on 27 July 2010 by the Central Bank of Ireland as an Undertaking for Collective Investment in Transferable Securities in accordance with the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

As at the 31 July 2023 there were 18 active funds. Each Sub-Fund has appointed an investment manager. The active Sub-Funds are listed below:

Sub-Fund name	Launch date	Investment Manager

The individual Sub-Funds' investment objectives and strategies are briefly outlined in the investment manager reports and detailed in the prospectus and supplements to the Sub-Funds.

2. Significant accounting policies

The significant accounting policies applied in the preparation of these financial statements are set out on the next pages. These policies have been consistently applied to all years presented, unless otherwise stated.

a) Basis of preparation

The financial statements have been prepared on a going concern basis under the historical cost convention, as modified by the revaluation of financial assets and liabilities carried at fair value through profit or loss, and in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS") and Irish statute comprising the Companies Act 2014, the UCITS Regulations and the Central Bank UCITS Regulations.

b) Significant accounting judgments, estimates and assumptions

The preparation of financial statements in conformity with IFRS may require the use of certain critical accounting estimates. It may also require the Board of Directors to exercise its judgement in the process of applying the Company's accounting policies. Uncertainty about these estimates and assumptions could result in outcomes that might require a material adjustment to the carrying amount of the asset or liability affected in future periods. There were no significant judgements or estimates applied in the financial statements.

c) Going concern

The Directors believe there are no material uncertainties relating to events or conditions that may cast significant doubt about the ability of the Company to continue to meet its ongoing obligations as:

- the Sub-Funds invest primarily in marketable securities and other financial instruments which, under normal market conditions, are readily convertible to cash;
- the Sub-Funds' policy is to maintain sufficient cash and cash equivalents to meet normal operating requirements and expected redemption requests; and

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

2. Significant accounting policies (continued)

c) Going concern (continued)

- the Sub-Funds have access to a bank overdraft facility to help mitigate liquidity risk.

The Directors have made an assessment of the Company's ability to continue as a going concern and are satisfied that the Company has the resources to continue in operational existence for the foreseeable future and do not consider there to be any threat, from the war in Ukraine, or other issues, to the going concern status of the Company. Therefore, the financial statements continue to be prepared on the going concern basis.

d) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations and changes in tax laws on foreign withholding tax. Given the wide range of international investments, differences arising between the actual investment income and assumptions made, or future changes to such assumptions, could necessitate future adjustments to the tax expense already recorded. The Company establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it invests. The amounts of such provisions are based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective investment's domicile. As the Company assesses the probability for litigation and subsequent cash outflow with respect to taxes as remote, no contingent liability has been recognised.

e) Financial assets and financial liabilities

(i) Classification

In accordance with IFRS 9, the Company classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below.

In applying that classification, a financial asset or financial liability is considered to be held for trading if:

- It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term; or
- On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which, there is evidence of a recent actual pattern of short-term profit-taking; or
- It is a derivative.

Investment securities and derivatives have been classified as financial assets and liabilities held for trading.

Financial assets

The Company classifies its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss ("FVPL") on the basis of both:

- The entity's business model for managing the financial assets; and
- The contractual cash flow characteristics of the financial asset.

Financial assets measured at amortised cost

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company includes in this category short-term non-financing receivables including cash collateral posted on derivative contracts, accrued income and other receivables.

Financial assets measured at fair value through profit or loss ("FVPL")

A financial asset is measured at FVPL if:

- Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest ("SPPI") on the principal amount outstanding; or
- It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; or
- At initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

2. Significant accounting policies (continued)

e) Financial assets and financial liabilities (continued)

(i) Classification (continued)

Financial assets measured at fair value through profit or loss ("FVPL") (continued)

The Company includes in this category:

- Equity instruments
- Debt instruments. These include investments that are held under a business model to manage them on a fair value basis for investment income and fair value gains.
- Instruments held for trading. This category includes equity instruments and debt instruments which are acquired principally for the purpose of generating a profit from short-term fluctuations in price. This category also includes derivative contracts in an asset position.

The Company does not have any debt instruments, equity instruments or derivative contracts measured at fair value through other comprehensive income.

Financial liabilities

Financial liabilities measured at FVPL

A financial liability is measured at FVPL if it meets the definition of held for trading. The Company includes in this category, derivative contracts in a liability position.

Financial liabilities not measured at FVPL

This category includes all financial liabilities, other than those measured at FVPL. These are measured at amortised cost. The Company includes in this category other short-term payables.

(ii) Fair value measurement

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the statement of comprehensive income.

After initial recognition the Company measures financial instruments which are classified as at fair value through profit or loss at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible to the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The fair value for financial instruments listed or traded on regulated markets at the reporting date is based on their closing quoted or binding dealer price quotations, without any deduction for transactions costs. Investment funds are valued based on the latest bid price or latest net asset value, as published by the investment fund.

For financial instruments which are listed or traded on a regulated market and where a quoted market price is not available, the fair value is its probable realisation value which may be estimated by a competent person using valuation techniques, including use of recent arm's length market transactions and reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions. Please refer to note 4 for details on the valuation inputs for each security type.

Derivative contracts traded on a regulated market are valued at the settlement price as determined by the market. Over the counter derivative contracts are valued based on counterparty or independent valuations. Please refer to note 5 for details on the valuation inputs for each derivative type.

Subsequent changes in the fair value of those financial instruments are recorded in "Net realised and unrealised gains and losses on financial assets and liabilities at fair value through profit or loss".

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

2. Significant accounting policies (continued)

e) Financial assets and financial liabilities (continued)

(iii) Impairment of financial assets

The Company holds only trade receivables with no financing component and which have maturities of less than 12 months at amortised cost and, as such, has chosen to apply an approach similar to the simplified approach for expected credit losses (ECL) under IFRS 9 to all its trade receivables. Therefore, the Company does not track changes in credit risk, but instead, recognises a loss allowance based on lifetime ECLs at each reporting date.

The Company's approach to ECLs reflects a probability-weighted outcome, the time value of money and reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Company uses the provision matrix as a practical expedient to measuring ECLs on trade receivables, based on days past due for groupings of receivables with similar loss patterns. Receivables are grouped based on their nature. The provision matrix is based on historical observed loss rates over the expected life of the receivables and is adjusted for forward-looking estimates.

The ECL is not material in the current year.

(iv) Recognition/de recognition

Financial assets and financial liabilities are recognised on the trade date – the date on which the Company commits to purchase or sell the financial asset or financial liability. Any trades executed as market on close order (non-limit market order that is executed at or after the closing of a stock exchange) on any business day will be recognised on the following day.

A financial asset is de recognised where:

- the rights to receive cash flows from the asset have expired or;
- the Company has transferred its rights to receive cash flows from the assets or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement and;
- either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset (or has entered into a pass-through arrangement), and has neither transferred substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Company's continuing involvement in the asset.

The Company derecognises a financial liability when the obligation under the liability is discharged, cancelled or expired.

f) Offsetting financial statements

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. This is generally not the case with master-netting arrangements, and the related assets and liabilities are presented gross in the statement of financial position.

g) Foreign currency translation

The Directors have adopted the functional currency of each Sub-Fund as the presentation currency at the Sub-Fund level and US dollar (“US\$”) as the presentation currency at the Company level. The Directors consider the functional currency of the Sub-Funds as the currency most faithfully representing the economic effects of the underlying transactions, events, and conditions of the Sub-Funds. The currency of each Sub-Fund is listed on the next page.

Foreign currency transactions are translated into the functional currency of the Sub-Funds using the exchange rates prevailing at the dates of the transactions. Assets and liabilities are translated into the functional currency of the Sub-Funds using the exchange rates prevailing at the statement of financial position date. Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income. Translation differences on financial instruments held at fair value through profit or loss are reported as part of Net realised/unrealised gains/(loss) on financial assets and liabilities at fair value through profit or loss in the statement of comprehensive income.

The foreign exchange adjustment on aggregation arising on retranslation of opening net assets and translation of transactions during the year is included in the statement of changes in net assets attributable to holders of redeemable participating shares and the statement of cash flows. This method of translation has no effect on the value of the net assets of each Sub-Fund.

h) Net assets attributable to holders of redeemable participating shares

International Accounting Standard 32 "Financial Instruments: Presentation" ("IAS 32") requires entities that issue financial instruments to classify such instruments as liabilities or equity in accordance with the substance of the contractual arrangement and the definitions contained within IAS 32. In this regard, IAS 32 requires that financial instruments that give the holder the right to put the instrument back to the issuer for cash or another financial asset be classified as a liability of the issuer.

The redeemable participating shares issued by the Sub-Funds provide the redeemable participating shareholders with the right to redeem their shares for cash equal to their proportionate share of the net asset value of the Sub-Fund. Within the context of IAS 32, the existence of the option for the redeemable participating shareholders to put the shares back to the Sub-Funds in exchange for cash requires the Company to classify the redeemable participating shares as liabilities.

The liability to redeemable participating shareholders is presented on the statement of financial position as "net assets attributable to holders of redeemable participating shares" and is determined based on the residual assets of the Sub-Fund after deducting the Sub-Fund's other liabilities. The net asset value per share is calculated by determining the portion of the Net Asset Value of a Sub-Fund attributable to each class and by dividing this by the number of shares of that class in issue.

i) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash on hand, demand deposits and short term deposits in banks, with original maturities of three months or less.

The Sub-Funds of the Company can have credit balances to hedge foreign currency risk and this is shown as bank overdraft on the statement of financial position. The Sub-Funds aim to not remain in a net overdrawn position at any given time.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

2. Significant accounting policies (continued)

j) Due from/to broker

Broker cash placed as collateral is recorded as an asset on the statement of financial position under "Due from broker". Broker cash owed as collateral is recorded as a liability on the statement of financial position under "Due to broker". All broker cash is measured at amortised cost. Margin cash on open financial derivative instrument contracts and prime broker cash is also included in due from/to broker.

k) Variation margin receivable/payable

Variation margin represent amounts due to and from brokers, in relation to price movements in the underlying of financial derivative instruments, which have not yet been settled on the statement of financial position date.

l) Investment income/expenses

Bank interest income is recognised in the statement of comprehensive income using the effective interest method. Interest from financial assets at fair value through profit or loss, which includes bond interest income, is based on the nominal rate. Dividend income is recognised in the statement of comprehensive income on the dates on which the relevant securities are listed as "ex dividend". Dividend income is shown gross of any withholding taxes, which is disclosed separately in the statement of comprehensive income, and net of any tax credits.

m) Securities sold receivable/securities purchased payable

Securities sold receivable represent amounts due from brokers for securities sold (in a regular way transaction) that have been contracted for, but not yet delivered, on the statement of financial position date. Securities purchased payable represent amounts due to brokers for securities purchased (in a regular way transaction) that have been contracted for but not yet delivered on the statement of financial position date. When any holding on the basket leg goes ex-dividend an offsetting negative dividend is recorded to offset the unrealised income. Monthly interest accrued in the prime broker bank accounts is not recorded for the Sub-Funds as the prime broker reverses the entries monthly.

These amounts are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment, if any. A provision for impairment of amounts due from brokers is recognised for expected credit losses even if there is no objective evidence that the Sub-Fund will fail to collect.

n) Net realised/unrealised gains/(loss) on financial assets and liabilities at fair value through profit or loss

This item includes changes in the fair value of financial assets and liabilities held for trading upon initial recognition and exclude interest and dividend income and operating expenses listed on the statement of comprehensive income.

