**Audited annual report for the financial year from
July 1, 2022 to June 30, 2023**

This document does not constitute an offer to purchase or subscribe to shares. Subscription to shares of the Sub-Funds of Variopartner SICAV, a Luxembourg SICAV, should always be undertaken only on the basis of the Prospectus, the Key Information Document (KID), the Articles of Association, and the annual and semi-annual reports. We also recommend that you contact your relationship manager or other advisors prior to each investment. An investment in Sub-Funds of Variopartner SICAV involves risks, which are explained in the Prospectus. All the above-mentioned documents and a list of the changes in the portfolio during the financial year and the composition of the benchmarks are available free of charge from Vontobel Fonds Services AG, Gotthardstrasse 43, CH-8022 Zurich, as representative in Switzerland; Bank Vontobel AG, Gotthardstrasse 43, CH-8022 Zurich, as paying agent in Switzerland; Erste Bank der oesterreichischen Sparkassen AG, Am Belvedere 1, A-1100 Vienna, as facilities agent for Austria; PwC Luxembourg GFD, 2, Rue Gerhard Mercator, L-1014 Luxembourg as facilities agent for Germany; the authorised distribution agencies; and the registered office of the Fund, 11-13, Boulevard de la Foire, L-1528 Luxembourg, or at <https://am.vontobel.com/en/white-label-funds>.

The shareholders agree that Vontobel Fonds Services AG, Zurich, may consult entries in the register of shareholders in order to offer services to shareholders.

Report of the Board of Directors for the financial year from July 1, 2022 to June 30, 2023

Dear investors,

During the financial year under review the assets of Variopartner SICAV decreased by 1.00%, from EUR 4,079.14 million to EUR 4,038.21 million. This decrease in assets is primarily due to the negative performance of the sub-funds and net outflows.

The following Share Class was launched during the financial year:

Variopartner SICAV -	Share Class	Currency	Launch date
Tareno Global Water Solutions Fund	I Impact	CHF	14.03.2023

Please find detailed information on the individual Share Classes and their respective performance during the financial year under review in the respective reports and statements.

As of January 2023, the Prospectus was amended to comply with the requirements of Regulation (EU) 2019/2088 on Sustainable Finance Disclosure Regulation (SFDR).

For information on the events during and after the financial year, see points 14 and 15 of the Notes to the financial statements.

The Board of Directors points out that the statements contained in the auditor's opinion with respect to the statutory responsibility of the Board of Directors are exclusively those of the auditor. The responsibilities and obligations of the Board of Directors are regulated by law. The Board of Directors considers that it has met these obligations in their entirety.

The Board of Directors

Notes to the Financial Statements

1 General information

Variopartner SICAV (hereinafter referred to as the “Fund”) is an investment company that was established as a public limited company under Luxembourg law. The Fund has the specific legal form of an investment company with variable capital (SICAV). The Fund was established in Luxembourg on May 10, 2002 under the name Helvetia Patria Fund for an indefinite duration with a share capital of EUR 31,000. On August 24, 2007, the name of the Fund was changed to Variopartner SICAV. The Fund is governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 relating to undertakings for collective investment (the “2010 Law”). The financial year of the Fund ends on June 30.

The legal basis for the Fund is set forth in its Articles of Association. The Articles of Association were published for the first time on June 6, 2002, in *Mémorial C., Recueil des Sociétés et Associations* (the “Mémorial”). They were filed with the Trade and Companies Register of the District Court of Luxembourg where they may be consulted by the public and copies may be obtained. The Articles of Association were last amended on April 5, 2018 and the amendments published in the “Recueil Electronique des Sociétés et Associations” (“RESA”) on April 30, 2018.

The Fund is registered in the Luxembourg Trade and Companies Register with registration number B87256.

The Fund is composed of several sub-funds (“Sub-Funds”), each of which represents a specific portfolio of assets and liabilities and is managed in accordance with its own specific investment objectives.

The Articles of Association permit the Fund's board of directors (“Board of Directors”) at any time to issue various share classes (“Share Classes”) within a Sub-Fund, the assets of these Share Classes being managed jointly. The Share Classes may, however, differ in their specific characteristics, e.g. with respect to their investor profile, fee structure, minimum investment amount, taxation and their distribution policy.

As at June 30, 2023, the Fund had the following Sub-Funds and Share Classes available:

2 Accounting principles

a) Financial statements

The financial statements have been drawn up in accordance with Luxembourg legal provisions relating to investment funds.

b) Valuation of the assets

- i. The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforementioned and not yet received shall be deemed to be the full amount thereof, unless it is possible that the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at by deducting a sum that the Company considers appropriate in such case to reflect the true value thereof.
- ii. The value of all securities and/or derivative financial instruments listed or traded on the exchange is based on the last-known price on the day before the valuation day. Exceptions to this are the securities and/or derivative financial instruments held by the Sub-Funds specified in the Special Part of the Sales Prospectus, which, in accordance with their investment policy, are invested in Asia and the Far East and the value of which is measured on the basis of the last-known price at the time of valuation on the valuation day.
- iii. The value of securities and/or derivative financial instruments traded on other regulated markets is calculated on the basis of the closing price on the day preceding the valuation day.

Notes to the Financial Statements

2 Accounting principles (continued)

- iv. If any of the securities and/or derivative instruments in the Fund's portfolio on the relevant valuation day are neither listed or traded on any official stock exchange nor on any other regulated market or if, the price as determined pursuant to paragraphs ii. and iii. is not representative of the fair market value of the relevant securities and/or derivative instruments listed or traded on an official stock exchange or other regulated market, the value of these securities and/or derivative instruments shall be determined prudently and in good faith based on a value resulting from the application of the recognized valuation rules or models.
- v. For fixed-income or variable-rate money market paper and securities with a residual term to maturity of less than three months, the valuation price may be successively adjusted to the redemption price, taking the net purchase price as a starting point, while maintaining the resulting yield. The valuation price calculated using this method may differ from the actual market price, if it can be ensured that this will not lead to a material difference between the actual value of the security and the adjusted valuation price. Where significant differences in market conditions exist, the basis for valuing the individual investments will be adapted in line with new market yields.
- vi. The value of the units or shares in other UCITS/UCIs is valued at the last available net asset value.
- vii. In the event that the above valuation methods should prove inappropriate or misleading, the Board of Directors may adjust the value of the investments or allow the use of a different valuation method for the Fund's assets.

