General Information

SEB SICAV 2 (the "Company") is a Luxembourg open-ended investment company with variable share capital, organised in the form of a SICAV under the Luxembourg law of 10 August 1915 on commercial companies, as amended ("1915 Law"), and governed by Part I of the Luxembourg Law on Undertakings for Collective Investment of 17 December 2010, as amended, (the "Law"). The Company qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS). The Company was incorporated on 8 August 1989 for an unlimited duration as a public limited company ("société anonyme"). The Articles of Incorporation were published in the "Recueil Spécial des Sociétés et Associations" (hereafter "Mémorial C") on 5 October 1989. The Articles of Incorporation lastly modified with effect from 28 February 2019 have been published in the Recueil Electronique des Sociétés et Associations (RESA) on 2 April 2019. The Company is registered with the RCS under the number B 31136. The Company is managed by SEB Investment Management AB (the "Management Company"). The Management Company was established on 19 May 1978 in the form of a Swedish limited liability company (AB). The Management Company is authorised by Finansinspektionen for the management of UCITS and for the discretionary management of financial instruments and investment portfolios under the Swedish UCITS Act (SFS 2004:46). The Management Company is also authorised as an alternative investment fund manager to manage alternative investment funds under the Swedish AIFM Act (SFS 2013:561).

The Management Company has delegated parts of the Central Administration as further detailed hereafter, including the administrative, registrar and transfer agent functions - under its continued responsibility and control - at its own expenses to The Bank of New York Mellon SA/NV, Luxembourg Branch, 2-4, rue Eugène Ruppert, L-2453 Luxembourg. This branch was created in Luxembourg as a "succursale d'une société de droit étranger" on 15 December 1998 and is an indirect whollyowned subsidiary of The Bank of New York Mellon Corporation. It is registered with the Luxembourg Trade and Companies' Register under Corporate Identity Number B 105087 (the "Administrative Agent" and "Registrar and Transfer Agent").

In the capacity of Administrative Agent, it carries out certain administrative duties related to the administration of the Company, including the calculation of the NAV of the Shares and the provision of account services for the Company.

In its capacity as Registrar and Transfer Agent, it will process all subscriptions, redemptions and transfers of shares, and will register these transactions in the Investor's register of the Company.

The main objective of each Sub-Fund will be to invest directly and/or indirectly in transferable securities and other Eligible Assets, with the purpose of spreading investment risks and achieving long-term capital growth. The investment objectives of the Sub-Funds will be carried out in compliance with the investment restrictions set forth in the latest prospectus.

At present, four Sub-Funds of SEB SICAV 2 are currently active:

Sub-Fund name:	Base currency:
SEB Eastern Europe Small and Mid Cap ex. Russia Fund	EUR
SEB Eastern Europe Small and Mid Cap Fund 2 (in liquidation)	EUR
SEB Listed Private Equity Fund	EUR
SEB Nordic Small Cap Fund	EUR

The base currency of the Company is SEK.

Unless otherwise laid down in part II of the Prospectus, "The Sub-Funds", the Company may decide to issue, for each Sub-Fund, capitalisation Shares ("C" Shares) and distribution Shares ("D" Shares).

The "C" Shares will reinvest their income, if any. The "D" Shares may pay a dividend to its Investors, upon decision of the Company. Dividends are paid annually, except for those Sub-Funds where the Company would decide on a monthly, quarterly or semi-annual dividend payment.

The Company may issue Share Classes whose Reference Currency is not the Base Currency of the respective Sub-Fund. With regard to such Share Classes, the Company has the ambition to hedge the currency exposure from the Base Currency into the currency exposure of the Reference Currency. Considering the practical challenges of doing so, the Company does not guarantee how successful such currency hedging of Share Classes will be. For Share Classes where the Company has an ambition to currency-hedge the Share Class, an "H-" will precede the currency denomination of the Share Class. For example "(H-SEK)" means that there is an ambition by the Company to hedge the currency exposure from a Base Currency into a SEK-exposure for the Share Class. The ambition of such hedging activity is to limit the performance impact related to fluctuations in the exchange rate between the Base Currency and the Reference Currency of the Share Class. The profit and loss effects related to currency hedging of a particular Share Class, will be allocated to the relevant Share Class.

The share classes offered for the Sub-Funds are disclosed in note 2 of this Semi-Annual Report.

The last known issue and redemption prices may be downloaded from the Website of the Branch and/or requested at any time at the registered offices of the Company, of the Management Company and of the Depositary, at the address of its Branch as well as from the paying agents.

