General Information

SEB Fund 1 (the "Fund") is an open-ended common fund ("FCP" - "Fonds Commun de Placement") governed by Part I of the Luxembourg Law on Undertakings for Collective Investment of 17 December 2010, as amended, (the "Law"). The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS). The Fund was set up on 3 December 1987 for an undetermined duration. The Management Regulations lastly modified with effect from 31 January 2024, have been published in the *Recueil Electronique des Sociétés et Associations (RESA)* on 31 January 2024. The Fund is registered in Luxembourg with the Luxembourg Register of Commerce under the number K 49. The Management Company was established on 19 May 1978 in the form of a Swedish limited liability company (AB). The Management Company is authorised by Finansinspektionen for the management of UCITS and for the discretionary management of financial instruments and investment portfolios under the Swedish UCITS Act (SFS 2004:46). The Management Company is also authorised as an alternative investment fund manager to manage alternative investment funds under the Swedish AIFM Act (SFS 2013:561).

The Management Company has delegated parts of the Central Administration as further detailed hereafter, including the administrative, registrar and transfer agent functions - under its continued responsibility and control - at its own expenses to The Bank of New York Mellon SA/NV, Luxembourg Branch, 2-4, rue Eugène Ruppert, L-2453 Luxembourg. This branch was created in Luxembourg as a "succursale d'une société de droit étranger" on 15 December 1998 and is an indirect wholly-owned subsidiary of The Bank of New York Mellon Corporation. It is registered with the Luxembourg Trade and Companies' Register under Corporate Identity Number B 105087 (the "Administrative Agent" and "Registrar and Transfer Agent").

In the capacity of Administrative Agent, it carries out certain administrative duties related to the administration of the Fund, including the calculation of the NAV of the Units and the provision of account services for the Fund.

In its capacity as Registrar and Transfer Agent, it will process all subscriptions, redemptions and transfers of units, and will register these transactions in the Investors' register of the Fund.

The main objective of each Sub-Fund will be to invest directly and/or indirectly in transferable securities and other Eligible Assets, with the purpose of spreading investment risks and achieving long-term capital growth. The investment objectives of the Sub-Funds will be carried out in compliance with the investment restrictions set forth in the latest prospectus.

At present, seven Sub-Funds of SEB Fund 1 are at the Investors' disposal:

Sub-Fund name:	Base currency:
SEB Asset Selection Fund	EUR
SEB Europe Equity Fund	EUR
SEB Europe Exposure Fund	EUR
SEB Global Climate Opportunity Fund	EUR
SEB Global Focus Fund*	USD
SEB Nordic Future Opportunity Fund	EUR
SEB US Focus Core Fund	USD

*Effective from 2 January 2024, SEB Global Fund changed its name to SEB Global Focus Fund.

The base currency of the Fund is USD.

Unless otherwise laid down in part II of the Prospectus, "The Sub-Funds", the Management Company may decide to issue, for each Sub-Fund, capitalisation Units ("C" Units) and distribution Units ("D" Units).

The "C" Units will reinvest their income, if any. The "D" Units may pay a dividend to its Investors, upon decision of the Management Company. Dividends are paid annually, except for those Sub-Funds where the Management Company would decide on a monthly, quarterly or semi-annual dividend payment.

The Management Company may issue Unit Classes whose Reference Currency is not the Base Currency of the respective Sub-Fund. With regard to such Unit Classes, the Management Company has the ambition to hedge the currency exposure from the Base Currency into the currency exposure of the Reference Currency. Considering the practical challenges of doing so, the Management Company does not guarantee how successful such currency hedging of Unit Classes will be. For Unit Classes where the Management Company has an ambition to currency-hedge the Unit Class, an "H-" will precede the currency denomination of the Unit Class. For example "(H-SEK)" means that there is an ambition by the Management Company to hedge the currency exposure from a Base Currency into a SEK-exposure for the Unit Class. The ambition of such hedging activity is to limit the performance impact related to fluctuations in the exchange rate between the Base Currency and the Reference Currency of the Unit Class. The profit and loss effects related to currency hedging of a particular Unit Class, will be allocated to the relevant Unit Class.