The Board of Directors is entitled to temporarily apply other generally recognized valuation methods that are used in good faith and are verifiable by the Fund's auditors in order to calculate the assets of the Fund and/or the assets of a Sub-Fund if the aforementioned valuation criteria appear to be impossible or inexpedient due to exceptional circumstances, or if this is in the interests of the Fund or a Sub-Fund and/or shareholders (e.g. to avoid market timing) to achieve an appropriate valuation of the Fund and/or the Sub-Fund concerned.

c) Net realised gain/loss on the sale of securities

Realised net profits and net losses from the sale of securities are calculated on the basis of average costs. Realised profits and losses are reported in the statement of net income under "Net realised gain/loss on investments".

Changes in unrealised gains and losses are reported in the statement of net income under "Change in unrealised appreciation/depreciation on investments".

d) Income

Dividends are recognised as income in the statement of net income on the day on which the security is first listed as ex-dividend, provided this information is available to the Fund. Accrued interest is allocated on a daily basis. Coupons received from the issuers of the underlying securities are included in the position "Net interest on bonds". Dividends received from the issuers of the underlying securities are included in the position "Net dividends". Interest and dividends receivable for the Fund are booked to "Interest and dividends receivable".

e) Net realised gain/loss on forward foreign exchange contracts

Forward foreign exchange contracts are valued on the basis of the forward foreign exchange rates on the valuation date. Realised net profits and net losses are reported in the statement of net income under "Net realised gain/loss on forward foreign exchange contracts".

Changes in unrealised gains and losses are reported in the statement of net income under "Change in unrealised appreciation/depreciation on forward foreign exchange contracts".

f) Combined financial statements

The reference currencies of the Sub-Funds are converted into Euro to produce combined financial statements (annual and semi-annual reports) that comply with provisions under Luxembourg Law.

Assets and liabilities denominated in foreign currencies are converted into the reference currency using the exchange rate applicable as at the balance sheet date.

g) Conversion of items in foreign currencies

Cash at banks, other net assets, as well as the valuation of securities in the portfolio that are expressed in currencies other than the reference currency of the different Sub-Funds, are converted at the last known exchange rate on the valuation day. Income and expenses expressed in currencies other than the reference currency of the different Sub-Funds are converted at the exchange rate on the payment day. Realised profits and losses on currency exchanges are reported in the statement of net income under "Net realised gain/loss on currency exchange".

The acquisition cost of securities expressed in currencies other than the reference currency of the different Sub-Funds will be converted at the exchange rate of the acquisition date.

Notes to the Financial Statements

2 Accounting principles (continued)

h) Formation expenses

The formation expenses for the Fund have been allocated to the individual Sub-Funds in proportion to their initial subscription amounts and were written off in full over a period of five years, except for the Sub-Fund Variopartner SICAV – Vontobel ESG Global Allocation for which the period is three years.

i) Taxation

With the exception of the “taxe d’abonnement” (subscription tax) listed under Note 4, the Fund is not subject to any Luxembourg taxes. However, in accordance with the applicable foreign legislation, the Fund may be subject to capital gains taxes and withholding tax on interest and dividend income at differing rates.

For the purpose of disclosure, non-refundable withholding taxes are deducted from the gross dividends/interest amounts. Capital gains taxes are deducted from sales proceeds as a reduction in realised profits.

j) Swing pricing

Trading in a Sub-Fund (in particular subscription and redemption activities) translates as a rule in corresponding trading activities in the portfolio of the relevant Sub-Fund (i.e. purchase of additional instruments in case of subscriptions and sale of instruments held in the portfolio of the relevant Sub-Fund in case of redemptions). Such trading activities entail various costs, including but not limited to bid-ask spreads, brokerage fees, transaction taxes and similar. Frequent trading in the portfolio of a Sub-Fund arising from frequent trading in the Sub-Fund may result in transaction costs that might be non-negligible and have a detrimental financial impact on the investors in the Sub-Fund, in particular on the long-term investors. To protect those investors, the Board of Directors may decide to apply the single swing pricing mechanism (the “SSP”) in any Sub-Fund. The SSP mechanism adjusts the net asset value of the affected Sub-Fund, as calculated above, if a predetermined net capital activity threshold is exceeded (“partial” SSP), to accommodate it for those transaction costs. Subsequently, the adjustment takes place at the level of the relevant Sub-Fund and not at the level of an individual investor.

The adjustments of the net asset value on any valuation day in accordance with the SSP mechanism are made as follows:

- i. the net asset value of all Share Classes of the relevant Sub-Fund shall be increased by the applicable swing factor, as defined below, if the total subscriptions less the total redemptions for all Share Classes of the Sub-Fund on the relevant transaction day results in a net asset inflow (net subscriptions). Subsequently, subscribing investors shall receive a lower number of shares than they would receive without the application of the SSP while redeeming investors shall receive a higher redemption amount than they would receive without the application of the SSP (investors subscribing for a certain number of shares shall pay a higher total subscription amount); or
- ii. the net asset value of all Share Classes of the relevant Sub-Fund shall be decreased by the applicable swing factor, as defined below, if the total subscriptions less the total redemptions for all Share Classes of the Sub-Fund on the relevant transaction day results in a net asset outflow (net redemptions). Subsequently, subscribing investors shall receive a higher number of shares than they would receive without the application of the SSP while redeeming investors shall receive a lower redemption amount than they would receive without the application of the SSP (investors subscribing for a certain number of shares shall pay a lower total subscription amount); or
- iii. no change shall be made if the net asset inflow or net asset outflow on the relevant transaction day does not exceed a certain threshold which may be determined by the Board of Directors for the relevant Sub-Fund (single swing pricing threshold).