Realised gains and losses on disposals of financial instruments classified as at fair value through profit or loss are calculated using the First-in, First-out ("FIFO") method. They represent the difference between an instruments initial carrying amount and disposal amount, or cash payments or receipts made on financial derivative instrument contracts (excluding payments or receipts on collateral margin accounts for such instruments).

Unrealised gains and losses comprise changes in fair value of financial instruments for the financial year and from reversal of prior years' unrealised gains and losses for financial instruments which were realised in the financial year.

o) Operating expenses

The Sub-Funds are responsible for all normal operating expenses including stamp and other duties and charges incurred on the acquisition and realisation of investments. Operating expenses are recognised on an accruals basis.

p) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as an expense.

q) Subscriptions receivable/redemptions payable

Subscriptions receivable represent amounts due from investors for subscriptions that have been contracted for but not yet received and therefore are shown as a receivable at financial year end. Redemptions payable represent amounts due to investors for redemptions that have been contracted for but not yet paid and therefore are shown as a payable at financial year end.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

2. Significant accounting policies (continued)

r) Options

Options are contractual agreements that convey the right, but not the obligation, for the purchaser to buy (call options) or sell (put options) the securities underlying the option at an agreed-upon price at any time on or before the expiration of the OTC option.

The Sub-Funds may enter into purchase and sell options through regulated exchanges and OTC markets. Exchange traded options are valued at quoted settlement prices. OTC options are valued based on the closing price provided by the relevant counterparty. Options are generally settled on a net basis.

s) Total return swaps

Swaps are contractual agreements between two parties to exchange streams of payments over time based on specified notional amounts. Total return swaps ("TRS") relate to contracts taken out by the Sub-Funds with major brokers which give the Sub-Funds economic exposure to a Reference Portfolio. The Sub-Fund purchases Funding Assets and transfers the economic interest in such Funding Assets to the Approved Counterparty under a total return swap in exchange for economic exposure to the performance of the Reference Portfolio.

The primary pricing source used to value TRS is the Approved Counterparty statement. On a weekly basis, the Independent Valuation Provider (a separate entity to the Approved Counterparty), using its own pricing source, checks the valuation of the TRS as provided by the Approved Counterparty.

t) Forward currency contracts

Forward currency contracts involve an obligation to purchase or sell a specific currency at a future date at a price set at the time of the contract. Forward currency contracts are customised contracts transacted in the OTC market. The fair value (unrealised gain or loss) on open forward foreign exchange contracts is calculated by reference to the difference between the contracted rate and the forward rate to close out the contract as at the valuation point. London Close mid evaluation spot and forward foreign exchange rates are obtained from the WM/Reuters Company as the primary source, Bloomberg and Thomson Reuters as secondary sources. The rates for all currencies are entered to a US\$ base.

3. Adoption of new standards and amendments

Accounting standards in issue and effective for the first time in these financial statements

There were a number of standards and amendments which became effective during the financial year, however these did not have an impact on the sub-funds in the current year and are not expected to have an impact in future.

New standards, amendments and interpretations in issue but not yet effective and have not been early adopted

A number of amendments which became in issue from 1 July 2022 but not yet effective and not early adopted include:

Narrow-scope amendments to IAS 1, Practice statement 2 and IAS 8

The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies and apply to annual reporting periods beginning on or after 1 January 2023, with earlier application permitted.

Amendment to IAS 12 – deferred tax related to assets and liabilities arising from a single transaction

These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences. The amendments apply for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted.

Classification of Liabilities as Current or Non-current (Amendments to IAS 1)

The amendments clarify a criterion in IAS 1 for classifying a liability as non-current: the requirement for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period. The amendments apply retrospectively for annual reporting periods beginning on or after 1 January 2024 with earlier application permitted. The amendments:

- specify that an entity's right to defer settlement must exist at the end of the reporting period;
- clarify that classification is unaffected by management's intentions or expectations about whether the entity will exercise its right to defer settlement;
- clarify how lending conditions affect classification; and
- clarify requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

3. Adoption of new standards and amendments (continued)

The Company is currently evaluating the impact, if any, that each of the above amendments will have on its financial statements.

4. Fair value hierarchy

The following tables analyse the Sub-Funds' financial assets and liabilities at fair value through profit or loss as at the statement of financial position date within the fair value hierarchy. It distinguishes those whose fair value is based on:

Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities (level 1). Included in level 1 in the tables overleaf are equities and exchange traded funds. The Schedule of Investments of each Sub-Fund details the components of each class of assets and liabilities. For investments in swaps, OTC options and foreign currency contracts refer to note 5.

Quoted prices in markets that are not considered to be active or financial instruments priced using inputs other than quoted prices and for which all significant inputs are observable, either directly or indirectly (level 2). Warrants which have not traded on a given day will be valued on the price of the underlying security's price, where this returns a negative value, it will translate into a zero price. Corporate bonds and government bonds are valued using factors which include market quotations, yields, maturities, and the bond's terms and conditions. For investments in swaps and forward currency contracts refer to note 5. Included in level 2 in the tables overleaf are government bonds, total return swaps and forward exchange contracts. The Schedule of Investments of each Sub-Fund details the components of each class of assets and liabilities.

Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable, including the Investment Manager's own assumptions and assumptions used by the Board of Directors about what market participants would use in determining the fair value of investments (level 3). No level 3 investments were held as at 31 July 2023 or 31 July 2022.

There were no transfers between levels during the financial year (31 July 2022: US\$Nil).

For non-investment assets and liabilities not measured at fair value through profit or loss, the carrying amounts of these assets and liabilities are a reasonable approximation of fair value.

The following tables summarise the financial assets and liabilities recognised at fair value and classify these between level 1, level 2 and level 3.

5. Financial derivative instruments

Typically, financial derivative instruments serve as components of the Sub-Funds' investment strategies and are utilised primarily to structure and hedge investments, to enhance performance and reduce risk to the Sub-Fund (the Company does not designate any derivatives as a hedging instrument for hedge accounting purposes). The financial derivative instruments that the Sub-Funds hold include: swaps, OTC options and forward currency contracts.

Sub-Funds use financial derivative instruments to economically hedge their risk associated primarily with interest rate and foreign currency fluctuations. Financial derivative instruments may also be used for trading purposes where the Investment Manager believes this would be more effective than investing directly in the underlying financial instruments.

Derivatives often reflect at their inception only a mutual exchange of promises with little or no transfer of tangible consideration. However, these instruments frequently involve a high degree of leverage and are very volatile. A relatively small movement in the underlying of a financial derivative instrument may have a significant impact on the profit or loss of a Sub-Fund.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

5. Financial derivative instruments (continued)

Over-the-counter ("OTC") derivatives may expose a Sub-Fund to the risks associated with the absence of an exchange market on which to close out an open position.

The Company's constitution sets limits on investments in derivatives with high risk profiles. The Investment Manager is instructed to closely monitor the Sub-Funds' exposure under financial derivative instrument contracts as part of the overall management of the Sub-Funds' market risk (for more information please refer to note 13).

For accounting policies around financial derivative instruments please refer to note 2.

Efficient portfolio management

The Sub-Funds, subject to the conditions and limits laid down by the Central Bank, enter into financial derivative instrument transactions for hedging and efficient portfolio management purposes. Such instruments include forward currency contracts, OTC options, swaps and their uses comprise hedging against market movements, currency exchange or interest rate risks in accordance with the investment policies of the Sub-Funds.

Open financial derivative instrument contracts, including the relevant counterparties, the underlying securities, currencies or indices, and the fair values at the financial year-end are disclosed in the Schedule of Investments as at 31 July 2023. Realised and unrealised gains and losses on financial derivative instrument transactions are included in "net realised and unrealised gains/(losses) on financial assets and liabilities at fair value through profit or loss" on the statement of comprehensive income. Information on global exposure can be found in note 13.

Swaps

The underlying securities, currencies, notional value, and the fair values of the total return swaps at the year-end are disclosed in the Schedule of Investments as at 31 July 2023. The primary pricing source used to value TRS is the Approved Counterparty statement. The notional values and approved counterparties for the TRS held by the Sub-Funds are outlined in the schedule of investments. On a weekly basis, the Independent Valuation Provider (a separate entity to the Approved Counterparty), using its own pricing source, checks the valuation of the TRS as provided by the Approved Counterparty.

If the price difference between the approved counterparty and the independent valuation provider on any dealing day represents more than the tolerance level of the Sub-Fund net asset value ("NAV"):

- The independent valuation provider sends a price challenge/query form to the approved counterparty requesting price validation for the valuation date in question.
- If the approved counterparty confirms the price is correct, and the independent valuation provider agrees, the approved counterparty OTC derivative price is used for NAV computation.
- If the approved counterparty confirms the price is correct, but the independent valuation provider does not agree, the risk manager (FundLogic SAS) may assess the third pricing source or make an escalation to the board of directors.
- If the approved counterparty modifies the price, a new report is sent to the independent valuation provider, the risk manager and the administrator.

The administrator keeps track of any price challenge and justification.

Counterparty exposure

The credit risk related to financial derivative instruments transacted on regulated exchanges is considered minimal as the exchanges ensure that these contracts are always honoured.

Counterparty exposure is calculated using the positive mark-to-market value of the OTC financial derivative instrument contract with that counterparty and is limited to 5% of a Sub-Fund's net assets, with the limit raised to 10% in the case of counterparties which are credit institutions authorised in the European Economic Area, Jersey, Guernsey and the Isle of Man, and is monitored daily by the investment manager and the risk manager.

The notional values and approved counterparties for the TRS and options held by the Sub-Funds are outlined in the schedule of investments.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

5. Financial derivative instruments (continued)

Counterparty exposure (continued)

Open financial derivative instrument contracts, including the relevant counterparties, the underlying securities, currencies or indices, and the fair values at the financial year end are disclosed in the Schedule of Investments as at 31 July 2023. Realised and unrealised gains and losses on financial derivative instrument transactions are included in "net realised and unrealised gains/(losses) on financial assets and liabilities at fair value through profit or loss" on the statement of comprehensive income.

Offsetting financial assets and financial liabilities

IFRS 7 Financial Instruments: Disclosures requires the Company to disclose the impact of offsetting assets and liabilities presented in the statement of financial position to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements for recognised financial assets and financial liabilities on the Sub-Funds' financial position. These recognised financial assets and financial liabilities are financial instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of set off criteria: (i) the amounts owed by the Sub-Fund to another party are determinable; (ii) the Sub-Fund has the right to set off the amounts owed with the amounts owed by the other party; (iii) the Sub-Fund intends to set off; and (iv) the Sub-Fund's right of set off is enforceable by law.

As at 31 July 2023 and 31 July 2022 the Sub-Funds have not offset any financial assets and financial liabilities and are presented gross in the statement of financial position. The related financial assets and liabilities are subject to master netting arrangements which allow the counterparty to net any collateral held on behalf of a Sub-Fund or liabilities or payment obligations of the counterparty against any liabilities or payment obligations of the Sub-Fund to the counterparty.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

5. Financial derivative instruments (continued)

Offsetting financial assets and financial liabilities (continued)

The following tables disclose the potential effect of offsetting recognised financial assets and financial liabilities presented in the statement of financial position.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

6. Taxation

Under current Irish law and practice the Company qualifies as an investment undertaking under Section 739B of the Taxes Consolidation Act, 1997 and the sub-funds are not therefore chargeable to Irish tax on their relevant income or relevant gains. No stamp duty, transfer or registration tax is payable in Ireland on the issue, redemption or transfer of shares in the sub-funds. Distributions and interest on securities issued in countries other than Ireland may be subject to taxes including withholding taxes imposed by such countries.

