

Key Investor Information

This document provides key information for investors in this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so that you can make an informed decision about whether to invest.

EQUITY EUROPE CLIMATE CARE, a Subfund of the SICAV THEAM QUANT-

Class "C EUR Capitalisation" - ISIN code LU1353195891

This Sub-Fund is managed by THEAM, part of the BNP Paribas Group

Objectives and Investment Policy

The Sub-Fund seeks to increase the value of its assets over the medium term by being exposed to a dynamic basket of equities listed on European markets or operating on these markets, the components of which are chosen using a systematic selection method based on environmental, social and governance criteria (ESG) as well as a carbon emission and energy transition criteria.

In order to achieve its investment objective, the Sub-fund implements a quantitative investment strategy (the Strategy) that takes long positions on a diversified basket composed of European markets equities through the BNP Paribas Equity Europe Climate Care NTR Index (the Strategy Index).

The Strategy Index is a diversified index representing a dynamic investment in a basket of European markets equities. The Strategy Index is based on a systematic model developed by BNP Paribas and is rebalanced quarterly using an optimisation algorithm. The allocation algorithm assigns optimal weight to each share of the investment universe in a manner which seeks to maximize the energy transition criteria of the resulting basket of shares. The rebalancing of the Strategy Index does not involve any cost for the Strategy Index.

The complete breakdown of the Strategy Index is available on the website: <https://indices-globalmarkets.bnpparibas.com>. The index calculation method is available directly at: <https://indices-globalmarkets.bnpparibas.com/nr/EECC.pdf>

The Strategy will be implemented either according to a Synthetic Replication Policy, through the conclusion of OTC Derivatives or in cash by investing directly in the basket of equities that make up the index. The Synthetic Replication Policy implies that the Sub-Fund does not actually hold the underlying securities of the index, but instead relies on OTC Derivatives to deliver the performance of the Strategy Index. As part of the Synthetic Replication Policy, the Sub-fund invests at all times at least 75% of its net assets in equities issued by companies that have their registered office in a Member State of the European Economic Area.

Investors are able to subscribe or redeem any day which the Paris, London, Frankfurt and Stockholm, exchanges are open during the whole day (excluding Saturdays and Sundays and Luxembourg and French public holidays).

Subscription and redemption requests can be made to the administrative agent before 12.00 pm (CET) at the latest on the relevant valuation day.

Administrative agent: BNP Paribas Securities Services, Luxembourg Branch, 60, avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.

Income are systematically reinvested.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- Past performance such as the information used to calculate the synthetic indicator may not be a reliable indication of the sub-fund's future risk profile.
- The risk category associated with this sub-fund is not guaranteed and may change over time.
- The lowest category does not mean "risk free".

The risk category is justified by the investment mainly in Stocks and Shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.

Significant risk(s) not taken into account in the indicator which could lead to a drop in the net asset value:

- **Counterparty risk:** This risk is associated with the ability of the counterparty on the over-the-counter markets to fulfil its commitments such as payment, delivery and reimbursement
- **Risk linked to the use of forward financial instruments:** We use forward financial instruments traded over the counter in order to track the performance of the strategy. These instruments may involve a series of risks that could lead to adjustments or even a termination of the instrument, which could influence the net asset value.

Charges

The charges and fees paid are used to cover the costs of running the sub-fund, including the costs of marketing and distributing shares; these charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the UCITS over a year	
Ongoing charges	1.70% ^(*)
Charges taken from the UCITS under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

(*) The estimate of ongoing charges is based on the ongoing charges for the previous year, ended December 2016. This figure may vary from year to year. The ongoing charges exclude:

- intermediary charges, except in the case of entry and/or exit charges paid by the sub-fund when buying or selling units in another collective investment scheme. In case of conversion, the investors may be charged a maximum fee of 1.50%.

For more information about charges, please see the "Charges and fees" section of the sub-fund's prospectus, which is available online at www.bnpparibas-ip.com.

Past Performance

- The share class was launched on the 15 March 2016.
- Therefore there is insufficient data to provide a useful indication of past performance.