The unit classes offered for the Sub-Funds are disclosed in note 2 of this Semi-Annual Report.

The last known issue and redemption prices may be downloaded from the Website of the Branch and/or requested at any time at the registered offices of the Management Company and of the Depositary, at the address of its Branch as well as from the paying agents.

In addition, the Net Asset Value, fact sheets and other informational material is published on the SEB Luxembourg website www.sebgroup.lu ("website"). When registered in other countries, the publication media might differ according to the regulatory requirements. Information about fund charges can be found in the Key Information Document ("KID").

The audited annual and unaudited semi-annual reports of the Fund may be obtained free of charge, at the registered office of the Management Company, at the address of its Branch and on the website. These reports as well as copies of the Prospectus, the Management Regulations and the KID are available, free of charge, at the registered office of the Management Company, at the address of the Branch and on the website.

Management Report

January – June 2024: Strong Equity market performance led by Technology stocks

Global economic growth remained relatively modest in the first half of 2024 but showed more balance, with Europe and emerging markets exhibiting signs of improvement. US growth slowed to below-trend levels after a very strong 2023, driven by robust consumption and expansionary fiscal policies. Europe is emerging from a prolonged slump following the Russian invasion of Ukraine, but the recovery is expected to be slow. Private consumers remain very cautious, with an elevated savings ratio, and key export markets have shown weak demand for European goods. The energy crisis continues to weigh on the overall economy. In China, the economy continues to suffer from challenges in the housing sector and the debt overhang associated with exuberant residential investments. Consumer demand is weak, and the country faces deflationary pressures. Looking forward, leading indicators and the Purchasing Managers' Index for developed economies moved into expansionary territory above 50, although disappointments were seen in late Q2. Overall, the growth outlook for 2024 is cautiously optimistic, but US growth appears to be weaker than the consensus estimate of 2.5%.

The pandemic's effects on global inflation through disrupted supply chains and rising commodity prices have clearly abated. However, US inflation broke the strong downward trend seen at the end of last year, with the annual rate in core CPI and PCE inflation increasing at a faster pace again in H1 2024. Housing costs (rents) and transportation costs (car insurance) are the main items keeping US inflation well above the Federal Reserve's target. Most economists expect these items to develop in line with historical price increases, meaning that US inflation is still expected to be relatively close to target in 2025 and 2026. Slowing economic growth should ensure that the labour market cools and the upward pressure on wage growth slows. In Europe, inflation has been very sticky, considering that the economy has been in a prolonged period of zero growth. Swedish inflation developments have been very favourable, which will facilitate Riksbank rate cuts in H2 2024.

At the start of the year, interest rate markets were expecting almost seven rate cuts from the Federal Reserve in 2024. However, as the year progressed and central banks signalled 'higher for longer', markets had to reprice policy expectations. As short-term interest rates traded higher, yield curves remained deeply inverted. Despite this sign of economic caution, credit markets continued to show strength as spreads tightened to near-record levels. Strong aggregated corporate earnings also defied the revised and more hawkish outlook for monetary policy as interest rates and equities rose simultaneously.

Equity market development has not been uniform. Regions and sectors focused on technology, particularly AI and semiconductors, have outperformed, whereas regions with weak underlying growth and more traditional sectors have underperformed. The best-performing countries are found in emerging markets, including Taiwan and India, while the worst performers include Brazil and Mexico. The global market overall is heavily driven by US technology shares, with concentration levels like those seen in the early 2000s. The difference this time is that these companies are also very profitable.