In addition, the Net Asset Value, fact sheets and other informational material is published on the SEB Luxembourg website www.sebgroup.lu ("website"). When registered in other countries, the publication media might differ according to the regulatory requirements. Information about fund charges can be found in the Key Information Document ("KID").

The audited annual and unaudited semi-annual reports of the Company may be obtained free of charge, at the registered office of the Management Company, at the address of its Branch and on the website. These reports as well as copies of the Prospectus, the Articles of Incorporation and the KID are available, free of charge, at the registered office of the Management Company, at the address of the Branch and on the website.

Management Report

January - June 2024: Strong Equity market performance led by Technology stocks

Global economic growth remained relatively modest in the first half of 2024 but showed more balance, with Europe and emerging markets exhibiting signs of improvement. US growth slowed to below-trend levels after a very strong 2023, driven by robust consumption and expansionary fiscal policies. Europe is emerging from a prolonged slump following the Russian invasion of Ukraine, but the recovery is expected to be slow. Private consumers remain very cautious, with an elevated savings ratio, and key export markets have shown weak demand for European goods. The energy crisis continues to weigh on the overall economy. In China, the economy continues to suffer from challenges in the housing sector and the debt overhang associated with exuberant residential investments. Consumer demand is weak, and the country faces deflationary pressures. Looking forward, leading indicators and the Purchasing Managers' Index for developed economies moved into expansionary territory above 50, although disappointments were seen in late Q2. Overall, the growth outlook for 2024 is cautiously optimistic, but US growth appears to be weaker than the consensus estimate of 2.5%.

The pandemic's effects on global inflation through disrupted supply chains and rising commodity prices have clearly abated. However, US inflation broke the strong downward trend seen at the end of last year, with the annual rate in core CPI and PCE inflation increasing at a faster pace again in H1 2024. Housing costs (rents) and transportation costs (car insurance) are the main items keeping US inflation well above the Federal Reserve's target. Most economists expect these items to develop in line with historical price increases, meaning that US inflation is still expected to be relatively close to target in 2025 and 2026. Slowing economic growth should ensure that the labour market cools and the upward pressure on wage growth slows. In Europe, inflation has been very sticky, considering that the economy has been in a prolonged period of zero growth. Swedish inflation developments have been very favourable, which will facilitate Riksbank rate cuts in H2 2024.

At the start of the year, interest rate markets were expecting almost seven rate cuts from the Federal Reserve in 2024. However, as the year progressed and central banks signalled 'higher for longer', markets had to reprice policy expectations. As short-term interest rates traded higher, yield curves remained deeply inverted. Despite this sign of economic caution, credit markets continued to show strength as spreads tightened to near-record levels. Strong aggregated corporate earnings also defied the revised and more hawkish outlook for monetary policy as interest rates and equities rose simultaneously.

Equity market development has not been uniform. Regions and sectors focused on technology, particularly AI and semiconductors, have outperformed, whereas regions with weak underlying growth and more traditional sectors have underperformed. The best-performing countries are found in emerging markets, including Taiwan and India, while the worst performers include Brazil and Mexico. The global market overall is heavily driven by US technology shares, with concentration levels like those seen in the early 2000s. The difference this time is that these companies are also very profitable.

In the last month, investors have been reminded that political risk plays a very important role in market developments in 2024. The French equity market fell after President Macron dissolved parliament following the EU elections. In November, the US will elect a new president, with Donald Trump the possible winner. His policy agenda is not clear yet but is expected to involve tax cuts and tariffs and these will potentially have a strong impact on markets. The US election and Federal Reserve policy will continue to be the most important drivers together with the US Technology shares. We continue to expect favourable development for equities as the rate of inflation weakens and interest rate cuts are delivered. Gains will not be as strong as in H1 2024 but will still be positive.

On behalf of SEB Investment Management AB and our board of directors, we thank you again for your continued commitment. As always, we are here to assist you should you have any concerns.

Notes to the Financial Statements As at 30 June 2024

Note 1. Significant Accounting Policies

The financial statements have been prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investment.

The financial statements of the company have been prepared on a going concern basis with the exception of those relating to SEB SICAV 2 - SEB Eastern Europe Small and Mid Cap Fund 2 (in liquidation) which have been prepared on a liquidation basis (refer to Note 6). Consequently the assets and liabilities of this sub-fund have been recorded at their estimated net realizable values and estimate settlement values, respectively.

The financial statements have been prepared based on the last official Net Asset Value of the period which has been calculated on 28 June 2024 with the prices of that date.

