## 2 General information

### **Investment fund under Luxembourg law „Umbrella Construction“**

Swisscanto (LU) Bond Fund is subject to the legal provisions set forth in Part I of the Luxembourg law of 17 December 2010 on undertakings for collective investment.

The management regulations of the investment fund were established by the management company on 30 October 1991. Several amendments have been made and, in accordance with the management regulations, published in the “Mémorial”.

The current versions of the management company's articles of association and the fund's management regulations have been deposited at the Register of Companies in Luxembourg.

The fund contract, the detailed sales prospectus, the key investor information, and the annual and semi-annual reports may be obtained directly and free of charge in printed form from Swisscanto Asset Management AG, the head office of the management company, the custodian bank and the representative in Switzerland, from the German payment and information agent, from any branch of the Cantonal banks and any payment and sales office. The information is also available on the Swisscanto website ([www.swisscanto.com](http://www.swisscanto.com)), where current information on the fund is available.

Subscriptions shall only be made after consulting the current sales prospectus and the most recent annual report, as well as, where available, any subsequent semi-annual report. Subscriptions to fund units solely on the basis of the annual and semi-annual reports are not accepted.

### **Sales restrictions**

Units in Swisscanto (LU) Bond Fund may not be offered, sold or delivered within the US or to persons considered US persons within the meaning of Regulation S of the US Securities Act of 1933 or in accordance with the US Commodity Exchange Act, as amended.

**According to the rules of conduct of the Asset Management Association Switzerland of August 5 and September 23, 2021 (effective January 1, 2022)**

Compensation for the marketing of the investment fund is paid out of the flat-rate administrative commission. Swisscanto Asset Management International S.A. also offers remuneration to institutional investors holding fund units for third parties from the fixed administrative commission.

### **Risk management process**

As part of the risk management process the total risk of all the subfunds is measured and checked using the so-called commitment approach. The management company applies a risk management process to the fund and each subfund that complies with the Luxembourg law of 17 December 2010 and other applicable regulations, in particular CSSF Circular 11/51.

## 24 Notes

### Note 1: Financial Reports

The fund reports are produced in accordance with the legal provisions and regulations governing undertakings for collective investments applicable in Luxembourg.

### Note 2: Main Accounting Policies

The net assets of each subfund or each unit class correspond to the difference between the total assets of the subfund or unit class and the total liabilities of the subfund or unit class concerned.

The total net assets are given in Swiss Francs (CHF). For this purpose the net assets of any subfunds that are not denominated in CHF are converted at the last known middle rate of exchange at the closing date. This conversion was based on the following rates:

Subscriptions, redemptions and conversions are made based on an unknown net asset value.

Valuation principles:

- a) Securities, derivatives and other investments that are listed on a stock market are valued at the last-known market prices. If these securities, derivatives and other investments are listed on several stock exchanges the last available price on the stock exchange that is the main market for this security is key. For securities, derivatives and other investments for which trading on an exchange is minor and for which there is a second market between securities traders with
- b) Securities and other investments that are not listed on a stock exchange or on a regulated market are valued at the last market price available. If this is not available, the valuation of the securities is undertaken by the management company in accordance with other criteria to be specified by the Board of Directors and on the basis of the probable sale price, the value of which must be estimated with due care and in good faith.
- c) Money market instruments which are not listed on a stock exchange, but are traded on another regulated market which is recognized, open to the public and functions properly, may be valued as follows: starting from the net purchase price, the valuation price of such investments is progressively adjusted to the redemption price, while keeping the investment yield constant. In the event of significant changes in market conditions, the valuation basis of the individual investments is brought into line with the new market yield.
- d) Liquid assets, trustee funds and fixed-term deposits are valued on the basis of their nominal value plus accrued interest.
- e) Units in UCITS and other UCIs are valued according to their last published net asset value. If no net asset value is available, but only acquisition and sale prices, the units of such UCITS and other UCIs may be valued at the mean value between such acquisition and sale prices. If no current prices are available, the valuation is carried out by the management company in accordance with other criteria to be specified by the Board of Directors and on the basis of the probable sale price which must be estimated with due care and in good faith.
- f) Derivatives that are not traded on a stock exchange or any other regulated market are to be valued at the fair value that is appropriate after careful assessment, taking into account the overall circumstances.
- g) For each subfund the assets that are denominated in a currency other than that of the subfund are converted to the subfund's currency at the prevailing mean rate. Forward contracts entered into to hedge currency risk are included in the conversion.
- h) Calculation of the net asset value

The net asset value of the units is calculated by the management company for each individual subfund and for each unit class as per the contractual conditions and item 3.1 in the sales prospectus on every banking business day in Luxembourg.

#### i) Swinging Single Prices (SSP)

The SSP method is used for all subfunds. With the SSP method, the ancillary costs created by subscriptions and redemptions for the purchase and sale of investments (price spreads, brokerage in line with market conditions, commission, fiscal charges etc.) are taken into account in the calculation of the NAV. If, on a banking day, the total subscriptions and redemptions of all unit classes of a subfund result in a net inflow or outflow, the net asset value of the relevant subfund is increased or reduced. This amount is known as the "modified net asset value". The adjustment results in an increase in the net asset value if the net movements lead to a rise in the number of units in the relevant subfund. It results in a decrease in the net asset value if the net movements cause a fall in the number of units. The transaction costs incurred by subscriptions and redemptions on the trading day are paid by the investors who commission these transactions.