In the last month, investors have been reminded that political risk plays a very important role in market developments in 2024. The French equity market fell after President Macron dissolved parliament following the EU elections. In November, the US will elect a new president, with Donald Trump the possible winner. His policy agenda is not clear yet but is expected to involve tax cuts and tariffs and these will potentially have a strong impact on markets. The US election and Federal Reserve policy will continue to be the most important drivers together with the US Technology shares. We continue to expect favourable development for equities as the rate of inflation weakens and interest rate cuts are delivered. Gains will not be as strong as in H1 2024 but will still be positive.

On behalf of SEB Investment Management AB and our board of directors, we thank you again for your continued commitment. As always, we are here to assist you should you have any concerns.

Notes to the Financial Statements

As at 30 June 2024

Note 1. Significant Accounting Policies

The financial statements have been prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investment.

The Financial Statements have been prepared based on the last official Net Asset Value of the period which has been calculated on 28 June 2024 with the prices as of that date.

Investments	Last available price	Administrative Agent	Last available settlement prices	A price no lower than the bid price and no higher than the ask price	Latest available forward exchange rates
Listed Transferable securities and money markets instruments	X				
Unlisted Transferable securities and money markets instruments				X	
Transferable securities and money market instruments quoted or traded on several markets	X				
Derivatives instruments			X		
Forward foreign exchange contracts					X
Financial Futures Contracts ^{*)}	X				

^{*)} Financial Futures Contracts, which are not matured, are valued at valuation date at market rates prevailing at this date.

In the event that such prices are not in line with market conditions, or for securities and money market instruments other than those covered above for which there are no fixed prices, these securities and money market instruments, as well as other assets, will be valued at the current market value as determined in good faith by the Management Company, following generally accepted valuation principles.

Derivatives instruments not traded on regulated markets or on stock exchanges are valued at their net liquidating value determined, pursuant to the policies established in good faith by the Management Company, on a basis consistently applied for each different variety of contracts, in accordance with generally recognised principles, taking into consideration the generally accepted accounting practices, the customary practices in line with the market and the interests of the Investors.

In the case that extraordinary circumstances occur which make it impossible or even wrong to make a valuation in accordance with the above-mentioned criteria, the Management Company is entitled to temporarily apply other generally accepted valuation procedures, which are determined by it in good faith, in order to make an appropriate valuation of the Fund's Assets.

Gains and losses on the sale of securities are determined using the average cost method.

Swing pricing:

When substantial sums flow in or out of a Sub-Fund, the Investment Manager has to make adjustments, such as trading on the market, in order to maintain the desired asset allocation for the Sub-Fund. Trading can incur costs that affect the Unit price of the Sub-Fund and the value of existing Investors' investments. Swing pricing is designed to protect Investors' investments in this kind of situation.

The Unit price of the Sub-Fund may thus be adjusted upwards in case of large inflows and downwards in case of large outflows on a certain Business Day. The thresholds that trigger swing pricing as well as the size of the adjustments ("swing factor") are

set by the board of directors of the Management Company or by a swing price committee appointed by the board of directors of the Management Company.

The Board of Directors of the Management Company or swing price committee may also decide a maximum swing factor to apply to a specific Sub-Fund. The list of Sub-Funds that currently apply swing pricing, including the size of a maximum swing factor, is available on SEB Investment Management's website. Investors may also request this information, free of charge.

Umbrella	Sub-Funds	Maximum applied adjustment
SEB Fund 1	SEB Europe Equity Fund	0.99% of the NAV
SEB Fund 1	SEB Europe Exposure Fund	0.99% of the NAV
SEB Fund 1	SEB Global Climate Opportunity Fund	0.99% of the NAV

SEB Fund 1	SEB Nordic Future Opportunity Fund	0.99% of the NAV
SEB Fund 1	SEB US Focus Core Fund	0.99% of the NAV

*Effective from 2 January 2024, SEB Global Fund changed its name to SEB Global Focus Fund.

No swing pricing adjustment has been applied to the period end Net Asset Value per unit calculated on 28 June 2024.

Currency translation:

Separate accounts are maintained for the Sub-Fund in the currency in which the Net Asset Value per unit to which it relates is expressed (the "accounting currency").

