WHAT IS THIS PRODUCT?**Type**

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of THEAM QUANT-, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.

BNPP AM France is not entitled to terminate the Product unilaterally. The board of directors has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The Sub-Fund seeks to increase the value of its assets over the medium term by being exposed to a dynamic basket of equities from the European Economic and Monetary Union of the European Union (the Eurozone), the components of which are chosen using a systematic selection method based on a fundamental analysis of companies while taking into account Environmental, Social and Governance (ESG) criteria.

In order to achieve its investment objective, the Sub-fund implements a quantitative investment strategy (the Strategy) that consists of the following steps:

- (a) definition of the investment universe composed of Eurozone largest stock market capitalisations offering satisfactory liquidity conditions and meeting minimum ESG requirements following a best-in-class approach. Are in particular excluded, companies involved in sectors with potentially high negative ESG impact, those subject to significant violations of the principles of the United Nations Global Compact and those that have been involved in serious controversies related to ESG.
- (b) selection of stocks using a fundamental approach. The objective is to examine the investment universe in order to identify the stocks benefiting from a sustainable business model, favourable outlook and attractive valuation.
- (c) ensuring minimum ESG and carbon objectives, consisting of a lower carbon footprint and of a better ESG score of the Strategy final portfolio compared to a reference market investment universe.

An extra-financial strategy may comprise methodological limitations such as the Risk related to ESG investment or the Risk related to a systematic allocation incorporating extra-financial criteria.

The Strategy is implemented via the use of the BNP Paribas GURU® Eurozone ESG NTR EUR Index (the Strategy Index) financial index. It is based on a quantitative model developed by BNP Paribas and is rebalanced every month using a specific algorithm. The rebalancing of the Strategy Index does not involve any cost for the Strategy Index. The complete breakdown of the Strategy Index is available on the website: <https://indx.bnpparibas.com>. The index calculation method is available directly at: <https://indx.bnpparibas.com/nr/BNPIGEZ.pdf>.

The Strategy of the Sub-fund is deemed active. The Sub-fund benchmark is the EURO STOXX Net Return EUR index with no objective to replicate it.

The Strategy will be implemented either according to a Synthetic Replication Policy, through the conclusion of OTC Derivatives or in cash by investing directly in the basket of equities that make up the index. The Synthetic Replication Policy implies that the Sub-Fund does not actually hold the underlying securities of the index, but instead relies on OTC Derivatives to deliver the performance of the Strategy Index. The Sub-fund invests at all times at least 75% of its net assets in equities issued by companies that have their registered office in a Member State of the European Economic Area.

Investors are able to subscribe or redeem any day which the Paris, Frankfurt, Amsterdam, Madrid and Milan, exchanges are open during the whole day (excluding Saturdays and Sundays and Luxembourg and French public holidays).

Subscription and redemption requests can be made to the administrative agent before 12.00 pm (CET) at the latest on the relevant valuation day.

Administrative agent: BNP Paribas, Luxembourg branch 60 avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.
Incomes are systematically reinvested.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the Product for 5 years.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 5 out of 7, which is a medium-high risk class. The risk category is justified by the investment mainly in equities, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.

Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the Product not included in the summary risk indicator:

- Counterparty risk
- Risk linked to the use of financial derivative instruments

For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future.

Recommended holding period: 5 years

Example Investment: EUR 10,000

If you exit after 1 year

If you exit after 5 years

Scenarios

| | | If you exit after 1 year | If you exit after 5 years |
|---------------------|---|--------------------------|---------------------------|
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | 3,780.36 EUR | 1,173.06 EUR |
| | Average return each year | -62.20% | -34.86% |
| Unfavourable | What you might get back after costs | 7,391.11 EUR | 8,045.29 EUR |
| | Average return each year | -26.09% | -4.26% |
| Moderate | What you might get back after costs | 10,569.87 EUR | 13,093.92 EUR |
| | Average return each year | 5.70% | 5.54% |
| Favourable | What you might get back after costs | 13,495.55 EUR | 18,725.08 EUR |
| | Average return each year | 34.96% | 13.37% |

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

This type of scenario occurred for an investment using a benchmark between 2012 and 2022.

WHAT HAPPENS IF BNPP AM FRANCE IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM France.

In the event BNPP AM France would default, the assets of the SICAV, held by a depository, would not be affected by this default.

In case of the default of the depository, the risk of financial loss of the SICAV is mitigated by the legal segregation of the assets of the depository from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may cost you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If this Product is used as an underlying of an insurance policy or a capitalization policy, the costs presented do not include any costs related to such policies.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

| | If you exit after 1 year | If you exit after 5 years |
|-------------------------------|--------------------------|---------------------------|
| Annual Total Cost | 387.35 EUR | 189.49 EUR |
| Annual Cost Impact (*) | 3.90% | 1.63% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.77% before costs and 7.15% after costs.

Composition of costs

| One-off entry or exit costs | If you exit after 1 year | |
|--|---|----------|
| Entry costs | The entry costs shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser. | 300 EUR |
| Exit costs | We do not charge an exit cost. | 0 EUR |
| Recurring costs levied annually | | |
| Management costs and other administrative and operating costs | The amount is based on past expenses calculated on 30/06/2022. | 87.3 EUR |
| Transaction costs | This amount represents the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell. | 0.05 EUR |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this Product. | 0 EUR |

In case of conversion, the investors may be charged a maximum fee of 1.50%.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period ("RHP"): 5 years.

The RHP has been defined and based on the risk and reward profile of the Product.

Investors are able to redeem on a daily basis (on bank business days) and the redemption order will be executed according to the calendar described in the prospectus.

Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product.

HOW CAN I COMPLAIN?

For any claim, you are invited to contact your usual commercial advisor that advised you on the Product.