The surcharge on, or deduction from, the transaction costs incurred by subscriptions or redemptions is effected at a flat rate and is based on an average value from a previous period of a maximum of one year. The maximum adjustment is 2% of the net asset value of the subfund in question. If the fund has been on the market for less than one year, depending on the fund's special features this factor will be determined so that a representative figure results.

#### j) Valuation of forward exchange contracts

Any unrealised gains or losses resulting from the valuation of open forward exchange contracts at the reporting date are included in the statement of net assets and the income and expense statement.

#### k) Capital gains or losses from security transactions

The realised gains or losses resulting from the sale of securities will be calculated on the basis of the average purchase price.

### Note 3: Administrative commission

The fund will be invoiced a fixed administrative commission for management and administration plus the distribution of fund units, to be paid to the Management Company. This commission will be paid monthly, based on the average net fund volume of the respective subfund.

The flat-rate administrative commission comprises the two components of the flat-rate management fee (costs of asset management and sales) and the flat-rate administration fee (costs of management and administration).

As at reporting date, the effective flat-rate administrative commission amounted to:

FAC: flat-rate administrative commission / FMF: flat-rate management fee / FAF: flat-rate administration fee

#### Note 4: Subscription tax ("Taxe d'abonnement")

In accordance with the rules applicable in Luxembourg, the fund is subject to a quarterly subscription tax ("taxe d'abonnement") of 0.05% p.a. in the case of units of unit classes A, B, C, and M of 0.01% p.a. for units of unit classes D, G, N and S, based on the net assets of the given subfund at the end of the respective quarter.

Pursuant to Article 175a of the amended Law of 17 December 2010, the portion of net assets invested in UCITS that are already subject to capital tax is exempt from this tax.

#### Note 5: Total Expense Ratio (TER)

The TER reported under "Statistics" in this report was calculated in accordance with the 'Guidelines on the Calculation and Disclosure of TER and PTR' published by the Swiss Funds and Asset Management Association (SFAMA) on 16 May 2008. These Guidelines have been aligned with the revised Collective Investment Schemes Ordinance-FINMA. The amended TER Guidelines entered into force on 1 June 2015. It is no longer necessary to disclose the PTR in the annual report.

The TER has been calculated for the last 12 months prior to the date of this report.

Total Expense Ratio (TER) = (operating expenses / average net assets) x 100

The operating expenses include all of the fees and costs associated with the fund. The operating expenses do not include the ancillary costs that the fund incurred when buying and selling assets.

Information on changes in the investment portfolio for the reporting period are available to all unitholders at the Swisscanto website ([www.swisscanto.com](http://www.swisscanto.com)) or can be obtained free of charge from Swisscanto Asset Management AG, the head office of the management company, the custodian bank and the representative in Switzerland, from the German payment and information agent, from any branch of the Cantonal banks and any payment and sales office.

**Note 11: Tax information for investors in the Federal Republic of Germany (in accordance with Section 5 of the Investment Tax Act, para. 1, sentence 1, no. 1)**

This information will be published in the electronic Federal Gazette. It is also available on the Swisscanto website ([www.swisscanto.com](http://www.swisscanto.com)).

Investors should consult their own financial advisor for advice on any tax consequences that could result from the acquisition, possession, transfer or disposal of units under the laws of the countries of which they are nationals or in which they are resident or domiciled.

**Note 12: Transaction costs**

Transaction costs will only be shown in Annual Report

## Note 13: Securities lending transactions

In order to ensure efficient asset management, a subfund may, in accordance with the requirements of the applicable provisions, use securities lending techniques and instruments in accordance with Article 51, para. 2 of the UCITS Directive and Article 11 of Directive 2007/16/EC of 19 March 2007 (Eligible Assets Directive) to generate additional income. In securities lending transactions, the subfund acts as lender and lends the borrower a security for use during a limited time; the subfund receives a fee for this. Zürcher Kantonalbank is the only direct borrower (principal) and the only direct counterparty of the securities lending transactions. As an independent, public-law institution of the canton of Zurich, the bank enjoys an unlimited state guarantee. It is therefore subject to regulatory supervision by the Swiss supervisory authority (Swiss Financial Market Supervisory – FINMA), which is considered by the CSSF as equivalent to the rules laid down under European Union law (Art. 41 (1) f) of the UCITS Law).

As at reporting date, securities lending transactions existed in the following amount:

**Note 16: Important Event**

In February 2022, several countries (including the U.S., the UK and the EU) imposed sanctions on certain institutions and persons in Russia due to the official recognition by the Russian Federation of the People's Republics of Donetsk and Lugansk. Following the military operations against Ukraine launched by Russia on 24 February 2022, possible further sanctions have been announced.

Since February 2022, the increasing geopolitical tensions have led to a considerable increase in volatility in securities and foreign exchange markets as well as a significant depreciation of the rouble against the US dollar and the euro. These events are expected to affect the activities of Russian companies in various sectors of the economy.

The Company considers these to be non-adjusting events after the reporting period. Although, at the time of reporting neither the performance of the Company nor the Company's continuing operations or transactions were affected by the above events, the Board of Directors continues to monitor the evolving situation and its effects on the Company's financial position and results of operations.

**Note 17: Subsequent events**

Not relevant in the reporting period.