Transactions denominated in a currency other than the accounting currency are recorded on the basis of exchange rates prevailing on the date they occur or accrue to the Sub-Fund.

Assets and liabilities, expressed in a currency other than the accounting currency, are translated on the basis of exchange rates ruling at the balance sheet date.

The combined total is translated into USD at the period end date exchange rate.

The Sub-Funds are priced at either intraday or close of business. The exchange rates are presented in line with when these Sub-Funds are priced.

As at 28 June 2024, the intraday exchange rates for SEB Global Climate Opportunity Fund and SEB US Focus Core Fund were as follows:

*Effective from 2 January 2024, SEB Global Fund changed its name to SEB Global Focus Fund.

** New share class ZC2 launched on 16 May 2024.

A twelfth of this rate is being payable at the end of each month and based on the average Net Assets of each Sub-Fund calculated daily during the relevant month.

The Management Company pays accounting, administration and depositary fees on behalf of the Fund.

Note 3. Performance Fees

In addition to the management fees, the Management Company is entitled to a performance fee on all the unit classes of the Sub-Funds SEB Fund 1 - SEB Asset Selection Fund and SEB Fund 1 - SEB Nordic Future Opportunity Fund. The performance fee is calculated, accrued and crystallised on a daily basis and paid out of the assets of the applicable unit class of the Sub-Fund at the end of each month. The calculation of the performance fees takes place on the basis of the units of the respective unit class in circulation at the respective Valuation Day.

The performance fees per unit of the applicable unit class of SEB Fund 1 - SEB Asset Selection Fund equals 20% of the appreciation of the Net Asset Value per unit of the applicable unit class of the Sub-Fund over the benchmark, pre performance fees, but post the management fees and other types of fees, above the current Hurdle Value of the applicable unit class of the Sub-Fund for all classes except unit class SIC (H-USD) with a rate of 15%. The Sub-Fund uses the principle of High Water Mark and the Risk Free Rate as a hurdle. The 3 Month Treasury Bill return index is used as the Risk Free Rate.

The performance fees per unit of the applicable unit class of SEB Fund 1 - SEB Nordic Future Opportunity Fund equals 15% of the appreciation of the Net Asset Value per unit of the applicable unit class of the Sub-Fund over the benchmark, pre performance fees, but post the management fees and other types of fees, above the current Hurdle Value of the applicable unit class of the Sub-Fund for all classes. The Sub-Fund uses the principle of the Benchmark model. The VINX Benchmark Cap Net Return Index is used as the Benchmark.

There were no performance fees accrued during the period and no performance fees were outstanding as at 30 June 2024.

Note 4. Taxation

The Fund is liable in Luxembourg to a subscription tax ("taxe d'abonnement") of 0.05% or 0.01% (as applicable) per annum of its NAV, such tax being payable quarterly on the basis of the value of the aggregate Net Assets of the Sub-Funds at the end of the relevant calendar quarter. Investments by a Sub-Fund in shares or units of another Luxembourg undertaking for collective investment which are also subject to the taxe d'abonnement are excluded from the NAV of the Sub-Fund serving as basis for the calculation of this tax to be paid by the Sub-Fund.

No stamp duty or other tax is payable in Luxembourg on the issue of units.

Interest, dividend and other income realised by a Sub-Fund on the sale of securities of non-Luxembourg issuers, may be subject to withholding and other taxes levied by the jurisdictions in which the income is sourced.

Note 5. Transaction Fees

Transaction fees incurred by the Sub-Funds relating to the purchase or sale of transferable securities, money market instruments, derivatives or other eligible assets are mainly composed of depositary fees and broker fees. Most of the transaction fees are included in the transaction price used to calculate the realised and unrealised gain/(loss) on securities.

In line with bond market practice, a bid-offer spread is applied when buying or selling securities and other financial instruments. Consequently, in any given transaction, there will be a difference between the purchase and sale prices quoted by the broker, which represents the broker's remuneration. This type of transaction cost is difficult to obtain separately and is therefore included in the acquisition cost of securities or deducted from selling prices of bonds.

