The Commission de Surveillance du Secteur Financier ("CSSF") is responsible for supervising the Product. BNPP AM France is authorised in France, and regulated by the Autorité des marchés financiers ("AMF").

Date of production of the KID: 01/01/2023

WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of THEAM QUANT-, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.

BNPP AM France is not entitled to terminate the Product unilaterally. The board of directors has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The objective of the Sub-fund is to increase the value of its assets over the medium term, by being exposed to a global dynamic long/short portfolio of short-term money market rates and long term government bonds. The portfolio is built using a systematic selection of diversified sources of return in the interest rates markets while aiming at (i) keeping the Sub-fund annual volatility at a target level of 4,5% and (ii) reaching market neutrality of the government bonds exposure over the medium term.

In order to achieve its investment objective, the Sub-fund implements a euro-hedged quantitative investment strategy (the Strategy) combining two performance pillars:

(a) a money-market instruments long/short portfolio (the Short-term Portfolio) which attempts to identify and monetise trends in short term interest rates by taking long or short exposure to EUR and USD short-term interest rates futures.

(b) a long term government bonds long/short portfolio (the Bond Portfolio) which aims at identifying and capturing diversified sources of return coming from market opportunities or inefficiencies across the interest rates market. The Bond Portfolio is in particular exposed to three performance factors, carry, momentum and relative value, through strategies taking long and short positions on worldwide government bond long-term futures, mainly European, North-American and Japanese, with exposures varying between -150% and 150% per future.

An automatic reallocation within each strategy is carried out via the application of a systematic risk/return optimisation model, while aiming at having an overall neutral sensitivity to the bond market over the medium term.

The Strategy of the Sub-fund is deemed active. The Sub-fund does not have any benchmark for performance comparison purpose.

The Strategy is implemented according to a Synthetic Replication Policy, through the conclusion of OTC Derivatives (including TRS).

Investors are able to subscribe or redeem any day on which the French, German, UK, Japanese, Canadian and US exchanges are open during the whole day and on which EUR and USD currencies are scheduled to be settled (excluding Saturdays and Sundays and Luxembourg and French public holidays).

Subscription and redemption requests can be made to the administrative agent before 4.00 pm (CET) on the Business Day preceding the relevant valuation day.

Administrative agent: BNP Paribas, Luxembourg Branch, 60 avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.

Incomes are systematically reinvested.

Intended retail investors

This Product is designed for retail investors who have some financial expertise and/or average knowledge to understand the Product but nevertheless may bear total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 3 years.

Practical Information

■ Depository: BNP PARIBAS, Luxembourg Branch

■ This key information document is prepared for the aforementioned share class and describes a sub-fund of THEAM QUANT-. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.

■ Investors may switch between sub-funds of the SICAV. Please see the prospectus or contact your financial adviser for details.

■ Further information about the Product including the latest prospectus, key information document, net asset values, latest published prices of share(s), annual report, investment description, may be obtained free of charge from BNP PARIBAS ASSET MANAGEMENT France - Service Client - TSA 90007 - 92729 Nanterre cedex, France.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the Product for 3 years.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 2 out of 7, which is a low risk class. The risk category is justified by the investment mainly in interest rate instruments. The investor's attention is drawn to the fact that an increase in interest rates results in a decrease in the value of investments in bonds and debt instruments and more generally fixed income instruments.

Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the Product not included in the summary risk indicator:

- Counterparty risk
- Credit risk
- Risk linked to the use of financial derivative instruments

For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future.

Recommended holding period: 3 years

Example Investment: EUR 10,000

If you exit after 1 year

If you exit after 3 years

Scenarios

		If you exit after 1 year	If you exit after 3 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	7,590.35 EUR	7,335.63 EUR
	Average return each year	-24.10%	-9.81%
Unfavourable	What you might get back after costs	9,175.26 EUR	9,548.93 EUR
	Average return each year	-8.25%	-1.53%
Moderate	What you might get back after costs	10,361.04 EUR	11,173.53 EUR
	Average return each year	3.61%	3.77%
Favourable	What you might get back after costs	11,094.37 EUR	12,057.14 EUR
	Average return each year	10.94%	6.43%

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

This type of scenario occurred for an investment using a benchmark between 2012 and 2022.

WHAT HAPPENS IF BNPP AM FRANCE IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM France.

In the event BNPP AM France would default, the assets of the SICAV, held by a depositary, would not be affected by this default.

In case of the default of the depositary, the risk of financial loss of the SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may cost you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If this Product is used as an underlying of an insurance policy or a capitalization policy, the costs presented do not include any costs related to such policies.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Annual Total Cost	20.8 EUR	23.43 EUR

	If you exit after 1 year	If you exit after 3 years
Annual Cost Impact (*)	0.21%	0.22%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.19% before costs and 3.98% after costs.

Composition of costs

One-off entry or exit costs	If you exit after 1 year	
Entry costs	We do not charge an entry cost.	0 EUR
Exit costs	We do not charge an exit cost.	0 EUR
Recurring costs levied annually		
Management costs and other administrative and operating costs	The amount is based on past expenses calculated on 30/06/2022.	20 EUR
Transaction costs	This amount represents the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	0.8 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 EUR

In case of conversion, the investors may be charged a maximum fee of 1.50%.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period ("RHP"): 3 years.

The RHP has been defined and based on the risk and reward profile of the Product.

Investors are able to redeem on a daily basis (on bank business days) and the redemption order will be executed according to the calendar described in the prospectus.

Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product.

HOW CAN I COMPLAIN?

For any claim, you are invited to contact your usual commercial advisor that advised you on the Product. You can also contact BNPP AM France, as described on its website <https://www.bnpparibas-am.com> (Footnote 'Complaints management policy'), by writing to BNPP AM France - Client Service - TSA 90007 - 92729 Nanterre CEDEX.