The maximum adjustment that may be made to the net asset value of the relevant Sub-Fund, as described above (single swing pricing factor) has been determined by the Board of Directors to amount to 1% of the net asset value of the relevant Sub-Fund. The Board of Directors may decide to apply a single swing pricing factor beyond the maximum adjustment level in case of exceptional market circumstances.

The effects of the SSP mechanism on the Sub-Funds on June 30, 2023, were as follows (a value of 0 for the Swing pricing adjustment means that the mechanism was not applied on June 30, 2023):

	Sub-Fund Currency	Overall net assets before application of the swing factor	Swing pricing adjustment	Overall net assets after application of the swing factor
Variopartner SICAV -				
Sectoral Emerging Markets Healthcare Fund	USD	18,229,061	0	18,229,061
Sectoral Biotech Opportunities Fund	USD	28,513,255	0	28,513,255
Sectoral Healthcare Opportunities Fund	USD	99,337,738	0	99,337,738

3 Management Fee and Performance Fee

a) Management Fee

The Sub-Funds pay a "Management Fee", which covers all costs relating to possible services rendered in connection with investment management and distribution and is payable at the end of every month. This Management Fee is calculated based on the average of the daily net asset values of the Sub-Fund concerned during the relevant month. The applicable fee rates for each Sub-Fund are defined in the Special Part of the Sales Prospectus.

Notes to the Financial Statements

3 Management Fee and Performance Fee (continued)

Pursuant to an agreement of August 27, 2007, the Management Company appointed Tareno AG as the investment manager of the Sub-Fund Variopartner SICAV - Tareno Global Water Solutions Fund, and pursuant to an agreement of November 6, 2015, as the investment manager of the Sub-Funds Variopartner SICAV - Tareno Fixed Income Fund and Variopartner SICAV - Tareno Global Equity Fund (Liquidated on March 24, 2023).

Pursuant to an agreement dated June 23, 2009 taking effect from December 2009, MIV Asset Management AG (previously Suter, Zülle & Partner AG) was appointed by the Management Company as the investment manager of the Sub-Fund Variopartner SICAV - MIV Global Medtech Fund.

With effective date October 21, 2022 the Management Company has appointed Vontobel Asset Management AG, Gotthardstrasse 43, CH-8022 Zurich, Switzerland, replacing Bank Vontobel AG, Gotthardstrasse 43, CH-8022 Zurich, Switzerland, as the investment manager of the following Sub-Funds. Vontobel Asset Management S.A., acting through its Munich branch, Leopoldstrasse 8-10, D-80802 Munich, Germany, remains appointed as sub-investment manager:

- Variopartner SICAV - Vontobel Conviction Conservative EUR,
- Variopartner SICAV - Vontobel Conviction Balanced CHF,
- Variopartner SICAV - Vontobel Conviction Balanced EUR,
- Variopartner SICAV - Vontobel Conviction Balanced USD,
- Variopartner SICAV - 3-Alpha Diversifier Equities Europe,
- Variopartner SICAV - 3-Alpha Diversifier Equities USA,
- Variopartner SICAV - 3-Alpha Global Quality Achievers.

Pursuant to an agreement of March 14, 2014 (last supplemented on November 22, 2019), the Management Company appointed Sectoral Asset Management Inc., 1010 Sherbrooke St. West, Suite 1610, Montreal, QC H3A 2R7, Canada, as the investment manager of the following Sub-Funds:

- Variopartner SICAV - Sectoral Emerging Markets Healthcare Fund,
- Variopartner SICAV - Sectoral Biotech Opportunities Fund and
- Variopartner SICAV - Sectoral Healthcare Opportunities Fund.

Sectoral Asset Management Inc. has appointed Sectoral Asset Management Limited, Hong-Kong, Unit 2302, 23/F, Golden Center, 188 Des Voeux Road Central, Hong Kong to act as sub-investment manager for the Sub-Fund Variopartner SICAV - Sectoral Emerging Markets Healthcare Fund.

The Management Company, acting through its Milan Branch, is the investment manager of the Sub-Fund Variopartner SICAV - Vontobel ESG Global Allocation.

During the financial year, the applicable rates per annum and per share class were as follows:

b) Performance Fee

In addition, a performance-related remuneration ("Performance Fee") may be charged to the Sub-Fund assets or to the relevant Share Classes, if such a Performance Fee is envisaged in the Special Part of the Sales Prospectus applicable to the Sub-Fund in question. The Performance Fee shall be calculated separately for each Share Class.

In case a Sub-Fund applies the single swing pricing mechanism, any performance fee in this Sub-Fund will be calculated and accrued on the basis of the unswung net asset value ("NAV").

The calculation, rate and methodology of the Performance Fee applied for a Sub-Fund are described in the Special Part of the Sales Prospectus for the relevant Sub-Fund.

Variopartner SICAV - Sectoral Healthcare Opportunities Fund:

Share Classes	Share Class Currency	Sub-Fund currency	Performance fee rate	Amount of performance fee charged for the year (in Sub-Fund currency)	% on the Share Class NAV of performance fee charges for the year
I	EUR	USD	20%	31,876	0.18
I	USD	USD	20%	0	0.00
N	EUR	USD	20%	3,442	0.35
P	EUR	USD	20%	3,192	0.22
P	USD	USD	20%	0	0.00
PH	EUR	USD	20%	0	0.00

For Variopartner SICAV - Sectoral Healthcare Opportunities Fund, USD 38,510 performance fee was paid during the financial year.