The Company may not be able to benefit from a reduction in the rate of withholding tax by virtue of the double taxation agreement in operation between Ireland and other countries. Therefore, the sub-fund may not be able to reclaim withholding tax suffered in particular countries.

Following legislative changes in the Finance Act 2006, the holding of shares at the end of a relevant year will, in respect of Irish resident investors, also constitute a chargeable event. To the extent that any tax issues arise on such a chargeable event, such tax will be allowed as a credit against any tax payable on the subsequent encashment, redemption, cancellation or transfer of the relevant shares.

A relevant year is defined as a year of eight years beginning with the acquisition of a share by a shareholder and each subsequent year of eight years beginning immediately after the preceding relevant year.

The Finance Act, 2010 provides that the Revenue Commissioners may grant approval for investment funds marketed outside of Ireland to make payments to non-resident investors without deduction of Irish tax where no relevant declaration is in place, subject to meeting the "equivalent measures". A company wishing to receive approval must apply in writing to the Revenue Commissioners confirming compliance with the relevant conditions. As at 31 July 2023 and 31 July 2022, the Company had not applied for approval from the Revenue Commissioners.

Dividends, interest and capital gains (if any) on securities in which the sub-funds invests may be subject to taxes including withholding taxes imposed by such countries. In addition, where the sub-funds invest in securities that are not subject to withholding tax at the time of acquisition, there can be no assurance that tax may not be withheld in the future as a result of any change in applicable laws, treaties, rules or regulations or the interpretation thereof.

The Company is not required to deduct dividend withholding tax on dividend payments to shareholders provided the shareholder has completed the relevant declaration. It is the intention of the Directors that the business of the Company will be conducted in such a manner to ensure that the Company will be regarded as resident in Ireland for tax purposes.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

7. Charges, fees and other expenses

Investment manager fee

The Company will pay to the Investment Manager from the assets attributable to each class of shares of each sub-fund Investment Management Fees which are based on a percentage of net assets attributable to such class of shares, which are accrued daily and paid periodically in arrears, up to an annual rate as set out in the below table. The investment management fees for the financial year ended 31 July 2023 was US\$ 2,837,884 (31 July 2022: US\$ 6,330,980), of which US\$ 340,066 (31 July 2022: US\$ 1,380,867) was payable as at 31 July 2023. Included in the investment management fee are sub-investment manager fees as disclosed overleaf.

Sub-investment manager fees

Included in the investment management fee for certain sub-funds are sub-investment manager fees as disclosed overleaf.

Directors' Remuneration

The Independent Non-Executive Directors of the Company are entitled to remuneration at an annual rate of €60,000 per director (31 July 2022: €60,000). In addition the appointed Chairman receives EUR 5,000 per annum. The Non-executive Directors are not entitled to remuneration.

Ongoing charges and expenses

The additional charges and expenses specified in the section entitled Ongoing Charges and Expenses in the prospectus will, save in respect of the fees of the Distributor, be paid out of the assets of the Sub-Funds.

Risk management, administrator's, depositary's fees and manager fees

The Company will pay the Manager, out of the assets of the Sub-Funds, a fee which will not exceed: the rates set out on the table below. The fee will be accrued daily and paid periodically in arrears.

The Manager will, inter alia, arrange for payment of the fees and expenses of any service provider to each Sub-Fund (other than the Investment Manager and the Sub-Investment Manager) out of the Management Fee* and in particular the Administrator, the Depositary, the Auditor, legal fees, tax advisory fees, Directors' remuneration as well as any index license fees in respect of each Sub-Fund. For financial statement purposes, the Management Fee does not include administration fees and depositary fees which are shown separately on the statement of financial position and statement of comprehensive income. The Management Fee rebate and Management Fee are disclosed separately on the statement of comprehensive income, with the corresponding receivable and payable amounts included in other receivables and Management Fee payable on the statement of financial position.

For financial statement purposes, the Management Fee does not include administration fees and depositary fees which are shown separately on the statement of comprehensive income, with the corresponding payable amounts included in administration fees payable and depositary fees payable on the statement of financial position.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

7. Charges, fees and other expenses (continued)

Risk management, administrator's, depositary's fees and manager fees (continued)

Where management fees are not applicable on certain Sub-Funds, the Investment Manager will, inter alia, pay the fees and expenses of the Risk Manager, the Administrator and Custodian, which is disclosed as management fee rebate in the statement of comprehensive income.

Auditors Remuneration

	For the financial year ended 31 July 2023 US\$	For the financial year ended 31 July 2022 US\$
Annual audit	208,488	237,920
	<u>208,488</u>	<u>237,920</u>

Legal fees

All legal fees have been paid by the Manager on behalf of the Company.

Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. Transaction costs on the acquisition and disposal of securities are included in net realised gains/(losses) on financial assets and liabilities at fair value through profit or loss in the statement of comprehensive income.

Depositary fees

Northern Trust Fiduciary Services (Ireland) Limited, as Depositary earned a fee of US\$ 230,562 (31 July 2022: US\$ 324,109) during the financial year ended 31 July 2023, of which US\$ 88,573 (31 July 2022: US\$ 417,099) was due at the financial year end.

For SciBeta HFE Europe Equity 6F EW UCITS ETF, SciBeta HFE EM Equity 6F EW UCITS ETF, SciBeta HFE Japan Equity 6F EW UCITS ETF, SciBeta HFE Pacific ex-Jap Equity 6F EW UCITS ETF, SciBeta HFI US Equity 6F EW (USD) UCITS ETF and SciBeta HFE US Equity 6F EW UCITS ETF, the Depositary fees are calculated as a percentage of the Net Asset Value of the Sub-Fund based upon the following sliding scale:

Net Asset Value of Sub-Fund	Fee (as a % of Sub-Fund's NAV)
US\$0-US\$250,000,000	0.0175%
US\$250,000,001 and over	0.0125%

For all other Sub-Funds, the fees are calculated as a percentage of the Net Asset Value of the Sub-Fund, based upon the following sliding scale:

Notes to the financial statements for the financial year ended 31 July 2023 (continued)**7. Charges, fees and other expenses (continued)****Depository fees (continued)**

Net Asset Value of Sub-Fund	Fee (as a % of Sub-Fund's NAV)
US\$0-US\$100,000,000	0.0225%
US\$100,000,001 to US\$250,000,000	0.0175%
US\$250,000,001 and over	0.0125%

The Depository fee is subject to a minimum fee per Sub-Fund of US\$750 per month.

Administrator fees

Northern Trust International Fund Administration Services (Ireland) Limited, as Administrator earned a fee of US\$ 1,026,736 (31 July 2022: US\$1,264,964) during the financial year ended 31 July 2023, of which US\$ 253,436 (31 July 2022: US\$ 915,435) was due at the year end.

Administrator fees are calculated as a percentage of the Net Asset Value of each Sub-Fund based upon the following sliding scale:

Net Asset Value of Sub-Fund	Fee (as a % of Sub-Fund's NAV)
US\$0-US\$200,000,000	0.05%
US\$200,000,001 to US\$450,000,000	0.03%
US\$450,000,001 and over	0.025%

The Administrator fee is subject to a minimum monthly charge of US\$2,500 per Sub-Fund.

Other expenses

Other expenses paid by the Sub-Funds relate to sub-distributor fees, fees paid for tax services and other miscellaneous expenses.

8. Related parties disclosure

Related parties are parties that have the ability to control, or exercise significant influence over the Company in making financial or operational decisions. IAS 24 'Related Party Disclosures' requires the disclosure of information relating to material transactions with parties who are deemed to be related to the reporting entity.

The Company has delegated to the Management Company MSIM Fund Management (Ireland) Limited under the overall supervision and control of the Board of Directors of the Company, its investment management services, central administration, registrar and transfer agency services as well as marketing, principal distribution and sales services, as more specifically detailed in the management company services agreement as well as in the prospectus of the Company.

MSIM Fund Management (Ireland) Limited is regulated by the Central Bank of Ireland to provide these services. The Management Company may delegate some of its tasks to other parties, as detailed below, subject to approval by the Company. The Management Company's liability to the Company for the performance of collective portfolio management and other delegated services has not been affected by such delegation.

The Management Company in turn delegates the investment management and advisory services to FundLogic SAS known as the "Investment Manager". The investment manager provides independent valuations for the over the counter derivatives. Investment management fees are disclosed in the statement of comprehensive income and in note 7 to the financial statements. Sub-investment management fees are disclosed in note 7 to the financial statements.

In addition, Morgan Stanley & Co. International plc, or any of its affiliate or subsidiaries that are UCITS eligible counterparties, is counterparty to the sub-funds for open financial derivative instrument contracts as detailed in the schedule of investments. The arrangement is under normal commercial terms.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

8. Related parties disclosure (continued)

Morgan Stanley & Co. International plc or any of its employees, agents, affiliates, subsidiaries may perform further or alternative roles relating to the Company and any sub-fund, including:

- (i) being the counterparty in respect of any investments of the sub-fund
- (ii) being involved in arrangements relating to the relevant investments (for example as a derivative counterparty, or a calculation agent);
- (iii) being appointed as sub-custodian to a sub-fund by the Depositary and the Company;
- (iv) acting as a market maker in respect of shares;
- (v) being responsible for providing valuations which may form the basis of calculating the net asset value per Share in respect of any sub-fund in line with the valuation policies of the Company; and/or
- (vi) sponsoring or otherwise being involved with a variety of structured products such as participating notes, options or swaps linked in whole or in part to the performance of the sub-funds and may act as index sponsor or strategy manager/provider in respect of certain sub-funds.

Morgan Stanley & Co. International plc and its affiliates may receive compensation for providing such services to the Company and the sub-funds at normal commercial rates.

The Sub-Funds also hold broker cash balances with Morgan Stanley & Co. International plc, as disclosed in note 11 to the financial statements.

The affiliations of the Board of Directors of the Company are as follows:

Simon O'Sullivan, David Haydon, Rowena Mallaghan and Maurice Murphy served as directors during the financial year ended 31 July 2023. David Haydon is Managing Director of Morgan Stanley & Co. International plc. Rowena Mallaghan is an Executive Director of Morgan Stanley Investment Management, United Kingdom. See note 7 on page 254 for details of Directors remuneration.

The Company has adopted a conflict of interest policy to ensure that during the course of its business, shareholders in the sub-funds are treated fairly and material conflicts of interest are identified, disclosed and managed at a level of independence which is appropriate to the size and the activities of the Company.

9. Share capital

The authorised share capital of the Company is 2 subscriber shares (subscriber shares) of €1 each and 1,000,000,000,000 shares of no par value initially designated as unclassified shares and available for issue as shares. The subscriber shares have no rights of pre-emption and are issued for the purposes of incorporation of the Company. Subscriber shares may be repurchased by the Company upon request at a price of €1 per share. The subscriber shares are held by Matsack Trust Ltd and Matsack Nominees Ltd.

The minimum issued share capital of the Company is €2 or its equivalent in any other currency. The maximum issued share capital is €1,000,000,000,000 or its equivalent in any other currency. Redeemable shares have the right to: receive notice of, attend and vote at general meetings; receive all dividends declared and paid by the sub-fund; and exchange or repurchase shares. There are no rights of pre-emption attaching to the shares.

On winding-up of the Company, the assets available for distribution amongst shareholders shall be applied as follows: first the proportion of the assets in a Sub-Fund attributable to each class of share shall be distributed to the holders of shares in the relevant class in the proportion that the Number of shares held by each holder bears to the total Number of shares relating to each such class of shares in issue as at the date of commencement to wind up and secondly, any balance then remaining and not attributable to any of the classes of shares shall be apportioned pro-rata as between the classes of shares based on the net asset value of each class of shares as at the date of commencement to wind up and the amount so apportioned to a class shall be distributed to holders pro-rata to the Number of shares in that class of shares held by them.

