

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Institutional JPY Shares of Vanguard Japan Government Bond Index Fund (the "Fund"),
a sub-fund of Vanguard Investment Series PLC (ISIN: IE0033005699)

The Fund is managed by Vanguard Group (Ireland) Limited ("VGIL"), part of the Vanguard group of companies.

Objectives and investment policy

Objective

The Fund seeks to provide returns consistent with the performance of the Barclays Capital Global Aggregate Japan Government Float Adjusted Bond Index (the "Index").

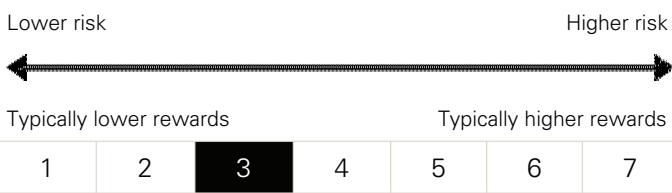

Investment policy

- The Index includes investment-grade Japanese yen-denominated treasury and Japanese government related bonds with maturities greater than one year that pass screening for size and liquidity. Investment-grade bonds are bonds with a relatively low risk of default. Liquidity means the extent to which a bond may be bought and sold without significantly distorting its price. The Fund will normally maintain a weighted average maturity consistent with that of the Index, which ranges between 5 and 10 years.
 - The Fund attempts to:
 1. Sample the Index, meaning that it holds a range of bonds that, in aggregate, approximate the full Index in terms of key risk factors and other characteristics.
 2. Remain fully invested and hold small amounts of cash except in extraordinary market, political or similar conditions where the Fund may temporarily depart from this investment policy.

- The Fund may use investment techniques, including financial derivative instruments, to help the Fund stay fully invested and to reduce costs. A financial derivative instrument is an investment whose value is based on the price of another investment (such as a stock or index).
 - Investments in the Fund should be viewed as medium to long term (at least 5 years).
 - Income from the Fund will be reinvested and reflected in the price of shares in the Fund.
 - You can sell shares in the Fund on any full working day when the Irish Stock Exchange and New York Stock Exchange are open (subject to certain restrictions) by submitting an application in writing or by telephone before 11:00 (Irish time) on the business day prior to the relevant dealing day.

For further information about the objectives and investment policy of the Fund, as well as the limited relationship with the Index provider, please see Appendix 1 and Appendix 6 of the Vanguard Investment Series plc prospectus (the "Prospectus") on our website at <https://global.vanguard.com>.

Risk and reward profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
 - The risk category shown is not guaranteed to remain unchanged and may shift over time.
 - The lowest category does not mean "risk free".
 - This indicator does not measure the risk that you may lose the amount you have invested.
 - The Fund is rated 3 as it invests in government bonds and is in a lower category as the values of those investments have experienced a lower rate of change in the past.

The indicator opposite does not take account of the following risks of investing in the Fund:

- No investment guarantee risk. The value of investments may fall as well as rise, and you may not get back the money you invested.
 - Index sampling risk. The Fund is not expected to track or replicate the performance of the Index at all times with perfect accuracy. The Fund is, however, expected to provide investment results that, before expenses, generally correspond to the price and yield performance of the Index.
 - Bond risk. The Fund invests in bonds which may provide higher yields but as such may carry greater credit risk increasing the risk of default on repayment and erosion of the capital value of your investment. The level of income may fluctuate and movements in interest rates are likely to affect the capital value of bonds.

For further information on risks please see the "Risk Factors" section of the Prospectus on our website at <https://global.vanguard.com>.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.10%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges	0.20%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	None
-----------------	------

The entry charge represents a preset dilution levy which covers the transaction costs of the Fund and protects the value of remaining shareholders interests. This charge is paid directly to the Fund and not to VGIL.

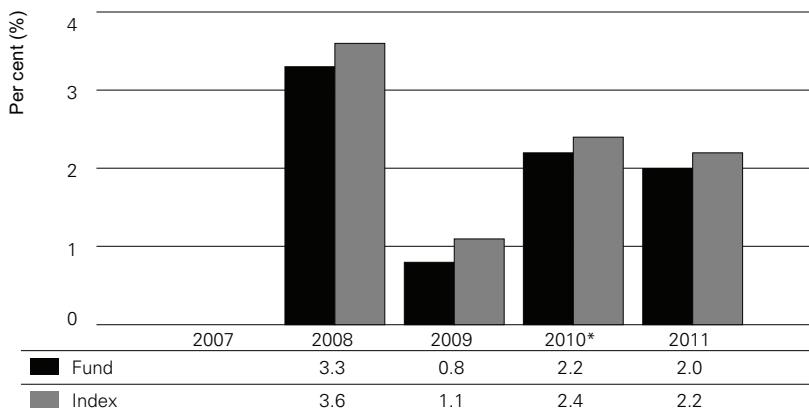

The entry and exit charges shown are maximum figures and in some cases you might pay less.

Investors can find out the actual entry and exit fees from their financial adviser.

The ongoing charges figure is based on expenses for the year ended 31 December 2011. This figure may vary from year to year. It excludes portfolio transaction costs.

For further information about charges please see the sections entitled "Buying Shares", "Redeeming Shares", "Fees and Expenses" and Appendix 1 of the Prospectus on our website at <https://global.vanguard.com>.

Past performance

- Shares in the Fund were first issued on 11 October 2007.
- Past performance:
 1. Is not a reliable indication of future performance.
 2. Includes ongoing charges and the reinvestment of income. It excludes entry and exit fees.
 3. Has been calculated in Japanese yen.

* The Fund's objective and investment policy changed on 1 July 2010.