4 Subscription tax

The Sub-Funds are, in principle, subject to a subscription tax (taxe d'abonnement) levied at the rate of 0.05% per annum based on their net asset value at the end of the relevant quarter, calculated and paid quarterly.

A reduced subscription tax rate of 0.01% per annum may however be applicable to:

- Any Sub-Fund whose exclusive object is the collective investment in money market instruments, the placing of deposits with credit institutions, or both.
- Any Sub-Fund or Share Class provided that their shares are reserved to one or more institutional investors within the meaning of article 174 of the 2010 Law (an "Institutional Investor").

A subscription tax exemption may apply to:

- The portion of any Sub-Fund's assets (prorata) invested in a Luxembourg investment fund or any of its sub-funds to the extent it is subject to the subscription tax;
- Any Sub-Fund (i) whose securities are reserved to Institutional Investor(s), and (ii) whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions, and (iii) whose weighted residual portfolio maturity does not exceed 90 days, and (iv) that have obtained the highest possible rating from a recognized rating agency. If several Share Classes are in issue in the relevant Sub-Fund meeting (ii) to (iv) above, only those Share Classes meeting (i) above will benefit from this exemption;
- Any Sub-Fund only held by pension funds and assimilated vehicles.

Notes to the Financial Statements

5 Service Fee

Each Sub-Fund also pays a service fee, which covers the costs involved in central administration, management, the depositary function and support for the Fund. This service fee is calculated based on the average of the daily net asset values of the Sub-Fund concerned during the relevant month and is charged to the assets of the relevant Sub-Fund at the end of each month. Commissions due to the Management Company, the Transfer Agent, Registrar and Domiciliary Agent, the Administrator, the Depositary, the representative and the paying agent in Switzerland are paid from this service fee (where applicable).

Unless otherwise stipulated in the Special Part of the Sales Prospectus for the Sub-Fund, the service fee amounts to a maximum of 0.6% p.a.. Unless the Special Part of the Sales Prospectus for the Sub-Fund stipulates otherwise, this service fee is calculated based on the average of the daily net asset values of the Sub-Fund concerned during the relevant month.

6 Cross investments

Some Sub-Funds of Variopartner SICAV invest in other Sub-Funds of Variopartner SICAV. As at June 30, 2023, the value of these investments (known as “cross investments”) amounts to:

Variopartner SICAV -	Target funds	Market value in EUR	% of net assets
Vontobel Conviction Conservative EUR	Variopartner SICAV - 3-Alpha Diversifier Equities Europe G EUR	1,569,754	3.01%

10 Balance-sheet transactions

The collateral deposited per Sub-Fund for each type of balance-sheet transaction are mentioned in section 10c).

a) Forward foreign exchange contracts

The counterparty for the forward foreign exchange contracts listed below is RBC IS Bank Luxbg.

In order to protect its assets against currency fluctuations, the Fund may carry out transactions to dispose of foreign exchange forward contracts and call options on currencies, and to acquire put options on currencies. The arrangement of hedging transactions is subject to the condition that there is a direct connection between the transaction and the assets to be hedged. This means that transactions concluded in a given currency must not significantly exceed the total value of the assets denominated in that currency or the period during which the assets are held.

The following forward exchange contracts were outstanding as at June 30, 2023:

Variopartner SICAV -	Maturity	Purchase	Sale	Unrealised gain/loss in Sub-Fund currency

Notes to the Financial Statements

13 Russia/Ukraine situation

In February 2022, a number of countries (including the US, UK and EU) imposed sanctions against certain entities and individuals in Russia as a result of the official recognition of the Donetsk People Republic and Lugansk People Republic by the Russian Federation. Additional sanctions continued to be imposed following the war initiated by Russia against Ukraine on February 24, 2022. The situation, together with growing turmoil from fluctuations in commodity prices and foreign exchange rates, has adversely impacted global economies and has driven a sharp increase in volatility across markets. As at June 30, 2023, no Sub-Funds held securities of Russian or Ukrainian issuers.

The Board of Directors continues to monitor the evolving situation and its impact on the financial position of the Sub-Funds.

14 Events during the financial year

On March 16, 2023, the Sub-Fund Variopartner SICAV - Tareno Global Equity Fund was put into liquidation. The last Net Asset Value is dated as at March 24, 2023. As at June 30, 2023, the remaining cash amount to: CHF 65, EUR 70,713, GBP 90, NOK 1 and USD 4,823.

15 Events after the end of the financial year

In October 2022, CACEIS and Royal Bank of Canada (RBC) announced they had signed a memorandum of understanding for the intended acquisition by CACEIS of the European asset servicing business of RBC. As part of this acquisition, CACEIS would acquire the entire issued share capital of RBC Investor Services Bank S.A. (IS Bank).

Completion of the sale of IS Bank occurred with effective date of July 3, 2023, following regulatory approval and RBC Investor Services Bank S.A. became CACEIS Investor Services Bank S.A.

16 Transaction costs

Transaction costs are costs incurred by the Fund as a result of buying and selling securities and derivatives as part of portfolio management.

Notes to the Financial Statements

17 TER (Total Expense Ratio)

In accordance with the Asset Management Association Switzerland (AMAS) guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of May 16, 2008 (version dated August 5, 2021), the Fund must show a TER for the past 12-month period. This figure expresses the total fees and costs which are charged on an ongoing basis to the Sub-Fund's assets as a percentage of net Sub-Fund assets (operating expenditure), and is generally calculated according to the following formula:

$$\text{TER} = \frac{\text{Total operating expenses in CU}^*}{\text{Average net Fund assets in CU}^*} \times 100$$

* CU = currency units in Sub-Fund accounting currency

The TER of the Sub-Funds is as follows:

Variopartner SICAV – Share Class	Currency	TER	TER including Performance Fee	Variopartner SICAV – Share Class	Currency	TER	TER including Performance Fee

Additional Unaudited Appendix

1 Performance

Historical performance is not an indicator of current or future performance. Performance data do not take account of any commissions and expenses charged on the issue and redemption of shares, or of possible custody fees or withholding taxes that decrease the value of the assets.