Capital management

As a result of the ability to issue, repurchase and exchange shares, the capital of the Company can vary depending on the demand for redemptions and subscriptions. The Company has no legal restrictions on the issue, repurchase or exchange of redeemable shares beyond those included in the Company's constitution. The Company from time to time by ordinary resolution may increase the share capital by such amount as the resolution shall prescribe; consolidate and divide all or any of its share capital into shares of larger amount; sub-divide the shares into smaller amounts; cancel any class of shares; and redenominate any class of shares.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

9. Share capital (continued)

The Company manages its capital requirements by investing the capital in investments meeting the description, risk exposure and expected return indicated in the Sub-Funds' supplements; using financial derivative instruments as components of the Sub-Funds' investment strategies to structure and hedge investments, enhance performance and reduce risk to the Sub-Fund; and monitoring the liquidity of the Sub-Funds on a daily basis to ensure redemption requests can be met as they arise.

The movement in the number of redeemable participating shares during the financial year is detailed overleaf.

13. Risk associated with financial instruments

The Company's objective in managing risk is the creation and protection of shareholder value. Risk is inherent in the Company's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Company's continuing profitability. The Company and Sub-Funds are exposed to market risk (which includes currency risk, interest rate risk and price risk), credit risk and liquidity risk arising from the financial instruments they hold.

Risk management structure

The Investment Manager is responsible for identifying and controlling risks with ongoing supervision by the Manager, the Board of Directors and fund risk management. The Board of Directors is ultimately responsible for the overall risk management of the Company.

The Company's risk management processes are managed by the Risk Manager. The Risk Manager is independent of the Investment Manager, in terms of activities.

Risk measurement and reporting system

The Company's risks are measured using a method that reflects both the expected loss likely to arise in normal circumstances and unexpected losses that are an estimate of the potential loss based on statistical models. The models make use of the probabilities derived from historical experience, adjusted to reflect the economic environment, and have remained substantially unchanged from the previous year.

Monitoring and controlling risks is primarily based on limits established by the Board of Directors. These limits reflect the business strategy including the risk that the Company is willing to accept and the market environment of the Company. In addition, the Company monitors and measures overall risk in relation to the aggregate risk exposure across all risk types and activities.

Risk mitigation

The Sub-Funds have investment guidelines that set out their overall business strategies, their tolerance for risk and their general risk management philosophy.

The Sub-Funds use derivatives and other instruments for trading purposes and in connection with their risk management activities.

Excessive risk concentration

Concentration indicates the relative sensitivity of a Sub-Fund's performance to developments affecting a particular industry or geographical location. Concentration of risks arise when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentration of liquidity risk may arise from the repayment terms of financial liabilities, sources of borrowing facilities or reliance on a particular market in which to realise assets. Concentration of foreign exchange risk may arise if a Sub-Fund has a significant net open position in a single foreign currency, or aggregate net open positions in several currencies that tend to move together.

In order to avoid excessive concentration of risk, the Sub-Funds' policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. The Investment Manager is instructed to reduce exposure or to use derivative instruments to manage excessive risk concentrations when they arise.

Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and market prices.

(a) Market price risk

Price risk is the risk that the future cash flows or the fair values of financial instruments will fluctuate due to changes in market prices. Price risk exposure arises from the Sub-Funds' investments in equity securities and equity related derivatives. The Sub-Funds manage price risk by diversifying their portfolios.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

13. Risk associated with financial instruments (continued)

Market risk (continued)

(a) Market price risk (continued)

The Board manage the market price risks inherent in the investment portfolios by ensuring full and timely access to relevant information from the investment manager. The Board meets regularly and at each meeting reviews investment performance and overall market positions. They monitor the investment manager's compliance with the Funds' objectives. There were no material changes to the Company's policies and processes for managing market price risk and the methods and assumptions used to measure risk during the financial year.

The concentration of price risk in the Sub-Funds' portfolios is disclosed within the Sub-Funds schedule of investments.

Global Exposure

Value at Risk

A key metric used to measure market risk is Value-at-Risk ("VaR") which encompasses currency, interest rate and price risk. VaR is a statistical measure that helps quantify market risk. It indicates the potential loss of a portfolio (or an individual security), for a given time horizon and confidence level, under normal market conditions. For example, a 1 day VaR of US\$1million at a 99% confidence level indicates that 99 out of 100 trading days on average, the 1 day loss of the portfolio should not exceed US\$1 million. A fundamental assumption underlying this 1 day VaR number is that of a 1 day holding period for the entire portfolio. VaR, for equity and equity related products, is based on a 50-factor global equity model, provided by APT – a third party vendor. For each factor, APT provides the past 4 years (approximately 1000 days) of 1 day returns. "Systematic" returns for an individual stock are derived from these historical returns, using the sensitivities of the stock to the 50 factors. For each of the 1000, 1 day returns thus derived, five values of "residual" returns, reflecting the idiosyncratic element of risk, are calculated. A combination of these "systematic" returns and "residual" returns yields 5000, 1 day "total" returns for the stock. The 95th percentile and 99th percentile VaR correspond to the 250th and 50th worst total returns, respectively.

The appropriate absolute or relative VaR measure is calculated daily using a historical approach with a one-tailed confidence interval of 99% for a 20 day holding horizon, and considering 4 years of historical data and the calculation is subject to quarterly data set updates, or more frequent when market prices are subject to material changes. The Risk Manager will use Risk Analytics to calculate VAR. Risk Analytics is a proprietary tool developed by Morgan Stanley & Co. International plc and is independent from any other tools used by the Investment Manager. In addition, Risk Analytics is based on market data independent from data used by the Portfolio Managers. In the case of a sophisticated Sub-Fund, the VaR approach is applied. In the VaR approach, the potential loss that a Sub-Fund could suffer within a certain time horizon and a certain degree of confidence is estimated.

For swaps, total returns are the same as those of the underlying equity, while for equity indices, these are derived as the weighted average of the returns of the individual component stocks. Finally, for equity options, total return incorporates the return of the underlying equity as well as the return on volatility of the benchmark country index, corresponding to the underlying stock.

The VaR is expressed in absolute terms as a percentage of the Sub-Fund's net asset value unless a benchmark is disclosed in the below table. For Sub-Funds where a benchmark is disclosed these Sub-Funds use the Relative VaR approach and therefore their VaR should be compared with the VaR of their selected benchmark.

Some limitations of VaR are:

- the methodology is based on historical data and cannot take account of the fact that future market price movements, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns; and
- the VaR is a point-in-time calculation, and does not necessarily reflect the risk position of the Funds at any time other than the date and time at which it is calculated.

Commitment approach

For Sub-Funds not using VaR, the risk is managed through the commitment approach through the use of financial derivative instruments in line with the UCITS Regulations and the Central Bank UCITS Regulations.

In accordance with the requirements of the Central Bank, the global exposure generated through the use of derivatives of these Sub-Funds is limited to 100% of their Net asset value; and the leverage of these Sub-Funds is limited to 100% of their net asset value.

(b) Interest rate risk

Interest rate risk is the risk that an investment's value will change due to a change in the absolute level of interest rates, in the spread between two rates, in the shape of the yield curve or in any other interest rate relationship. The Sub-Funds' interest bearing financial assets and financial liabilities expose them to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial position and cash flows. The Sub-Funds are also exposed to interest rate risk through their bank balances and amounts due from brokers where interest is earned and interest expense of overdrafts and amounts due to brokers. The interest on these relates to interest due in less than 1 month.

Interest rate risk affects the value of bonds more directly than equities and as such, will affect different Sub-Funds based on their constituent securities. For the Sub-Funds the majority of the financial assets are equity shares and other investments which neither pay interest nor have a maturity date and therefore, there is no significant interest rate exposure.

The interest rate exposure for the Sub-Funds holding bonds is disclosed for each holding in the Sub-Funds' schedules of investments. The Sub-Funds' sensitivity to changes in interest rates is incorporated into the calculation of VaR disclosed earlier. Other than as noted above the Sub-Funds are not subject to any other interest rate risks.

All Sub-Funds for which risk is managed by the commitment approach invest primarily in non-interest bearing financial instruments and their exposure to interest rate risk is not considered significant. Therefore, interest rate risk sensitivity analysis for these Sub-Funds is not disclosed.

(c) Foreign currency rate risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Certain of the Sub-Funds' assets, liabilities and income are denominated in currencies other than their functional currency. They are, therefore, exposed to currency risk as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates. Income denominated in foreign currencies is converted to the appropriate functional currency on receipt.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

13. Risk associated with financial instruments (continued)

Market risk (continued)

(c) Foreign currency rate risk (continued)

Where appropriate, as defined in the Sub-Funds' investment policies and prospectus, the Company can employ techniques and instruments intended to hedge currency risk in the context of the management of its assets and liabilities. In this regard, the Company utilises hedged exposure to one currency by entering into forward foreign currency transactions. The details of forward foreign currency contracts which are open for greater than five business days are disclosed in the Sub-Funds' schedule of investments, where applicable. Spot currency contracts which are open for five business days or less are presented gross within other receivables or other payables in the statement of financial position. All foreign currency contracts can either be settled net or gross at the discretion of the investment manager and where the terms of the agreement permits positions to be settled net. During the financial year all foreign currency contracts settled gross, consistent with the settlement of all foreign currency contracts during the financial year ended 31 July 2022.

The currency hedging is executed at the sub-investment manager level using currency forwards, in line with the guidelines of the portfolio of investments. It is the responsibility of the sub-investment manager to execute these trades and monitor the resulting currency exposure of their portfolio of investments.

In accordance with Company policy, the investment manager monitors the Sub-Funds' currency position on a daily basis and the Board reviews it on a regular basis. There were no material changes to the Company's policies and processes for currency risk and the methods used to measure risk during the financial year.

The following tables set out the currency risk exposure of the Sub-Funds at the statement of financial position date:

Liquidity risk

Liquidity risk is the risk that the Sub-Funds will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Exposure to liquidity risk arises because of the possibility that the Sub-Funds could be required to pay their liabilities or redeem their shares earlier than expected. The Sub-Funds are exposed to cash redemptions of their redeemable shares on a regular basis. Shares are redeemable at the holder's option based on their proportionate share of the Sub-Funds' NAV per share at the time of redemption calculation in accordance with the Company's constitution.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

13. Risk associated with financial instruments (continued)

Market risk (continued)

Liquidity risk (continued)

The Sub-Funds' policy is to satisfy redemption requests by the following means:

- Searching for new investors;
- Withdrawing cash deposits;
- Disposing of highly liquid assets (i.e. short-term, low-risk debt investments); and/or
- Either disposing of other assets or increasing of leverage.

The Sub-Funds invest primarily in marketable securities and other financial instruments which, under normal market conditions, are readily convertible to cash. In addition, the Sub-Funds' policy is to maintain sufficient cash and cash equivalents to meet normal operating requirements and expected redemption requests. The Sub-Funds also have access to a bank overdraft facility to help mitigate liquidity risk.

The Sub-Funds enter into master-netting arrangements with major counterparties to financial derivative instrument contracts. Please refer to the "Credit risk" section below for more information.

It is the Company's policy that the Investment Manager monitors the Sub-Funds' liquidity position on a daily basis. For details on the financial assets and liabilities and maturity dates refer to the Sub-Funds schedules of investments. All other assets and liabilities have a maturity of less than 1 year.