Investments are valued as follows:

Investments	Last available price	Administrative Agent	Last available settlement prices	A price no lower than the bid price and no higher than the ask price	Latest available forward exchange rates
Listed Transferable securities and money markets instruments	Х				
Unlisted Transferable securities and money markets instruments				Х	
Derivatives instruments			Х		
Forward foreign exchange contracts					Х
Financial Futures Contracts*	Х				

^{*)} Financial Futures Contracts, which are not matured, are valued at valuation date at market rates prevailing at this date.

In the event that such prices are not in line with market conditions, or for securities and money market instruments other than those covered above for which there are no fixed prices, these securities and money market instruments, as well as other assets, will be valued at the current market value as determined in good faith by the Company, following generally accepted valuation principles.

Derivatives instruments not traded on regulated markets or on stock exchanges are valued at their net liquidating value determined, pursuant to the policies established in good faith by the Company, on a basis consistently applied for each different variety of contracts, in accordance with generally recognised principles, taking into consideration the generally accepted accounting practices, the customary practices in line with the market and the interests of the Investors.

In the case that extraordinary circumstances occur which make it impossible or even wrong to make a valuation in accordance with the above-mentioned criteria, the Company is entitled to temporarily apply other generally accepted valuation procedures, which are determined by it in good faith, in order to make an appropriate valuation of the Company's Assets.

Gains and losses on the sale of securities are determined using the average cost method.

Swing pricing:

When substantial sums flow in or out of a Sub-Fund, the Investment Manager has to make adjustments, such as trading on the market, in order to maintain the desired asset allocation for the Sub-Fund. Trading can incur costs that affect the Share price of the Sub-Fund and the value of existing Investors' investments. Swing pricing is designed to protect Investors' investments in this kind of situation.

The Share price of the Sub-Fund may thus be adjusted upwards in case of large inflows and down-wards in case of large outflows on a certain Business Day. The thresholds that trigger swing pricing as well as the size of the adjustments ("swing factor") are set by the board of directors of the Management Company or by a swing price committee appointed by the board of directors of the Management Company.

The Board of Directors of the Company or swing price committee may also decide a maximum swing factor to apply to a specific Sub-Fund. The list of Sub-Funds that currently apply swing pricing, including the size of a maximum swing factor, is available on SEB Investment Management's website. Investors may also request this information, free of charge.

Umbrella	Sub-Fund	Maximum applied adjustment
SEB SICAV 2	SEB Eastern Europe Small and Mid Cap ex. Russia Fund	0.99% of the NAV
SEB SICAV 2	SEB Listed Private Equity Fund	0.99% of the NAV
SEB SICAV 2	SEB Nordic Small Cap Fund	0.99% of the NAV

No swing pricing adjustment has been applied to the period end Net Asset Value per share calculated on 28 June 2024.

Currency translation:

Separate accounts are maintained for each Sub-Fund in the currency in which the Net Asset Value per share to which it relates is expressed (the "accounting currency").

Transactions denominated in a currency other than the accounting currency are recorded on the basis of exchange rates prevailing on the date they occur or accrue to the Sub-Fund.

Assets and liabilities, expressed in a currency other than the accounting currency, are translated on the basis of exchange rates ruling at the balance sheet date.

The combined total is translated into SEK at the period end date exchange rate.

The Sub-Funds are priced at close of business. The exchange rates are presented in line with when these Sub-Funds are priced.

As at 28 June 2024, the close of business exchange rates for SEB Eastern Europe Small and Mid Cap ex. Russia Fund, SEB Eastern Europe Small and Mid Cap Fund 2 (in liquidation), SEB Listed Private Equity Fund and SEB Nordic Small Cap Fund were as follows:

^{*}New share class ZC1 (SEK) launched on 14 May 2024.

A twelfth of this rate is being payable at the end of each month and based on the average Net Assets of each Sub-Fund calculated daily during the relevant month.

The Management Company pays accounting, administration and depositary fees on behalf of the Company.

Note 3. Performance Fees

In addition, the Management Company is entitled to receive performance fees for the Sub-Fund SEB SICAV 2 - SEB Listed Private Equity Fund and SEB SICAV 2 - SEB Nordic Small Cap Fund, payable out of the assets attributable to the relevant class.

The performance fees will be calculated, accrued and crystallised on each Valuation Day in the respective classes of shares as described below and will be paid out monthly in arrears.