The Fund's return can rise or fall due to currency fluctuations. Investors should note that past performance is not necessarily indicative of the future performance of the various Sub-Funds.

The performance figures have been calculated in accordance with the guidelines on the calculation and publication of performance data of the Asset Management Association Switzerland (AMAS) of May 16, 2008 (version dated August 5, 2021).

2 Information on the remuneration (in EUR) of employees of Vontobel Asset Management S.A. for the financial year ended on December 31, 2022

Number of employees on December 31, 2022	Total remuneration for the 2022 financial year	of which variable remuneration in 2022
82	13,073,640	4,041,744

Identified employee categories*:

Fixed salaries p.a. as at December 31, 2022	Variable salary payments in 2022
3,210,395	2,506,415

* Identified employee categories

The remuneration policies and practices shall apply to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the management companies or of the UCITS that they manage.

The remuneration practice for identified employee categories is described in the remuneration policy of Vontobel Asset Management S.A. and is available to investors upon request.

Neither the Management Company nor the Fund pays remuneration to identified employees of delegates.

The results of the annual review of the implementation of the remuneration policy were positive.

3 Information concerning the remuneration of the members of the Board of Directors (in EUR) of the Fund for the financial year ending June 30, 2023

The members of the Board of Directors of the Fund received a total remuneration of EUR 25,600 for their activities in connection with the financial year. Members of the Board of Directors who are employed by a company of the Vontobel Group do not receive any remuneration for their activities as members of the Board of Directors of the Fund.

Additional Unaudited Appendix

4 Global Exposure

For all Sub-Funds of the Fund, the global exposure is calculated using the commitment approach.

5 Securities Financing Transactions Regulation

The Fund is subject to the Regulation (EU) 2015/2365 of the European Parliament and of the Council on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 of the European Parliament (“SFTR”).

A Securities Financing Transaction (“SFT”) is defined in Article 3 (11) of the SFTR as:

- repurchase transactions or reverse repurchase transactions;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction;
- a margin lending transaction.

The SFTR also covers transactions that are usually described as total return swaps (“TRS”), including contracts for difference (“CFD”).

According to Article 13(1) of the SFTR, the Fund may enter into securities financing transactions by concluding CFD transactions. As at June 30, 2023, the Fund did not use CFDs in securities financing transactions.

Report of the Réviseur d'entreprises agréé for the financial year from July 1, 2022 to June 30, 2023

To the Shareholders of Variopartner SICAV

11-13, Boulevard de la Foire

L-1528 Luxembourg

Opinion

We have audited the financial statements of Variopartner SICAV (the “Fund”) and each of its Sub-Funds, which comprise the statement of net assets and the portfolio as at June 30, 2023, and the statement of operations and changes in net assets, and the statement of net income for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and each of its Sub-Funds as at June 30, 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (the “Law of 23 July 2016”) and with International Standards on Auditing (“ISAs”) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (“CSSF”). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements” section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (“IESBA Code”) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the “réviseur d'entreprises agréé” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund’s and each of its Sub-Funds’ ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its Sub-Funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Report of the Réviseur d'entreprises agréé for the financial year from July 1, 2022 to June 30, 2023

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its Sub-Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its Sub-Funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Luxembourg, October 27, 2023

Sustainable Finance Disclosure Regulation ("SFDR") (Unaudited Appendix)

Transparency of the promotion of environmental or social characteristics and of sustainable investments

On November 27, 2019, Regulation (EU) 2019/2088 of the European Parliament and of the Council on sustainability-related disclosures in the financial services sector was published (the "SFDR"). The SFDR aims to increase the harmonization of, and transparency towards the end investors with regard to, the integration of sustainability risks, the consideration of adverse sustainability impacts, the promotion of environmental or social characteristics and sustainable investment by requiring pre-contractual and ongoing disclosures to end investors.

Within the meaning of SFDR, the sub-funds which do not promote environmental and/or social characteristics nor have a sustainable investment as its objective are categorized as Article 6 products.

For the purpose of the "taxonomy" regulation (regulation EU 2020/852 of June 18, 2020 on the establishment of a framework to facilitate sustainable investment, and amending the EU regulation 2019/2088), the investments underlying the sub-funds categorized as Article 6 products do not take into account the EU criteria for environmentally sustainable economic activities.

The following Sub-Funds of Variopartner SICAV are categorized as Article 6 products falling under the scope of the following SFDR articles as at June 30, 2023:

Variopartner SICAV -	Current SFDR categorization as at June 30, 2023
Tareno Fixed Income Fund	Article 6 product
Vontobel Conviction Conservative EUR	Article 6 product
Vontobel Conviction Balanced CHF	Article 6 product
Vontobel Conviction Balanced EUR	Article 6 product
Vontobel Conviction Balanced USD	Article 6 product

In addition, the SFDR provides high-level definitions and distinguishes between several categorizations of products including "Article 8 products" which are financial products that promote, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices ("SFDR Article 8 Products") and "Article 9 products" which are products that have sustainable investment as their objective ("SFDR Article 9 Products").

The following Sub-Funds of Variopartner SICAV are categorized as Article 8 and 9 products falling under the scope of the following SFDR articles as at June 30, 2023:

Variopartner SICAV -	Current SFDR categorization as at June 30, 2023
Tareno Global Water Solutions Fund	Article 9 product
MIV Global Medtech Fund	Article 8 product
Sectoral Emerging Markets Healthcare	Article 8 product
Sectoral Biotech Opportunities Fund	Article 8 product
Sectoral Healthcare Opportunities Fund	Article 8 product
3-Alpha Diversifier Equities Europe	Article 8 product
3-Alpha Diversifier Equities USA	Article 8 product
3-Alpha Global Quality Achievers	Article 8 product
Vontobel ESG Global Allocation	Article 8 product

All disclosures below concern the relevant Sub-Fund's investments during the Fund's financial year ending on June 30, 2023, except if specified otherwise.