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss for a Sub-Fund by failing to discharge an obligation.

The financial assets of the Sub-Funds are held with the Depository Northern Trust Fiduciary Services (Ireland) Limited, ("NTFSIL"), and Morgan Stanley & Co. International plc ("MSI"), Sub-Custodian to certain Sub-Funds. NTFSIL is the appointed Depository of the Sub-Funds, responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company ("TNTC") as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation ("NTC"). As at financial year end date 31 July 2023 NTC had a long term credit rating from Standard & Poor's of A+ (31 July 2022: A+).

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians.

NTFSIL, in the discharge of its depository duties, verifies the Sub-Fund's ownership of Other Assets, (as defined under Other Assets, Art 22(5) of UCITS V Directive 2014/91/EU), by assessing whether the Sub-Fund holds the ownership based on information or documents provided by the Sub-Fund or where available, on external evidence.

TNTC, in the discharge of its delegated depository duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Sub-Funds, clearly identifiable as belonging to the Sub-Funds, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition TNTC, as banker, holds cash of the Sub-Funds on deposit. Such cash is held on the statement of financial position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Sub-Funds will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Where relevant please note the following currencies, Jordanian Dinar, Saudi Riyal, cash in the onshore China market (principally the currency of Chinese Yuan Renminbi, and any other currencies remitted into accounts in the onshore China market), are no longer held on the Balance Sheet of TNTC. For these off-book currencies, clients' cash exposure is directly to the relevant local sub-custodian / financial institution in the market.

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Sub-Funds rights with respect to its assets to be delayed.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

13. Risk associated with financial instruments (continued)

Market risk (continued)

Credit risk (continued)

The Investment Manager as Responsible Party, manages risk by monitoring the credit quality and financial position of the Depository and such risk is further managed by the Depository monitoring the credit quality and financial positions of sub-custodian appointments.

Where MSI is the appointed Sub-Custodian to a Sub-Fund, the assets are held by MSI as Sub-Custodian on behalf of, and for the benefit of, the Sub-Fund, and recorded in MSI's books and records as being client assets and not proprietary assets of MSI. Bankruptcy or insolvency of the Sub-Custodian and or one of its agents or affiliates may cause the Sub-Fund's rights with respect to the securities held by the Sub-Custodian to be delayed.

Cash held with MSI is held separate from MSI's own assets under a client money protection agreement. MSI is an indirect wholly owned subsidiary of Morgan Stanley. As at 31 July 2023 MSI has a credit rating of A+ from Standard & Poor's (31 July 2022: A+).

The Sub-Funds are exposed to credit risk arising from transactions with their counterparties Northern Trust Fiduciary Services (Ireland) Limited and Morgan Stanley & Co. Bankruptcy or insolvency of a counterparty may cause a Sub-Fund's rights with respect to its assets to be delayed. To mitigate against these risks the Sub-Funds require their counterparties to be financial institutions that are regulated entities subject to prudential supervision.

It is the Sub-Funds' policy to enter into financial instruments with reputable counterparties.

The Investment Manager closely monitors the creditworthiness of the Sub-Funds' counterparties (e.g. brokers, Depository and Sub-Custodian) by reviewing their credit ratings, financial statements and press releases on a regular basis.

The Sub-Funds restrict the exposure to losses on derivative instruments they hold by entering into master-netting arrangements with major counterparties with whom a significant volume of transactions are undertaken. Such an arrangement provides for a single net settlement of all financial instruments covered by the agreement in the event of default on any one contract. Master-netting arrangements do not result in an offset of assets and liabilities in the statement of financial position unless certain conditions for offsetting under IAS 32 apply.

Although master-netting arrangements may significantly reduce credit risk, it should be noted that:

- Credit risk is eliminated only to the extent that amounts due to the same counterparty will be settled after the assets are realised; and
- The extent to which overall credit risk is reduced may change substantially within a short year because the exposure is affected by each transaction subject to the arrangement.

Please refer to note 5 for information on the potential effect of offsetting financial instruments subject to enforceable master netting arrangement.

In accordance with Company policy, the investment manager monitors the Sub-Funds' credit position on a daily basis. The Directors rely on the investment manager to keep them informed of any material event. There were no material changes to the Company's policies and processes for managing credit risk and the methods used to measure risk during the financial year.

Unrated positions which have been acquired by the Sub-Fund(s) are assessed by the relevant investment manager as to the creditworthiness of the position, as per the Sub-Fund Prospectus. The Investment Manager is not currently aware as of the date in the accounts of any securities being in default.

The maximum credit risk exposure is best represented by the carrying amounts of the financial assets as shown on the statement of financial position excluding the investments in equities as shown in note 4, and excluding the investments in warrants.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)**14. Distributions**

The following distributions were declared and paid on Class D EUR of Equity Risk Managed Fund (31 July 2022: €591,765):

Ex-date	Rate	Distributions declared
3 October 2022	0.70%	€80,869
4 January 2023	0.70%	€82,253
3 April 2023	0.70%	€81,685

No distribution was declared in July 2023 as the Equity Risk Managed Fund terminated on 27 June 2023.

15. Exchange rates

For the purposes of producing the combined Company statement of financial position, the following financial year end exchange rates were used to translate the assets and liabilities of the Sub-Funds whose functional currency is other than US dollar:

	As at 31 July 2023	As at 31 July 2022
Euro	0.9061	0.9764
Swiss franc	0.8699	0.9516
Japanese yen	142.2350	133.2250
British pound sterling	0.7773	0.8209
Swedish krone	10.4966	10.1541

For the purposes of producing the combined Company statement of comprehensive income, statement of changes in net assets attributable to holders of redeemable participating shares and statement of cash flows, the following average exchange rates were used to translate the transactions during the financial year of the Sub-Funds whose functional currency is other than US dollar:

	As at 31 July 2023	As at 31 July 2022
Euro	0.9498	0.8996
Swiss franc	0.9309	0.9363
Japanese yen	137.7291	119.5908
British pound sterling	0.8267	0.7615
Swedish krone	10.5752	9.3158

16. Prospectus

The Company issued a new Prospectus and Supplements on 1 August 2022 to reflect the appointment of MSIM Fund Management (Ireland) Limited as Management Company of the Company.

17. Soft commission arrangements

There were no soft commission arrangements during the financial year ended 31 July 2023 (31 July 2022: US\$Nil).

18. Segregated liability

The Company is structured as an umbrella fund with segregated liability between its Sub-Funds. As a matter of Irish law, the assets of one Sub-Fund are not available to meet the liabilities of another. However, the Company is still a single legal entity that may operate or have assets held on its behalf. While the provisions of the Companies Act 2014 provide for segregated liability between Sub-Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly, it is not free from doubt that the assets of any Sub-Fund of the Company may not be exposed to the liabilities of other Sub-Funds of the Company.

19. Epidemics/Pandemics/Outbreaks Risk

The performance of the Shares depends on the performance of the investments of the Funds, which could also be adversely affected by the effects of epidemics, pandemics or outbreaks of communicable diseases. In response to intensifying efforts to contain epidemics, pandemics or outbreaks of communicable diseases, governments around the world may take a number of actions, such as prohibiting residents' freedom of movement, encouraging or ordering employees to work remotely from home, and banning public activities and events, among others. Any prolonged disruption of business could negatively impact financial conditions. The performance of the Shares could be adversely affected to the extent that any of these epidemics, pandemics or outbreaks harms the economy in general.

Notes to the financial statements for the financial year ended 31 July 2023 (continued)

20. Significant events during the financial year

Funds liquidated during the period

MS Scientific Beta US Equity Factors UCITS ETF terminated on 17 November 2022.

Zebra Kante™ 80 Protect terminated on 21 November 2022.

Emerging Markets Equity Fund terminated on 22 November 2022.

MSCI Emerging Markets ESG Equity Fund terminated on 19 January 2023.

Equity Risk Managed Fund terminated on 27 June 2023.

Management Company

With effect from 1 August 2022 MSIM Fund Management (Ireland) Limited was appointed as Management Company of the Company. This appointment followed the Board's decision to change the legal structure and management model of the Company, from self-managed to employing a separate management company.

MSIM Fund Management (Ireland) Limited is an indirect wholly owned subsidiary of Morgan Stanley having its registered office at 24-26 City Quay, Dublin 2, D02 NY19, Ireland. MSIM Fund Management (Ireland) Limited was incorporated as a company limited by shares under the laws of Ireland on 5 December 2017 and is regulated in Ireland by the Central Bank of Ireland.

There were no other significant events during the financial year.

21. Significant events after the financial year

There were no significant events subsequent to 31 July 2023 to the date the financial statements were approved by the Directors which require adjustment or disclosure in the financial statements.

22. Approval of financial statements

The financial statements were approved and authorised for issue by the Board of Directors on 23 November 2023.

Unaudited supplementary information for the financial year ended 31 July 2023

Appendix 1: Securities financing transactions and reuse

The following information is presented with regard to Regulation (EU) 2015/2365 on transparency of securities financing transactions and of reuse ("SFTR"). The Board of Directors considers the outperformance swaps held by the Sub-Funds to meet the definition of total return swaps within those regulations.

Appendix 2: Remuneration Policy

MSIM Fund Management (Ireland) Limited (the "Management Company") has a remuneration policy (the "Remuneration Policy") in place which seeks to ensure that the interest of the Company and its shareholders are aligned in accordance with the remuneration requirements of the UCITS Regulations. These provisions require Management Companies to establish and apply remuneration policies and practices that promote sound and effective risk management, and do not encourage risk taking which is inconsistent with the risk profile of the Company. The Remuneration Policy sets out practices for those receiving total remuneration whose professional activities have a material impact on the risk profile of the Company, that are consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profiles, rules or constitutional document of the Company.

The remuneration process as set out in the Remuneration Policy applies to 'Identified Staff' of the Company being "those categories of staff, including senior management, risk takers and control functions receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the Company.

The Company has determined that the following staff members would fall within the definition of "Identified Staff":

- Members of the Board of Directors

The Remuneration Policy complies with the UCITS Directive remuneration principles in a way and to the extent that is appropriate to its size, its internal organisation and the nature scope and complexity of the Management Company's activities. The Directors who are not employees of the investment manager of the Company receive a fixed annual fee for their services and do not receive performance-based remuneration therefore avoiding a potential conflict of interest.

In accordance with paragraph 16 of the requirements on remuneration which are equally as effective as those applicable under the ESMA Guidelines or (b) contractual arrangements are in place between the Company and the relevant investment manager in order to ensure that there is no circumvention of the remuneration rules set down in the ESMA Guidelines. The Management Company ensures that fixed or variable remuneration is not paid to the Identified Staff through vehicles or by the application of methods which, in either case, are designed to circumvent the Regulations.

Unaudited supplementary information for the financial year ended 31 July 2023 (continued)

Appendix 3: Leverage

The leverage of the Sub-Funds adopting Absolute VaR risk approach at 31 July 2023 is listed below.

