What is this product?

Type	The product is an investment fund in the form of a fonds commun de placement (FCP) pursuant to Part I of the Luxembourg Law of 17 December 2010 on undertakings for collective investment ("Law of 2010") and pursuant to Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities.
Term	The term of the Fund is unlimited, so there is no maturity date. The Fund may be dissolved and liquidated under the specific circumstances set out in the Management Regulations.
Objectives	The Fund is actively managed. The objective of the Fund is to achieve capital growth with an absolute return over the long-term by investing in assets with an attractive risk-adjusted return profile. The fund aims to identify long-term growth themes and selects best in class investments based on their potential for above-average market returns. The fund will invest primarily in shares, fixed and variable-interest securities or certificates and investment fund units. The fund may perform derivative trades in order to hedge positions or to increase its returns. No reference is made to a benchmark in managing the Fund. Returns from the Fund (where applicable, of this unit class) will be distributed; interim distributions are possible. Depository of the fund is State Street Bank International GmbH, Luxembourg Branch. The prospectus and current reports, the current unit prices and further information about the fund or further unit classes of the fund can be found free of charge in German and English language on our homepage https://fondsfinder.universal-investment.com .
Intended retail investor	The fund is designed for investors who already have a certain level of experience with financial markets. The investor must be prepared and able to accept fluctuations in the value of the shares and the potential of a significant loss of capital. The assessment of the Manufacturer should not be considered investment advice; instead, it is intended to provide the investor with an initial point of reference for determining whether the fund is appropriate for their investing experience, risk tolerance and investment horizon.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you. Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of TAMAC Global Champions AR GBP over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 Years

Example Investment: 10,000 GBP

		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	5,844 GBP	5,000 GBP
	Average return each year	-41.56%	-12.94%
Unfavourable	What you might get back after costs	7,233 GBP	8,327 GBP
	Average return each year	-27.67%	-3.60%
Moderate	What you might get back after costs	10,041 GBP	12,234 GBP
	Average return each year	0.41%	4.12%
Favourable	What you might get back after costs	12,519 GBP	15,830 GBP
	Average return each year	25.19%	9.62%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario was based on an investment between 11/2021 and 05/2024. The moderate scenario was based on an investment between 06/2015 and 06/2020. The favourable scenario was based on an investment between 06/2016 and 06/2021.

What happens if the Manufacturer is unable to pay out?

The failure of the Manufacturer will have no direct impact on your payment, since statutory regulations required that, if the Manufacturer becomes insolvent, the fund does not become part of the insolvency assets, but rather remains separate.

What are the costs?

The person selling you this product or advising you on it may charge you other costs. If this is the case, this person will inform you of these costs (also free of charge in paper form) and explain how these costs will affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 GBP is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	708 GBP	1,654 GBP
Annual cost impact (*)	7.1%	3.3%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.4% before costs and 4.1% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.0% (currently 0.0%) of the amount you pay when acquiring this investment. The amount indicated is the maximum rate. This may be lower in individual cases. You can request the amount actually applicable for you from the distributor of the shares in the Fund.	Up to 500 GBP
Exit costs	0.0% of your investment before it is paid out to you. The amount indicated is the maximum rate. This may be lower in individual cases. You can request the amount actually applicable for you from the distributor of the shares in the Fund.	Up to 0 GBP
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.7% of the value of your investment per year. The indicated costs were incurred during the last fiscal year of the fund, which ended on 30/09/2023. The ongoing costs can fluctuate from year to year.	157 GBP
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	25 GBP
Incidental costs taken under specific conditions		
Performance related fees	Performance Fee: Up to 10% of the increase in value achieved by the Fund in the accounting period in excess of the Hurdle Rate (Euro Short-Term Rate (€STR) [®]). The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last five years.	27 GBP

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. Due to legal requirements, we are obliged to show the percentage figures with only one decimal place.

How long should I hold it and can I take my money out early?

Recommended holding period: 5 Years

This product does not have a mandatory holding period. The recommended holding period is based either on historical data or the Manufacturer's estimate regarding the average fluctuation in the unit value, which is to be expected for this product. If you, as an investor, have a shorter investment horizon, the risk is on average higher than at the time of redemption, the unit value of the product will be lower than when you invested. There are no redemption costs or fees. However, you may return the product in accordance with the procedures indicated in the Sales Prospectus.