As at 30 June 2024, the transaction fees of SEB Fund 1 were as follows:

SEB Asset Selection Fund	369,398.80	EUR
SEB Europe Equity Fund	708,859.46	EUR
SEB Europe Exposure Fund	255,784.31	EUR
SEB Global Climate Opportunity Fund	125,641.36	EUR
SEB Global Focus Fund*	903,812.62	USD
SEB Nordic Future Opportunity Fund	41,881.95	EUR
SEB US Focus Core Fund	25,401.32	USD

*Effective from 2 January 2024, SEB Global Fund changed its name to SEB Global Focus Fund.

Note 6. Collateral

As at 30 June 2024, the following securities were held with broker Skandinaviska Enskilda Banken AB (publ) as collateral on derivative positions:

Sub-Fund	Security Description	Nominal
SEB Fund 1 - SEB Asset Selection Fund	0.00 % German Treasury Bill	30,000,000
SEB Fund 1 - SEB Asset Selection Fund	0.00 % German Treasury Bill	25,000,000

Note 7. Significant Events during the period

A new prospectus was issued in January 2024, and a further new prospectus was issued in April 2024.

Effective 2 January 2024, SEB Fund 1 - SEB Global Fund underwent a number of changes as follows:

- The Sub-Fund was renamed SEB Fund 1 - SEB Global Focus Fund.
- The benchmark of the Sub-Fund changed from the MSCI World Net Return Index to the MSCI AC World Net Return Index.
- The Sub-Fund, currently managed by our Quantitative Equities team, changed management to the Fundamental Global Equities team.
- There was a new investment strategy. The portfolio is now based on in-depth fundamental analysis and the portfolio managers focus on identifying reasonably valued companies with quality aspects, such as strong market positions, solid finances, clear sustainability work, and a proven ability for profitable growth. The Sub-Fund has a considerably more focused portfolio than previously. Additionally, the Sub-Fund includes the possibility to invest a maximum of 5% in China A-shares via the Stock Connect program.

As of 1 April 2024, SEB Asset Management Sales (AMS) and SEB Asset Management Products and Solutions (AMPS) legally moved from Skandinaviska Enskilda Banken AB (publ) ("SEB AB") into the newly formed SEB Asset Management AB ("SEB AM"). As a result, the global distributor of SEB funds has now changed from SEB AB to SEB AM.

SEB Investment Management AB reduced the effective management fee for SEB Fund 1 - SEB Europe Equity Fund and SEB Fund 1 - SEB Global Climate Opportunity Fund. The fee reduction is part of our ongoing efforts to ensure that our product range is relevant and attractive. The changes took effect as of 1 June 2024.

There were no other significant events during the period.

Note 8. Subsequent Events after the period end

A new prospectus was issued in July 2024.

SEB Fund 1 - SEB Montrusco Bolton Global Equity Fund is due to launch in August 2024.

There were no other subsequent events after the period end.

Securities Financing Transactions Regulation (SFTR)

Securities Financing Transactions on Total Return Swaps

Securities Financing Transaction Regulation ("SFTR") introduces reporting requirements for securities financing transactions ("SFTs") and total return swaps in the framework of transparency of securities financing transactions and of reuse.

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- buy-sell back transaction or sell-buy transaction;
- margin lending transaction.

As at 30 June 2024, the following Sub-Fund held total return swaps as a type of instrument under the scope of the SFTR:

- SEB Fund 1 - SEB Asset Selection Fund

The Sub-Fund did not enter into securities lending, repos/reverse repos, buy/sell back transactions during the period ended 30 June 2024.

The total market value of total return swaps held by SEB Fund 1 - SEB Asset Selection Fund as a proportion of the Sub-Fund's NAV as at 30 June 2024 was 0.28%.

All the counterparties to the total return swaps have been disclosed in the table below:

SEB Fund 1 - SEB Asset Selection Fund