Sub-fund name	Risk approach	Leverage
Cautious 85% Protected Fund	Absolute VaR	288.12%
Moderate 80% Protected Fund	Absolute VaR	321.25%
ACUMEN Capital Protection Portfolio	Absolute VaR	294.91%
ACUMEN Megatrends Protection Portfolio	Absolute VaR	293.87%
Movestic Avancera 75	Absolute VaR	310.14%
Movestic Avancera 85	Absolute VaR	316.23%
ACUMEN ESG Protection Portfolio	Absolute VaR	292.69%
Pergola 90	Absolute VaR	165.76%
Morgan Stanley Alpha Tracker UCITS Fund	Absolute VaR	196.93%
Ibercaja Vida Consolida Sostenible	Absolute VaR	198.75%

Sustainable Finance Disclosure Regulation (SFDR)

(Annex IV)(Unaudited)

for the financial year ended 31 July 2023

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product name: Ibercaja Vida Consolida Sostenible
Legal entity identifier: 635400F4CXSGKH6WGA18
Reference period: 01 August 2022 to 31 July 2023

Unless stated otherwise, the values below have been calculated based on the Sub-Fund's investments as of 31 July 2023

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: __% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: __%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the reference period, the Sub-Fund promoted environmental and social characteristics through its exposure to:

- The MSCI World ESG Leaders Select 5% Issuer Capped Index (**Index**), hedged in EUR (**Equity Asset Group**), which has been designated as a reference benchmark for the purpose of attaining the environmental and social characteristics of the Equity Group of the Sub-Fund; and
- Fixed income securities, through UCITS exchange traded Funds (**UCITS ETFs**), which are generally classified as (i) promoting an environmental or social characteristic (i.e. an Article 8 Fund under the Sustainable Finance Disclosure Regulation (**SFDR**)) or (ii) having sustainable investment as its investment objective (i.e. an Article 9 Fund under the SFDR) (**Fixed Income Asset Group**).

The Equity Asset Group and/or the Fixed Income Asset Group are hereinafter referred to collectively as the **Asset Group(s)**.

Equity Asset Group

The Index, to which the Sub-Fund gained exposure, promotes environmental, social and governance themes and is constructed by MSCI as index provider with an aim to represent the performance of companies that have high environmental, social and governance (ESG) performance. The Index aimed to avoid concentration by capping issuers to a maximum weight of 5%, and excluded companies involved in certain activities with the potential to be harmful to human health or the environment (as detailed further below).

The Sub-Fund gained exposure to the Index which in turn promoted a range of environmental and social themes through the MSCI ESG Ratings which provides an overall company ESG rating - a seven-point scale from 'AAA' to 'CCC'. In addition, scores and percentiles indicate how well a company manages each key issue relative to industry peers are provided. All companies were required to have an MSCI ESG Rating of 'BB' or above to be eligible for inclusion in the Index. The Index uses MSCI ESG Business Involvement Screening Research to identify companies that are involved in controversial weapons, nuclear weapons, civilian firearms, tobacco, alcohol, conventional weapons, gambling, nuclear power, fossil fuel extraction and thermal coal power. Also, the Index aimed to avoid concentration by capping issuers to a maximum weight of 5%.

Fixed Income Asset Group

The Sub-Fund also promoted environmental and social characteristics through investment in UCITS ETFs categorised as article 8 and/or article 9 under the SFDR.

Further detail on the nature of these characteristics is set out below (in response to the question "How did the sustainability indicators perform?").

There were no exceptions to the Sub-Fund's attainment of its environmental and social characteristics.

■ **How did the sustainability indicators perform?**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainability Indicator	Indicator Threshold	2023 Indicator Value
Equity Asset Group		
Minimum MSCI ESG Rating		
At each quarterly Index review, companies that are not existing constituents of the Index must have an MSCI ESG Rating of 'BB' or above to be eligible to be included.	100.00%	100.00%
The % of companies added to the Index at end of each quarter with a Rating of 'BB' or above was:		
Existing constituents of the Index must have an MSCI ESG Rating of 'BB' or above to be eligible.	100.00%	100.00%
The % of the Index where underlying companies had a Rating of 'BB' or above was:		
MSCI ESG Controversies		
At each quarterly Index review, companies that are not existing constituents of the Index must have an MSCI Controversies Score of 3 or above to be eligible to be included.	100.00%	100.00%
The % of companies added to the Index with a Rating of 3 or above was:		
Existing constituents of the Index must have an MSCI ESG Controversies Score of 1 or above to remain eligible.	100.00%	100.00%
The % of the Index where underlying constituents had a Score of 1 or above was:		
MSCI ESG Controversial Business Involvement Criteria		

Sustainability Indicator	Indicator Threshold	2023 Indicator Value
% of the Index where underlying companies were involved with:		
Thermal coal	0.00%	0.00%
Tobacco	0.00%	0.00%
Alcohol	0.00%	0.00%
Gambling	0.00%	0.00%
Nuclear power	0.00%	0.00%
Civilian firearms	0.00%	0.00%
Fossil fuel extraction	0.00%	0.00%
Thermal coal power	0.00%	0.00%
Weapons (Conventional weapons, controversial weapons and civilian firearms)	0.00%	0.00%
Fixed Income Asset Group		
% Exposure to the following UCITS ETFs categorized as article 8 under the SFDR within the Fixed Income Asset Group:	100.00%	100.00%
<ul style="list-style-type: none"> • iShares \$ High Yield Corp Bond ESG UCITS ETF; • UBS (Lux) Fund Solutions - Bloomberg Barclays MSCI US Liquid Corporates Sustainable UCITS ETF; • iShares EUR High Yield Corp Bond ESG UCITS ETF; and • iShares EUR Corp Bond ESG UCITS ETF 		

The indicator values for the Minimum MSCI ESG Rating, MSCI ESG Controversies and MSCI ESG Controversial Business Involvement Criteria exclusions are based on an average of the values for each quarterly Index review during the reference period.

For the avoidance of doubt the Sub-Fund did not have 100% of exposure to the Equity & Fixed Income Asset Group during the reference period, due to the fact that it had other exposures, as outlined in the Sub-Fund's supplement

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Fund did not consider principal adverse impact (“PAI”) indicators for the following reasons:

- the Sub-Fund adopted a passive investment strategy where there was no discretion on the Sub-Fund exposure and which also applies a third-party methodology, rating and screening;
- the Sub-Fund followed rule-based strategies where there was no selection of assets outside of such rules or ongoing monitoring on behalf of the Sub-Fund of the assets from an ESG perspective

- the Sub-Fund gained exposure to securities and indices through derivatives and did not exercise voting rights and did not have active engagement with investee companies in respect of ESG issues

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 1 August 2022 - 31 July 2023

Security	Sector	% Assets	Country
MSCI WORLD ESG LEADERS 5% ISSUER CAPPED Index Net USD	UCITS Index	46.18%	NA
UCITS Index - UST 10 YR Future	UCITS Index	20.26%	NA

For avoidance of doubt the above weights are disclosed at the asset portfolio level and not at the Sub-Fund effective exposure level. Other investments of the Sub-Fund such as the Put Option, and the impact of the Risk Control Mechanism may have an impact on the effective exposure of the Sub-Fund to the above top investments.

What was the proportion of sustainability-related investments?

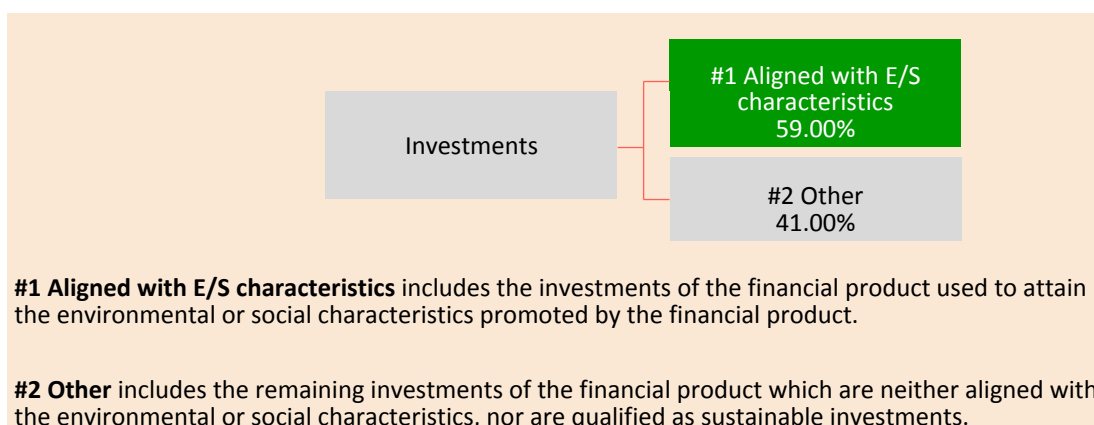

The investments of the Sub-Fund aligned with environmental and social characteristics represented 59.00% of the Sub-Fund's NAV as at 31 July 2023.

The other assets in the Sub-Fund were: (i) the Put Option; (ii) assets held for hedging purposes to reduce foreign currency exposure; (iii) assets held for investment purposes providing exposure to government issued bond futures which are part of the Fixed Income Asset Group and (iv) exposure to cash (where required due to increased volatility during certain periods, as managed by the Risk Control Mechanism).

The Sub-Fund did not make any sustainable investments within the meaning of the Sustainable Finance Disclosure Regulation ("SFDR").

■ What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

■ *In which economic sectors were the investments made?*

Sector	% Assets
Sovereign	33.43%
Consumer Discretionary	9.32%
Information Technology	7.61%
Industrials	6.61%
Financials	6.03%
Financial Services	5.27%
Health Care	5.07%
Communication Services	4.50%
Consumer Staples	2.91%
Consumer Cyclical	2.16%
Materials	1.77%
Energy	1.65%
Healthcare	1.56%
Real Estate	1.40%
Technology	1.31%
Utilities	0.96%
Basic Materials	0.59%
Consumer Defensive	0.52%
Exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels	3.09%

The table above reflects the Sub-Fund's exposure, either through holding the securities or via a derivative instrument, and does not include assets which the Sub-Fund may hold, but does not have exposure to.

The Sub-Fund's exposure to fossil fuel related activities, as presented in the table above, captures underlying constituents deriving any revenue from such activities as part of their business, as part of the Index to which the Sub-Fund is exposed through the Equity Asset Group, and ETFs held in the Fixed Income Asset Group. The indicator therefore has a broader scope when compared to the MSCI ESG Controversial Business Involvement Criteria screening applied as a binding characteristic to the portion of the Sub-Fund exposed to the Equity Asset Group.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover** reflects the “greenness” of investee companies today
- capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy
- operational expenditure (OpEx)** reflects the green operational activities of investee companies.

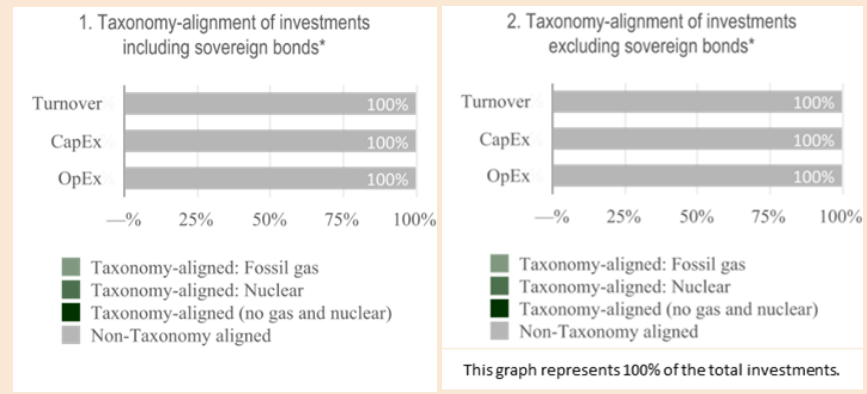

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

None of the Sub-Fund’s investments which promoted environmental characteristics have been assessed as aligned with the EU Taxonomy during the reference period.

