

SEXTANT PME

Key Investor Information Document

This fund is managed by **Amiral Gestion**. This document provides essential information for investors in this fund. It is not marketing material. The information it contains is required by law, to help you understand the nature of an investment in this fund and the risks entailed in it. You are advised to read this document so that you can make an informed decision whether to invest in the fund or not.

• Objectives and investment policy

Management objective: SEXTANT PME is a dynamic fund aiming to optimise performance through a selection of international equities and more specifically European Union and European Economic Area equities, without reference to an index.

Benchmark indicator: investors should note that as the management style (see below) is discretionary, the portfolio composition will never seek to replicate, either geographically or in sector terms, the composition of a benchmark. However, the CAC Small reinvested net dividends index could be considered as an ex-post performance indicator.

Classification : "European Equities" UCITS.

Investment policy: the strategy to achieve the investment objective of the SEXTANT PME Fund is based on a highly disciplined stock picking approach, after a fundamental multiple-criterion analysis specific to the investment management firm. In accordance with the eligibility criteria for the "PEA-PME" personal equity savings plan, the Fund is at least 75% invested in European Union and European Economic Area equities and has at least 60% exposure to equities irrespective of market capitalisation or sector. The Fund reserves the right to invest up to at most 25% in debt securities, money market instruments and all fixed-income securities irrespective of currency and creditworthiness, and in non-EU equities (including emerging equities). Investments in speculative "high-yield"

• Risk / Reward profile

MEANING OF RISK INDICATOR: This indicator represents the annual historical volatility of the UCITS over a 5-year period.

The historical data used to calculate this indicator might not be a reliable indication of the future risk profile of the UCITS.

It is not certain that the risk category will remain unchanged, and the UCITS' classification could therefore change over time.

Category 1 is not synonymous with a risk-free investment.

Its exposure to equity markets explains the Fund's classification in category 5.

The Fund's capital is not guaranteed.

bonds and securities with a Standard & Poor's rating of less than BBB- will remain accessory, i.e. will not exceed 25% of assets. The Fund may invest up to 10% of its assets in securities of other French and/or European coordinated UCITS, in particular to invest cash holdings. Futures and securities that include derivatives may be used to expose the fund to a favourable movement – or for partial coverage against an unfavourable trend – in equities, interest rates, indices or forex. There will be no excessive exposure of the portfolio to equity or credit risk.

Redemption of fund units: investors may obtain redemption of their units on request each business day except public holidays in France. Subscription and redemption orders are centralised each valuation day before 10 a.m. with our transfer agent CACEIS BANK and are executed at the NAV calculated on the closing prices on the day of centralisation.

Appropriation of profit : Capitalisation of income.

Recommended minimum investment period : The recommended investment period is more than 5 years. This Fund might not be suitable for investors who plan to withdraw their investment within 5 years.

MAJOR RISKS NOT TAKEN INTO ACCOUNT IN THE INDICATOR :

- **Credit risk :** The Fund may be exposed to credit risk. In the event of a deterioration in the creditworthiness or the default of an issuer, the net asset value will fall.
- **Liquidity risk :** Since the UCITS can invest in small and mid-cap equities for which market trading volumes are low, any purchase or sale of these equities may cause significant price changes, up or down.