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: Variopartner SICAV - Tareno
Global Water Solutions Fund
(FW_00417)

Legal entity identifier:
529900T7KW5BPJ7ONO65

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: 97.10%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: ___%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent was the sustainable investment objective of this financial product met?

The sustainable investment objective of investing in companies which contribute to a more efficient and sustainable use of water has been met. The Sub-Fund aims to contribute to a more efficient and sustainable use of water by investing in securities issued by companies operating in the water sector that offer products, services or solutions with a positive contribution to the UN Sustainable Development Goal 6 - Clean Water and Sanitation. Investments were made exclusively in companies which offer products, services or solutions which address the investment objective. The Investment Manager applied an ESG integration process based on third party and in-house provider data and an

exclusion approach. Additionally, the Sub-Fund followed an active ownership strategy including voting as well as engagement activities. The Sub-Fund has not designated a reference benchmark for the purpose of attaining the sustainable investment objective..

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Sustainability Indicator	Value	Comment
Percentage of investments considered as contributing to at least one of the sub indicators of SDG 6 – Clean Water and Sanitation	100%	
Percentage of investments in issuers involved in activities excluded by the Sub-Fund	0%	More information about the products and activities excluded by the financial product can be found in the pre-contractual disclosure.
Percentage of investments in securities of issuers that are in violation with certain international norms and standards promoted by the Sub-Fund or that are exposed to severe controversies (unless a positive outlook has been identified). Such controversies may be related to environmental, social or governance issues	0%	
Percentage of investments in securities of corporate issuers that pass the minimum ESG score that has been set for this Sub-Fund	100%	
Percentage of securities covered by ESG analysis	100%	

● **... and compared to previous periods ?**

Sustainability Indicator	year ending on June 30, 2022
Percentage of investments considered as contributing to at least one of the sub indicators of SDG 6 – Clean Water and Sanitation	N/A
Percentage of investments in issuers involved in activities excluded by the Sub-Fund	N/A
Percentage of investments in securities of issuers that are in violation with certain international norms and standards promoted by the Sub-Fund or that are exposed to severe controversies (unless a positive outlook has been identified). Such controversies may be related to environmental, social or governance issues	N/A

Sustainability Indicator	year ending on June 30, 2022
Percentage of investments in securities of corporate issuers that pass the minimum ESG score that has been set for this Sub-Fund	N/A
Percentage of securities covered by ESG analysis	N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

In order to ensure that the sustainable investments of the financial product do not cause significant harm to any environmental or social investment objective, the financial product takes into account all the mandatory indicators for adverse impacts and ensures that the financial product's investments are aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights as further outlined below.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

For the sustainable investments that the financial product made, the Investment Manager took into account the adverse impacts on sustainability factors by applying the following process: The Investment Manager applied a process to identify the investments' exposure to principal adverse impacts on sustainability factors based on in-house research; data sources include ESG data providers, news alerts, and the issuers themselves. Where no reliable third-party data was available, the Investment Manager made reasonable estimates or assumptions. No investment was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The financial product has a controversy monitoring process in place, that among others takes into account the alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. This process is based on third party data and may be complemented by the Investment Manager's own ESG research capabilities. The financial product excludes issuers that are (i) in violation of the norms and standards (defined under the investment strategy section) promoted by the Sub-Fund ; (ii) involved in severe controversies. Unless, in either case, the Investment Manager has identified a positive outlook (i.e., through proactive response by the issuer, proportionate rectification measures already announced or taken, or through active ownership activities with reasonable promise of successful outcomes).

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered a set of principal adverse impacts on sustainability factors in the following areas: controversial weapons (Table 1 - PAI indicator 14, share of investments involved in controversial weapons), social matters and human rights (Table 1 - PAI indicator 10, share of companies involved in violation of UN Global Compact Principles and OECD Guidelines For Multinational Enterprises) and additional climate and other environment-related indicators (Table 2 - PAI indicator 4, investments in companies without carbon emission reduction initiatives and Table 2 - PAI indicator 7, investments in companies without water management policies) as well as share of investments in entities without a human rights policy (Table 3 PAI indicator 9). The Investment Manager applied a process to identify issuers that are exposed to principal adverse impacts on sustainability factors based on in-house research and/or external data sources including ESG data providers, news alerts, and the issuers themselves. No investment was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: June 30, 2023

Largest investments	Sector	% Assets	Country
Mueller Industries	Non-ferrous metals	4.45	United States
Pentair	Mechanical engineering & industrial equip.	3.63	Ireland
Wienerberger	Building materials & building industry	3.24	Austria
Badger Meter	Mechanical engineering & industrial equip.	3.14	United States
Veolia Environnement	Energy & water supply	3.10	France
Georg Fischer	Mechanical engineering & industrial equip.	2.89	Switzerland
Ferguson Newco	Building materials & building industry	2.81	Jersey
Xylem	Energy & water supply	2.75	United States
Valmont Industries	Mechanical engineering & industrial equip.	2.74	United States
Clean Harbors	Environmental services & recycling	2.64	United States
Stantec	Building materials & building industry	2.53	Canada
Guangdong Investment	Financial, investment & other diversified comp.	2.53	Hong-Kong
EVN	Energy & water supply	2.52	Austria
Tetra Tech	Environmental services & recycling	2.45	United States
Geberit	Building materials & building industry	2.41	Switzerland

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

The proportion of sustainability-related investments was 97.1%

● **What was the asset allocation?**

97.10% of investments were sustainable investments (#1 Sustainable)

● **In which economic sectors were the investments made?**

Economic sector	
Mechanical engineering & industrial equip.	25.71
Energy & water supply	20.86
Building materials & building industry	18.61
Chemicals	10.35
Environmental services & recycling	7.33
Non-ferrous metals	4.45
Financial, investment & other diversified comp.	4.4
Miscellaneous services	2.16
Miscellaneous consumer goods	1.58
Electrical appliances & components	1.18
(blank)	0.49

20.86% of the total value of investments (NAV) were in companies involved in sectors that could be connected to fossil fuels, like "Energy & water supply", "Mining, coal & steel" or "Petroleum/Oil and natural gas". It's important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it's not their main focus. According to the Investment Manager's ESG data provider, none of the investee companies derive more than 5% of their revenue from activities related to fossil fuel.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	2.78%
enabling	0.02%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Period	Investment share
year ending on June 30, 2022	0.00%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Investment share
90.90%

What was the share of socially sustainable investments?