■ **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?**¹

- Yes
- No¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

■ **What was the share of investments made in transitional and enabling activities?**

The Sub-Fund did not make any investments which were assessed to be in transitional or enabling activities, according to the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

As of the end of reference period, 41.00% of the Sub-Fund's investments were not aligned with the environmental or social characteristics, and have been included in the "other" category. These assets were comprised of: (i) the Put Option; (ii) assets held for hedging purposes to reduce foreign currency exposure; (iii) assets held for investment purposes providing exposure to government issued bond futures which are part of the Fixed Income Asset Group and (iv) exposure to cash (where required due to increased volatility during certain periods, as managed by the Risk Control Mechanism).

The Financing Assets underlying the Sub-Fund's Financing Swap were not aligned with the environmental and social characteristics promoted by the Sub-Fund, and were not subject to any minimum environmental or social safeguards. However, the Sub-Fund was not exposed to the performance of the Financing Assets.

What actions have been taken to meet environmental and/or social characteristics during the reference period?

Holdings in the Equity Asset Group, that passed the MSCI ESG rating and ESG exclusions (as applicable), and UCITS ETFs in the Fixed Income Asset Group, categorised as article 8 and/or article 9 under the SFDR, have been deemed eligible for inclusion in the Investment Portfolio. The ESG characteristics of holdings selected for inclusion have been monitored periodically throughout the reporting period by the investment manager to ensure that no investments breached thresholds or fell below the criteria set out above.

How did this financial product perform compared to the reference benchmark?

The Sub-Fund obtained exposure to the MSCI World ESG Leaders Select 5% Issuer Capped Index, which constituted the Equity Asset Group portion of the Asset Groups. The extent of the Sub-Fund's exposure to the Equity Asset Group (and therefore to the MSCI World ESG Leaders Select 5% Issuer Capped Index) varied during the reference period, because of the systematic allocation of exposure between the Equity Asset Group and the Fixed Income Asset Group and the operation of the Risk Control Mechanism. For avoidance of doubt the Equity Asset Group has an investment objective to be exposed to the Index and to some FX hedging indices. Thus the Equity Asset Group performance might differ from the performance of the Index. During the reference period the tracking error was 1.2%.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

■ **How does the reference benchmark differ from a broad market index?**

The application of MSCI's methodology differentiates the MSCI ESG Leaders Select 5% Issuer Capped Index from a broad market index by the application of MSCI ESG methodology. The Index is one of the MSCI ESG Leaders 5% Issuer Capped Indexes and is constructed with an aim to represent the performance of companies that have high environmental, social and governance ratings relative to their sector peers, and to ensure the inclusion of the best-in-class companies from an environmental, social and governance perspective. The Index aims to avoid concentration by capping issuers to a maximum weight of 5%.

More generally, the MSCI ESG Leaders Indexes aim to target sector weights that reflect the relative sector weights of the underlying MSCI Global Investable Market Indexes to limit the systematic risk introduced by the environmental, social and governance selection process. Overall, the MSCI ESG Leaders Indexes target coverage of 50% of the underlying MSCI World Index.

■ **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Equity Asset Group was exposed to the reference benchmark and some FX hedging indices, and therefore the portion of the Sub-Fund which was exposed to the Equity Asset Group had the same performance as the reference benchmark for the sustainability indicators, with some tracking error, which is detailed above.

■ ***How did this financial product perform compared with the reference benchmark?***

The Equity Asset Group was exposed to the reference benchmark and some FX hedging indices, and therefore the portion of the Sub-Fund which was exposed to the Equity Asset Group had the same performance as the reference benchmark for the sustainability indicators, with some tracking error, which is detailed above.

■ ***How did this financial product perform compared with the broad market index?***

The Sub-Fund follows a systematic allocation strategy, and has not defined a broad market index for comparison.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a,
of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product name: Acumen ESG – Protection Portfolio
Legal entity identifier: 635400325CYLEWGWPH82
Reference period: 01 August 2022 to 31 July 2023

Unless stated otherwise, the values below have been calculated based on the Sub-Fund's investments as of 31 July 2023

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: __% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: __%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the reference period, the Sub-Fund promoted the following environmental and social characteristics through its exposure to the ESG Investment Components of the Investment Portfolio (the "ESG Portfolio"):

- **Achievement of minimum MSCI ESG Rating:** The Sub-Fund promoted the following environmental and social themes through its exposure to the ESG Investment Components which provided exposure to investments that have received a minimum MSCI ESG Rating:
 - Climate Change , Natural Capital , Pollution & Waste, Environmental Opportunities, Human Capital , Product Liability , Stakeholder Opposition, Social Opportunities
- **Exclusions:** The Sub-Fund applied exclusions to underlying corporate issuers of the equity and fixed income securities to which it gained exposure through the ESG Investment Components. The Sub-Fund promoted the environmental characteristic of limiting negative environmental externalities by excluding exposure to investments in thermal coal and the social characteristic of avoiding exposure to investments

in activities which caused harm to human health and wellbeing, in each case where underlying companies derived 15% or more of revenue from such activities.

Further detail on the nature of these characteristics is set out below (in response to the question “How did the sustainability indicators perform?”).

During the reference period, due to the impact of the Sub-Fund's other investments, the Sub-Fund had a decreasing exposure to its Investment Portfolio to reach 0% of exposure at the end of the reference period.

■ **How did the sustainability indicators perform?**

The table below provides information on how the sustainability indicators relevant to the ESG Portfolio performed at the end of the reference period, however it should be noted that the Sub-Fund's exposure to the ESG Portfolio was 0.00% at this time.

The Sub-Fund's exposure to the ESG Portfolio varied during the reference period due to its Risk Control Mechanism, and the impact of the put option, as further described in the Sub-Fund's supplement. At the start of the reference period the Sub-Fund's exposure to the ESG Portfolio was 27.78%.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainability Indicator	Indicator Threshold	2023 Indicator Value
MSCI ESG rating of the ESG Investment Components		
The components of the ESG Portfolio must achieve an aggregated minimum MSCI ESG rating of A, which represents a minimum score of 6.18 out of 10 on the MSCI ESG Rating scale.	6.18	7.52
Minimum MSCI ESG rating for asset class eligibility in the ESG Investment Components		
For UCITS ETFs and UCITS eligible indices which provide exposure to equity securities or investment grade fixed income securities issued by corporate issuers, the minimum MSCI ESG Rating is A (minimum score of 6.18)	6.18	7.03
For UCITS ETFs and UCITS eligible indices which provide exposure to fixed income securities issued by government issuers located in developed markets, the minimum MSCI ESG Rating is BBB (minimum score of 5.17)	5.17	5.72
Exclusions		
The % exposure of the ESG Investment Components to equity securities or fixed income securities issued by corporate underlyings, where companies derived 15% or more of revenue from such activities		
Adult Entertainment	0.00%	0.00%
Alcohol	0.00%	0.00%
Civilian Firearms	0.00%	0.00%
Conventional Military Weapons	0.00%	0.00%
Gambling	0.00%	0.00%
Genetically Modified Organisms	0.00%	0.00%
Thermal Coal	0.00%	0.00%
Tobacco	0.00%	0.00%

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Fund did not consider principal adverse impact (“PAI”) indicators for the following reasons:

1. the Sub-Fund applied, as part of the investment policy, specified third party methodologies ratings and screening to select underlying assets and PAI indicators are not considered as part of this methodology;
2. the Sub-Fund gained exposure to securities and indices through derivatives and did not exercise voting rights and did not have active engagement with investee companies in respect of ESG issues

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 1 August 2022 to 31 July 2023

Security	Sector	% Assets	Country
iShares USD TIPS UCITS ETF	ETF	8.42%	IRELAND
iShares USD Corp Bond ESG UCITS ETF	ETF	7.41%	IRELAND
iShares USD Development Bank Bonds UCITS ETF	ETF	7.25%	IRELAND
UBS Lux Fund Solutions - Sustainable Development Bank Bonds UCITS ETF	ETF	7.14%	LUXEMBOURG
iShares USD Corp Bond 0-3yr ESG UCITS ETF	ETF	7.07%	IRELAND
iShares EUR Corp Bond ESG UCITS ETF	ETF	7.00%	IRELAND
iShares EUR Corp Bond 0-3yr ESG UCITS ETF	ETF	7.00%	IRELAND

Some of the securities listed above did not form part of the ESG Portfolio. All these securities are part of the Investment Portfolio. As outlined above, at the end of the reference period, the Sub-Fund had no effective exposure to them.

What was the proportion of sustainability-related investments?

The investments of the Sub-Fund aligned with environmental and social characteristics represented 0.00% of the Sub-Fund's NAV as at 31 Jul 2023.

The Sub-Fund's exposure to the ESG Portfolio (and therefore its alignment with its environmental and social characteristics) varied during the reference period due to its Risk Control Mechanism, and the impact of the

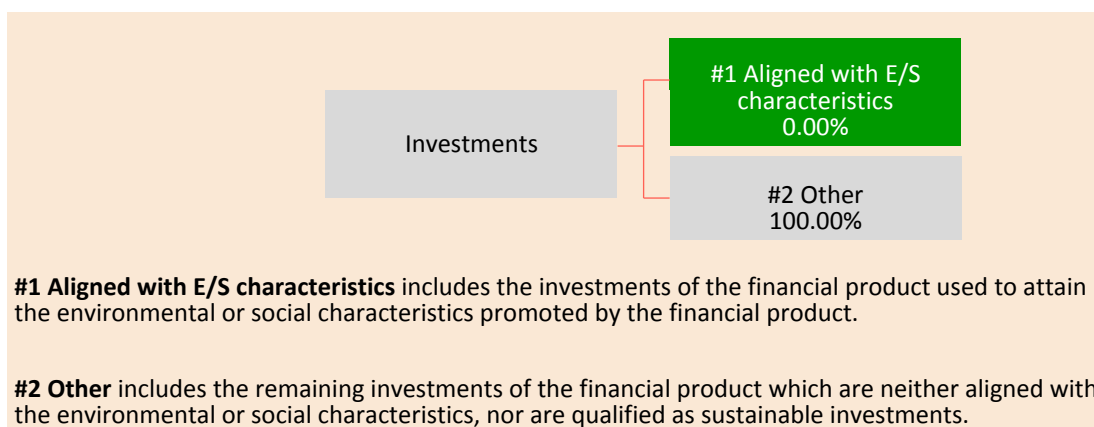

put option, as further described in the Sub-Fund's supplement. At the start of the reference period the Sub-Fund's exposure to the ESG Portfolio was 27.78%.

The other assets in the Sub-Fund were: (i) the Put Option; (ii) assets held for hedging purposes to reduce foreign currency risk or rate risk; and (iii) exposure to cash (where required due to increased volatility during certain periods, as managed by the Risk Control Mechanism).

The Sub-Fund did not make any sustainable investments within the meaning of the Sustainable Finance Disclosure Regulation ("SFDR").

■ What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

■ In which economic sectors were the investments made?

Sector	% Assets
Financial Services	19.10%
Supranational	14.69%
Treasury	8.63%
Inflation Protected	8.57%
Industrials	5.57%
Technology	5.36%
Consumer Cyclical	4.61%
Healthcare	4.17%
Consumer Defensive	2.90%
Communication Services	2.75%
Basic Materials	1.89%
Real Estate	1.48%
Utilities	1.05%
Energy	0.62%
Exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels	1.58%

The sector information above is based on the sectors of the underlying constituents of the ETFs which formed part of the Investment Portfolio. At the end of the reference period, the Sub-Fund had no effective exposure to these ETFs.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

-**turnover** reflects the “greenness” of investee companies today

-**capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy

-**operational expenditure (OpEx)** reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

None of the Sub-Fund’s exposure to the ESG Investment Components, which promoted environmental characteristics, have been assessed as aligned with the EU Taxonomy during the reference period.

