

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Social Transition Global Equity Fund, Class A, Accumulation shares, USD, a sub-fund of Aviva Investors (ISIN: LU2366394281). The Fund is managed by Aviva Investors Luxembourg S.A.

OBJECTIVES AND INVESTMENT POLICY

Objective: To increase the value of the Shareholder's investment over the long term (5 years or more) and to have a positive impact on the transition towards a more socially just and equitable society and economy, by investing in global equities of companies which are deemed to be providing solutions to tackle social inequality, or are transitioning their business models towards a more socially just and equitable society and economy.

Investment Policy: The Sub-Fund invests at least 90% of total net assets (excluding cash and cash equivalents) in equities and equity-related securities of companies from anywhere in the world (including emerging markets), which meet the Investment Manager's eligibility criteria as described below (the "core investment"). These companies are providing solutions to tackle social inequality, or are transitioning their businesses towards a more socially just and equitable society and economy. Recognising that the UN Sustainable Development Goals ("SDGs") are interlinked and targeting specific goals will also likely have a positive impact on others, the Sub-Fund is primarily targeting SDG 5: Gender Equality, SDG 8: Decent work and economic and SDG 10: Reduced inequalities.

In its core investment the Sub-Fund has two investment sleeves:

- a Solutions sleeve, which allocates to stocks of companies whose goods and services provide solutions to tackle social inequality;
- a Transition sleeve, which allocates to stocks of companies that are supporting the transition towards a more socially just and equitable society and economy by reducing their negative impact and, in doing so, better managing their social risks and opportunities.

The Sub-Fund's equity (and equity related) investments can include ADRs, GDRs, options on equities, exchange-traded warrants, convertible securities and participation certificates among others. The Sub Fund does not buy equity warrants but may hold any it receives in connection with equities it owns.

The Sub-Fund may invest in China A-Shares through Shanghai Hong Kong Stock Connect and through Shenzhen Hong Kong Stock Connect.

Derivatives and Techniques: The Sub-Fund may use derivatives for hedging and for efficient portfolio management.

The Sub-Fund's derivatives may include futures, options, swap contracts, swaptions, currency forwards and foreign exchange options. Derivative usage will either form part of the Core Investment, and therefore apply look through to the eligibility criteria, or form part of the Sub-Fund's other holdings which are not subject to the eligibility criteria.

Securities lending: Expected level: 10% of total net assets; maximum: 20%. Underlying securities in scope: equities.

Strategy: The Sub-Fund is actively managed. The Investment Manager believes that the risks and opportunities associated with the transition towards a more socially just and equitable society and economy are currently mispriced. Therefore, companies which are better managing their impact on people,

including direct employees, workers in supply chains, local communities and customers, present an opportunity to benefit from increases in value over the long term.

Companies will be identified as eligible for core investment if they satisfy the "Solutions" or "Transitions" criteria and are not excluded from the core investment universe.

10% of the value of the Sub-Fund is permitted to be invested in companies that do not meet the level 2 and 3 exclusions criteria detailed in the prospectus where there is a strong sustainability rationale to include such firms in the Sub-Fund.

Sustainability Disclosures: Environmental, Social & Governance factors (ESG) and Sustainability Risk indicators are integrated into the investment process and are a key determinant based on which companies are selected. This Sub-Fund promotes environmental or social characteristics. The Investment Manager will consider the adverse impacts of an investment. Further information is available at www.avivainvestors.com.

Benchmark (performance comparison): The Sub-Fund's performance is compared against the MSCI All Countries World Index (the "Benchmark" or the "Index").

The Sub-Fund does not base its investment process upon the Index and may also hold equities that do not form part of it.

The Sub-Fund is expected to have an average yearly tracking error of between 2% and 6% when compared to the Index. In certain conditions the Sub-Fund may be outside of this range.

To allow assessment of the Sub-Fund's sustainability credentials, the Investment Manager will report on the impact of the Sub-Fund including key indicators relevant to the Sub-Fund's strategy.

You can buy and sell shares on demand on any full bank business day in Luxembourg.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

This is an accumulation share class and any income from the Fund will remain in the Fund and is reflected in the share price.

For full investment objectives and policy details please refer to the Prospectus.

RISK AND REWARD PROFILE

Lower risk

Typically lower rewards

This indicator is based on historical data, calculated using European Union rules, and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean that the investment is 'risk free'.

The value of investments and the income from them will change over time.

The Fund price may fall as well as rise and as a result you may not get back the original amount you invested.

The Fund has been allocated a risk number based on the historic volatility of its share price or where insufficient information is available appropriate asset classes.

Higher risk

Typically higher rewards

Currency risk: Changes in currency exchange rates could reduce investment gains or increase investment losses. Exchange rates can change rapidly, significantly and unpredictably.

Equities Risk: Equities can lose value rapidly, can remain at low prices indefinitely, and generally involve higher risks — especially market risk — than bonds or money market instruments. Bankruptcy or other financial restructuring can cause the issuer's equities to lose most or all of their value.

Market risk: Prices of many securities (including bonds, equities and derivatives) change continuously, and can at times fall rapidly and unpredictably.

Counterparty risk: The Fund could lose money if an entity with which it does business becomes unwilling or is unable to meet its obligations to the Fund.

Derivatives risk: Derivatives are instruments that can be complex and highly volatile, have some degree of unpredictability (especially in unusual market conditions), and can create losses significantly greater than the cost of the derivative itself.

Illiquid securities risk: Certain assets held in the Fund could, by nature, be hard to value or to sell at a desired time or at a price considered to be fair (especially in large quantities), and as a result their prices could be very

volatile.

Operational risk: Human error or process/system failures, internally or at our service providers, could create losses for the Fund.

Stock Connect risk: The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks.

Sustainability risk: This risk is any environmental social or governance event or condition that could impact the value of investments. The Investment Manager primarily relies on its in-house ESG analysis and climate risk indicators to categorise the potential level of Sustainability risks in each sub-fund.

Full information on the risks applicable to the Fund is detailed in the Prospectus.

CHARGES

One-off charges taken before or after you invest*

| | |
|--------------|-------|
| Entry charge | 5.00% |
| Exit charge | None |

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds or share classes in Aviva Investors) you might pay less – you can find the actual entry and exit charges from your financial adviser/distributor.

Charges taken from the Fund over a year

| | |
|-----------------|-------|
| Ongoing charges | 2.62% |
|-----------------|-------|

The ongoing charges figure is based on last year's expenses for the year ending December 2021. The figure for ongoing charges excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

Charges taken from the Fund under certain specific conditions

| | |
|-----------------|------|
| Performance fee | None |
|-----------------|------|

A switching charge of up to 1% may be applied when switching to other funds or share classes in Aviva Investors.

*This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

For more information about charges, including a full explanation of any performance fee (if applicable) please see the charges sections of the Fund's Prospectus.

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

PAST PERFORMANCE

The Share Class was launched on 30 November 2021.