Investment share
0.00%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Cash (2.9%)	Liquidity management	None

What actions have been taken to meet the sustainable investment objective during the reference period?

The binding elements of the investment strategy used for the selection of the investments to meet the Sub-Fund's sustainable investment objective have been monitored throughout the reporting period.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with its sustainable investment objective.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Variopartner SICAV - MIV Global Medtech Fund (FW_00411)

Legal entity identifier: 529900Y6GORRZA09L707

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 56.85% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective:** ___%

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Sub-Fund were met. The Sub-Fund promoted environmental and social characteristics by following integration and exclusion approaches and by investing in medical technology companies with good Environmental, Social and Governance (ESG) profiles according to the analysis of the Investment Manager. The Sub-Fund partially made socially sustainable investments contributing to the following social objectives of the United Nations' Sustainable Development Goals (UN SDGs): UN SDG 3 (Good health and well-being), UN SDG 1 (No poverty), UN SDG 5 (Gender equality), UN SDG 8 (Decent work and economic growth), UN SDG 10 (Reduced inequalities). The Sub-Fund has not designated a reference benchmark for the

purpose of attaining the environmental and social characteristics that it promotes.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Sustainability Indicator	Value	Comment
Percentage of investments in issuers involved in activities excluded by the Sub-Fund	0%	Activities excluded were Adult Entertainment, Alcohol, Armament Dealing, Cluster Munitions, Gambling, Landmines, Mining, Nuclear Power, Tobacco, Cannabis, Factory Farming, Fur, Genetic Engineering, Genetically Modified Organisms, Coal, Gas, Oil, Other Fossil, Palm Oil, Pesticides, Research On Human Embryos, and Nuclear Weapons.
Percentage of investments in issuers with a minimum ESG profile, i.e. exclusion of investments with an ESG Risk Rating higher than 40 (severe risks) and a Controversy Score higher than 4 (severe controversies).	100%	
Percentage of investments in socially sustainable companies as defined by the Investment Manager, which <ul style="list-style-type: none"> · generate at least 25% of its revenues in major disease prevention, diagnosis or treatment, and · contribute to at least 3 out of the following 5 UN Sustainable Development Goals: Good health and well-being (UN SDG 3), No poverty (UN SDG 1), Gender equality (UN SDG 5), Decent work and economic growth (UN SDG 8), Reduced inequalities (UN SDG 10). Contribution is measured by SDG Net Alignment. SDG Net Alignment is assessed by qualitative SDG Net Alignment assessments and scores for each of the selected global goals by evaluating the businesses and operations of each company. SDG Net Alignment possible values are Strongly Aligned, Aligned, Neutral, Misaligned and Strongly Misaligned.	56.85%	
Percentage of securities covered by ESG analysis	100%	

ESG Risk Rating, Controversy Score, percentage data on Major Disease Treatment, alignment with UN Sustainable Development Goals, as well as information on No Significant Harm and Good Governance are based on data from the third-party ESG data provider selected by the Investment Manager.

● **... and compared to previous periods ?**

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The sustainable investments that the financial product partially made have the social objective of improving good health and well-being, contributing to UN SDG 3, and being a good employer and a good citizen, contributing to UN Sustainable Development Goals No poverty (UN SDG 1), Gender equality (UN SDG 5), Decent work and economic growth (UN SDG 8), Reduced inequalities (UN SDG 10). Sustainable investments were made in companies that are active in major disease prevention, diagnosis or treatment. Such sustainable investments are innovative medtech companies active in research, development, production and marketing of medical devices and life sciences

tools & services for major disease prevention, diagnosis or treatment. Such activities include, but are not limited to, the development of innovative medical devices or systems that improve patient outcomes, digital health solutions that increase efficiency within the healthcare systems, life science tools that enable innovation, or activities that help improve access and facilitate affordability of healthcare in developing geographies or elsewhere. The percentage of investments in socially sustainable companies as defined by the Investment Manager amounted to 56.85%.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

In order to ensure that the sustainable investments that the Sub-Fund made did not cause significant harm to any environmental or social investment objective, the Sub-Fund took into account all the mandatory indicators for adverse impacts and ensured that the Sub-Fund's investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The Investment Manager took into account all the mandatory adverse impacts indicators and any relevant additional indicators by applying the following process: The Investment Manager identified issuers that are exposed to principal adverse impacts on sustainability factors based on data from the ESG data provider selected by the Investment Manager. When no reliable third-party data was available, the Investment Manager made reasonable estimates or assumptions. During the reference period, the Investment Manager did not identify any investment as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

During the reference period, the Sub-Fund had a controversy monitoring process in place, that among others ensured alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse sustainability impact indicators related to greenhouse gas emissions, biodiversity, water, waste, and social aspects applicable to medtech companies and all additional indicators that are relevant for the investment universe were monitored for the investments that the Sub-Fund invested in. These indicators are considered by the Investment Manager in the due diligence procedure for investment selection and ongoing monitoring. The Investment Manager relied on a Principal Adverse Impact Data Solution from a third-party provider selected by the Investment Manager that provided a comprehensive set of datapoints that have been mapped to the mandatory as well as the additional PAIs. During the reference period, the Investment Manager did not identify any investment as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: June 30, 2023