■ **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy? ¹**

Yes

No¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

■ **What was the share of investments made in transitional and enabling activities?**

The Sub-Fund did not have any exposure to investments which were assessed to be in transitional or enabling activities, according to the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

As of the end of reference period, 100.00% of the Sub-Fund's assets were not aligned with the environmental or social characteristics, and have been included in the "other" category. These assets were comprised of (i) the Put Option; (ii) assets held for hedging purposes to reduce foreign currency risk or rate risk; and (iii) exposure to cash (where required due to increased volatility during certain periods, as managed by the Risk Control Mechanism).

The Sub-Fund's exposure to the ESG Portfolio (and therefore its exposure to "other" assets) varied during the reference period due to its Risk Control Mechanism, and the impact of the put option, as further described in the Sub-Fund's supplement. At the start of the reference period the Sub-Fund's exposure to "other" assets was 72.22%.

The Financing Assets underlying the Sub-Fund's Financing Swap were not aligned with the environmental and social characteristics promoted by the Sub-Fund, and were not subject to any minimum environmental or social safeguards. However, the Sub-Fund was not exposed to the performance of the Financing Assets.

What actions have been taken to meet environmental and/or social characteristics during the reference period?

Holdings that passed the MSCI ESG rating and ESG exclusions (as applicable) have been deemed eligible for inclusion in the ESG Portfolio. The ESG characteristics of holdings selected for inclusion have been monitored periodically throughout the reporting period by the investment manager and/or sub-investment manager to ensure that no investments breached thresholds or fell below the criteria set out above.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product name: MSCI Emerging Markets ESG Equity Fund
Legal entity identifier: 635400HSLMDL7BNSCH48
Reference period: 01 August 2022 to 19 January 2023

The Sub-Fund was liquidated on 19 January 2023

Unless stated otherwise, the values below have been calculated based on the Sub-Fund's investments as of 19 January 2023

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: __% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: __%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the reference period, the Sub-Fund promoted the following environmental and social characteristics through the replication via a financial derivative instrument of the MSCI Emerging Markets ESG Leaders Index (Total Return Net Dividend Reinvested) ("**Index**"):

Achievement of minimum MSCI ESG Rating: The Sub-Fund promoted a range of environmental and social themes through its exposure to the MSCI ESG Ratings which provided an overall company ESG rating - a seven-point scale from 'AAA' to 'CCC'.

All companies were required to have an MSCI ESG Rating of 'BB' or above to be eligible for inclusion in the Index.

The Index used MSCI ESG Business Involvement Screening Research to identify companies that were involved in controversial weapons, nuclear weapons, civilian firearms, tobacco, alcohol, conventional weapons, gambling, nuclear power, fossil fuel extraction and thermal coal power.

Further detail on the nature of these characteristics is set out below (in response to the question “How did the sustainability indicators perform?”).

There were no exceptions to the Sub-Fund's attainment of its environmental and social characteristics.

■ **How did the sustainability indicators perform?**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainability Indicator	Indicator Threshold	2023 Indicator Value
Minimum MSCI ESG Rating		
At each quarterly Index review, companies that are not existing constituents of the Index must have an MSCI ESG Rating of 'BB' or above to be eligible to be included.	100.00%	100.00%
The % of companies added to the Index at end of each quarter with a Rating of 'BB' or above was:		
Existing constituents of the Index must have an MSCI ESG Rating of 'BB' or above to be eligible.	100.00%	100.00%
The % of the Index where underlying companies had a Rating of 'BB' or above was:		
MSCI ESG Controversies		
At each quarterly Index review, companies that are not existing constituents of the Index must have an MSCI ESG Controversies Score of 3 or above to be eligible to be included.	100.00%	100.00%
The % of companies added to the Index with a Rating of 3 or above was:		
Existing constituents of the Index must have an MSCI ESG Controversies Score of 1 or above to remain eligible.	100.00%	100.00%
The % of the Index where underlying constituents had a Score of 1 or above was:		
MSCI ESG Controversial Business Involvement Criteria		
% of the Index where underlying companies were involved with:		
Controversial weapons	0.00%	0.00%
Nuclear weapons	0.00%	0.00%
Civilian firearms	0.00%	0.00%
Tobacco	0.00%	0.00%
Alcohol	0.00%	0.00%
Conventional weapons	0.00%	0.00%
Gambling	0.00%	0.00%
Nuclear power	0.00%	0.00%
Fossil fuel extraction	0.00%	0.00%
Thermal coal power	0.00%	0.00%

The indicator values for the Minimum MSCI ESG Rating, MSCI ESG Controversies and MSCI ESG Controversial Business Involvement Criteria exclusions are based on an average of the values for each quarterly Index review during the reference period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Fund did not consider principal adverse impact (“PAI”) indicators for the following reasons:

- the Sub-Fund adopted a passive investment strategy where there was no discretion on the Sub-Fund exposure and which also applies a third-party methodology, rating and screening; and
- the Sub-Fund gained exposure to securities and indices through derivatives and did not exercise voting rights and did not have active engagement with investee companies in respect of ESG issues.

What were the top investments of this financial product?

Security	Sector	% Assets	Country
Taiwan Semiconductor Manufacturing Co Ltd	Information Technology	11.34%	TAIWAN
Tencent Holdings Ltd	Communication Services	8.49%	CHINA
Alibaba Group Holding Ltd	Consumer Discretionary	5.90%	CHINA
Reliance Industries Ltd	Energy	2.57%	INDIA
Meituan	Consumer Discretionary	2.51%	CHINA
Infosys Ltd	Information Technology	1.77%	INDIA
China Construction Bank Corp	Financials	1.73%	CHINA
Housing Development Finance Corp Ltd	Financials	1.59%	INDIA
Naspers Ltd	Consumer Discretionary	1.17%	SOUTH AFRICA
Tata Consultancy Services Ltd	Information Technology	1.05%	INDIA
Baidu Inc	Communication Services	0.98%	CHINA
NetEase Inc	Communication Services	0.96%	CHINA
MediaTek Inc	Information Technology	0.96%	TAIWAN
Wuxi Biologics Cayman Inc	Health Care	0.91%	CHINA
Bank Central Asia Tbk PT	Financials	0.85%	INDONESIA

The table above reflects the Sub-Fund's exposure via a derivative instrument, and does not include assets which the Sub-Fund may hold, but does not have exposure to.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 1 August 2022 to 19 January 2023

What was the proportion of sustainability-related investments?

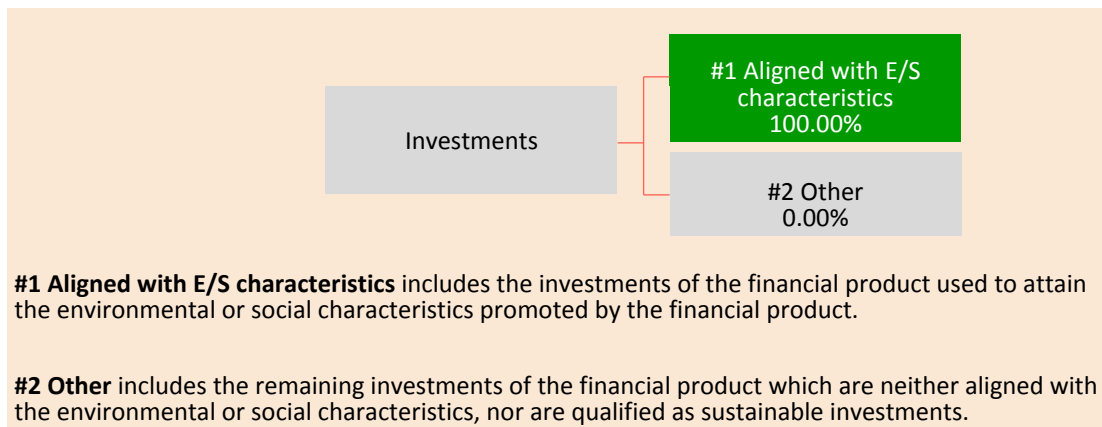

The investments of the Sub-Fund aligned with environmental and social characteristics represented 100.00% of the Sub-Fund's NAV as at 19 January 2023.

As the Sub-Fund was 100.00% exposed to the swap providing the performance of the Index, 0.00% of NAV was comprised of "other" investments.

The Sub-Fund did not make any sustainable investments within the meaning of the Sustainable Finance Disclosure Regulation ("SFDR").

■ What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

■ In which economic sectors were the investments made?

Sector	% Assets
Financials	20.97%
Information Technology	18.28%
Communication Services	14.90%
Consumer Discretionary	13.58%
Materials	6.85%
Industrials	6.45%
Consumer Staples	6.01%
Health Care	3.93%
Utilities	2.47%
Real Estate	1.97%
Exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels	4.6%

The table above reflects the Sub-Fund's exposure via a derivative instrument, and does not include assets which the Sub-Fund may hold, but does not have exposure to.

The Sub-Fund’s exposure to fossil fuel related activities, as presented in the table above, captures index constituents deriving any revenue from such activities as part of their business. The indicator therefore has a broader scope when compared to the MSCI ESG Controversial Business Involvement Criteria screening applied as a binding characteristic to the Sub-Fund.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

None of the Sub-Fund’s investments which promoted environmental characteristics have been assessed as aligned with the EU Taxonomy during the reference period.

■ **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?** ¹

Yes

No¹

Taxonomy-aligned activities are expressed as a share of:

-**turnover** reflects the “greenness” of investee companies today

-**capital expenditure (CapEx)** shows the green investments made by investee companies, relevant for a transition to a green economy

-**operational expenditure (OpEx)** reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

■ **What was the share of investments made in transitional and enabling activities?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The Sub-Fund did not make any investments which were assessed to be in transitional or enabling activities, according to the EU Taxonomy.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

As of the reference period, the Sub-Fund was 100.00% exposed to the swap providing the performance of ESG Index. Therefore, 0.00% of the Sub-Fund's NAV was exposed to "other" investments.

What actions have been taken to meet environmental and/or social characteristics during the reference period?

Holdings that passed the minimum MSCI ESG Rating & MSCI Controversies Score thresholds and ESG exclusions (as applicable) have been deemed eligible for inclusion in the Index. The ESG characteristics of companies included in the Index have been monitored periodically throughout the reporting period by the investment manager and/or sub-investment manager to confirm that no investments that breached thresholds or fell below the criteria set out above were included in the Index by the Index provider at each quarterly Index review.

How did this financial product perform compared to the reference benchmark?

The Sub-Fund promoted the environmental and social characteristics described above through the replication via a financial derivative instrument of the MSCI Emerging Markets ESG Leaders Index (Total Return Net Dividend Reinvested). The tracking error during the reference period was 0.06%

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

■ *How does the reference benchmark differ from a broad market index?*

The MSCI Emerging Markets ESG Leaders Index differs from the MSCI Emerging Markets Index (a broad emerging market index) by applying an environmental, social and governance filter on the selection of the securities part of the index.

■ *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

The Sub-Fund was 100% exposed to the reference benchmark, and therefore had the same performance less Sub-Fund fees as the reference benchmark for the sustainability indicators, which are detailed above.

■ *How did this financial product perform compared with the reference benchmark?*

The Sub-Fund was 100% exposed to the reference benchmark, and therefore had the same performance minus Sub-Fund fees as the reference benchmark for the sustainability indicators, which are detailed above.

■ ***How did this financial product perform compared with the broad market index?***

The Sub-Fund has not defined a broad market index for comparison.