• SEB SICAV 2 - SEB Listed Private Equity Fund

The performance fees in a particular class of shares are calculated by taking the number of shares in the class times the performance fees rate of 15% for C and UC class and 10% for IC and ID classes, times any positive excess performance per share recorded on that day. The Sub-Fund uses the principle of High Water Mark and an absolute return of 6% p.a. as a hurdle applicable to all classes

• SEB SICAV 2 - SEB Nordic Small Cap Fund

The performance fees in a particular class of shares will be calculated by taking the number of shares in the class times the performance fees rate of 20% for C and UC class and 10% for IC class, times any positive excess performance per share recorded on that day. The Sub-Fund uses VINX Small Cap NI as index when calculating excess performance.

There were no performance fees accrued during the period and no performance fees were outstanding as at 30 June 2024.

Note 4. Taxation

The Company is liable in Luxembourg to a subscription tax ("taxe d'abonnement") of 0.05% or 0.01% (as applicable) per annum of its NAV, such tax being payable quarterly on the basis of the value of the aggregate Net Assets of the Sub-Funds at the end of the relevant calendar quarter. Investments by a Sub-Fund in shares or units of another Luxembourg undertaking for collective investment which are also subject to the taxe d'abonnement are excluded from the NAV of the Sub-Fund serving as basis for the calculation of this tax to be paid by the Sub-Fund.

No stamp duty or other tax is payable in Luxembourg on the issue of shares.

Interest, dividend and other income realised by a Sub-Fund on the sale of securities of non-Luxembourg issuers, may be subject to withholding and other taxes levied by the jurisdictions in which the income is sourced.

Indian Tax

Each Company may be subject to corporation taxes in certain countries in which it invests. Capital gains realised when disposing of Indian securities held by the Sub-Funds are subject to capital gains tax in India. The tax is computed on net realised gains, and realised losses in excess of gains may under certain conditions be carried forward for up to 8 years to offset future gains. In this respect, short term capital losses (i.e. when shares are held for less than 12 months) can offset either long term or short term capital gains whereas long term capital losses may only offset long term capital gains. Indian tax law imposes a tax of 15% on net realised gains from Indian securities sold within one year from the date of purchase and a tax of 10% if the Indian securities are sold more than 12 months after the acquisition. This tax of 10% on long term capital gains realised on Indian securities has been introduced with effect from 1 April 2018. As at 30 June 2024, no tax accrual was booked in relation to unrealised capital gains tax on Indian securities, the potential tax liability on Indian securities was not significant on the Net Asset Values of the concerned Sub-Funds.

In case the Company incurred a total realised loss on security sales as at fiscal year-end, the Company could recover the taxable amount paid during the period on net realised gains, provided that a claim to the Tax Administration is introduced within 2 years as from end of the financial years.

Note 5. Transaction Fees

Transaction fees incurred by the Company relating to the purchase or sale of transferable securities, money market instruments, derivatives or other eligible assets are mainly composed of depositary fees and broker fees. Most of the transaction fees are included in the transaction price used to calculate the realised and unrealised gain/(loss) on securities.

In line with bond market practice, a bid-offer spread is applied when buying or selling securities and other financial instruments. Consequently, in any given transaction, there will be a difference between the purchase and sale prices quoted by the broker, which represents the broker's remuneration. This type of transaction cost is difficult to obtain separately and is therefore included in the acquisition cost of securities or deducted from selling prices of bonds.

As at 30 June 2024, for the SEB SICAV 2 transaction fees were as follows:

SEB Eastern Europe Small and Mid Cap Fund ex. Russia Fund	61,383.28	EUR
SEB Eastern Europe Small and Mid Cap Fund 2 (in liquidation)	Nil	EUR
SEB Listed Private Equity Fund	5,313.04	EUR
SEB Nordic Small Cap Fund	29,808.56	EUR

Note 6. Significant Events during the period

The payments for the Magnit holdings in SEB SICAV 2-SEB Eastern Europe Small and Mid Cap Fund 2 (in liquidation) was distributed to shareholders' accounts in January 2024, at pro-rata of shareholders' holdings in the sub-fund.

A new prospectus was issued in February 2024, and a further new prospectus was issued in April 2024.

As of 1 April 2024, SEB Asset Management Sales (AMS) and SEB Asset Management Products and Solutions (AMPS) legally moved from Skandinaviska Enskilda Banken AB (publ) ("SEB AB") into the newly formed SEB Asset Management AB ("SEB AM"). As a result, the global distributor of SEB funds has now changed from SEB AB to SEB AM.

There were no other significant events during the period.

Note 7. Subsequent Events after the period end

There were no subsequent events after the period end.

Securities Financing Transactions Regulation (SFTR)
