WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of THEAM QUANT-, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.

BNPP AM France is not entitled to terminate the Product unilaterally. The board of directors has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The objective of the Sub-fund is to provide income and capital growth by implementing a dynamic systematic option strategy on EURO STOXX 50 Index (Bloomberg Code: SX5E Index) which aims at generating income in bullish and moderately bearish markets while limiting Sub fund potential drawdowns.

In order to achieve its investment objective, the Sub-fund implements a daily dynamic investment strategy (the Strategy) that combines two performance pillars:

(a) a short exposure on short-term out-of-the money put options on the Euro Stoxx 50 Index (Bloomberg code: SX5E Index). This options strategy enables the Sub-fund to generate income and is particularly in bullish, stable or fairly directionless markets but may generate losses during sudden major downwards phases.

(b) a short dynamic exposure on futures on the Euro Stoxx 50 Index (Bloomberg Code: SX5E Index). This strategy is triggered only when markets fall significantly and aims at limiting the effects of such falling markets and thereby limits the Sub-fund volatility and is appropriate in particularly bearish markets.

The Strategy of the Sub-fund is deemed active. The Sub-fund does not have any benchmark for performance comparison purpose.

The Strategy is implemented according to a Synthetic Replication Policy, through the conclusion of OTC Derivatives (including TRS). Investors are able to subscribe or redeem any day on which the Paris stock exchanges is open during the whole day (excluding Saturdays and Sundays and Luxembourg and French public holidays).

Subscription and redemption requests can be made to the administrative agent before 12.00 pm (CET) at the latest on the relevant valuation day.

Administrative agent: BNP Paribas, Luxembourg Branch, 60 avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.

A dividend may be distributed.

Intended retail investors

This Product is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of and/or income from capital. Potential investors should have an investment horizon of at least 6 years.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the Product for 6 years.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. The risk category is justified by the performance of the Strategy that can vary strongly up or down, involving potential quick and strong changes in the investment's value.

Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the Product not included in the summary risk indicator:

- Counterparty Risk: this risk is associated with the ability of a counterparty in an Over The Counter financial transaction to fulfil its commitments like payment, delivery and reimbursement.
- Risk linked to the use of financial derivative instruments: these instruments may involve a range of risks that may affect the net asset value.

For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 11 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 6 years			
Example Investment: EUR 10,000		If you exit after 1 year	If you exit after 6 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

The moderate scenario occurred for an investment between 2016 and 2022.

The unfavorable scenario occurred for an investment between 2014 and 2020.

WHAT HAPPENS IF BNPP AM FRANCE IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM France.

In the event BNPP AM France would default, the assets of the SICAV, held by a depository, would not be affected by this default.

In case of the default of the depository, the risk of financial loss of the SICAV is mitigated by the legal segregation of the assets of the depository from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If this Product is used as an underlying of an insurance policy or a capitalization policy, the costs presented do not include any costs related to such policies.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 6 years
Total Cost	562.87 EUR	2,510.23 EUR
Annual Cost Impact (*)	5.71%	3.36%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.43% before costs and 4.07% after costs.

Composition of costs