Largest investments	Sector	% Assets	Country
Abbott Laboratories	Pharmaceuticals, cosmetics & med. products	9.50	United States
Intuitive Surgical	Pharmaceuticals, cosmetics & med. products	9.20	United States
Stryker	Pharmaceuticals, cosmetics & med. products	8.14	United States
Medtronic Holdings	Pharmaceuticals, cosmetics & med. products	6.50	Ireland
Boston Scientific	Pharmaceuticals, cosmetics & med. products	6.45	United States
Becton Dickinson & Co	Pharmaceuticals, cosmetics & med. products	4.95	United States
Edwards LifeSciences	Pharmaceuticals, cosmetics & med. products	4.74	United States
Dexcom	Pharmaceuticals, cosmetics & med. products	4.03	United States

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

The proportion of sustainability-related investments was 99.88% (assets aligned with environmental and social characteristics).

● **What was the asset allocation?**

99.88% of the investments of the financial product were used to attain the environmental and social characteristics (#1 Aligned with E/S characteristics)

56.85% of investments were sustainable investments (#1A Sustainable). These sustainable investments were included under assets aligned with E/S characteristics (#1 Aligned with E/S characteristics)

● **In which economic sectors were the investments made?**

Economic sector	
Healthcare	99.88%

0% of the total value of investments (NAV) were in companies involved in sectors that could be connected to fossil fuels, like "Energy & water supply", "Mining, coal & steel" or "Petroleum/Oil and natural gas". It's important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it's not their main focus.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	0.00%
enabling	0.00%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Period	Investment share
year ending on June 30, 2022	0.00%

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Investment share

0.00%

What was the share of socially sustainable investments?

Investment share

56.85%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Cash (0.12%)	Liquidity management	None

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The binding elements of the investment strategy used for the selection of the investments to attain the environmental and/or social characteristics promoted by this Sub-Fund have been monitored throughout the reporting period.

How did this financial product perform compared to the reference benchmark?

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Variopartner SICAV - Sectoral Emerging Markets Healthcare Fund (FW_00412)

Legal entity identifier: 5299000PVZBVKUNOV088

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 60.93% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Sub-Fund were met. The Sub-Fund mainly promoted social characteristics by investing partially in sustainable investments with a social objective. These consist of companies that contribute to an investment in human capital (good health and well-being), product quality and safety, tackling inequality by providing access to medicine, social integration and labour relations or independence of the board, and that the Investment Manager has identified as sustainable investments. These companies are healthcare companies domiciled in the emerging markets offering therapies and services across all healthcare segments and addressing significant unmet

medical need. The Sub-Fund also promoted certain minimum environmental standards and/or business practices. Therefore, it invested in issuers, that the Investment Manager considered well-prepared to handle material ESG (Environmental, Social and Governance) matters and by avoiding investments in issuers that are involved in severe controversies (i.e. that have a high controversy score). The Sub-Fund has not designated a reference benchmark for the purpose of attaining the environmental and social characteristics that it promotes..

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

● How did the sustainability indicators perform?

Sustainability Indicator	Value	Comment
Controversy score: A controversy is defined as an event or aggregation of events relating to an ESG topic. The controversy score reflects a company's level of involvement in issues and how it manages these issues. Issuers are rated on a scale from 1 to 5, with 1 corresponding to a low impact on environment and society and 5 a severe impact on environment and society representing the most controversial companies.	0%	Excluded investment in stocks with Level 5 Controversies. 0% of Sub-Fund holdings had a Controversy Score above 4
ESG Risk Rating: The ESG Risk Rating measures a company's exposure to material industry specific ESG risks as well as how well those risks are being managed. Risk is scored on a scale of 1-100, with 100 corresponding to the highest risk. ESG Risk exposure is measured against industry peers and the global universe. ESG Risk management is assessed based on the company's published sustainability programs and policies.	5.98%	ESG Risk Ratings were monitored, and the manager compiled an ESG Watchlist of companies whose Risk Rating score (on a scale of 1-100) was in the top quintile of the relevant investment universe (indicating highest risk). The Watchlist included all stocks with an ESG Rating of 39.75 or above. 5.98% of Sub-Fund holdings were on the ESG Watchlist i.e., had an ESG Risk Rating above 39.75 (maximum exposure is 10%)
Percentage of issuers significantly contributing to Sustainable Development Goal 3 - Good health and well-being ("SDG 3"): Companies contributing to SDG 3 are those tackling unmet medical needs and improving the health and well-being of people around the globe. An issuer contributing to SDG 3 will be identified as such when the majority of the activities of an issuer, as measured by turnover, enterprise value, or for pre-revenue companies R&D spend, or similar metrics, contribute to SDG 3	98.07%	Defined as having over 50% of activities, as measured by turnover, enterprise value, or for pre-revenue companies R&D spend, or similar metrics, contribute to SDG 3. 98.07% of Sub-Fund holdings were classified as contributing to SDG3.

● **... and compared to previous periods ?**

An issuer contributing to SDG 3 will be identified as such when the majority of the activities of an issuer, as measured by turnover, enterprise value, or for pre-revenue companies R&D spend, or similar metrics, contribute to SDG 3	N/A

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The sustainable investments that the financial product partially made have the

social objective of improving good health and well-being, contributing to SDG 3. Sustainable investments were made in companies with the majority of activities (as measured by turnover, enterprise value, or for pre-revenue companies R&D spend, or similar metrics) related, but not limited to the sale of innovative medicines offering potential cures or better management of diseases that were difficult to treat before, medical device companies developing technologies that improve patient outcomes, healthcare services companies, as well as emerging-market drug and device manufacturers that help increase access and improve affordability of healthcare in developing geographies. Medical breakthroughs have the power and potential to improve people's life expectancy and quality of life. Therefore, the focus on medical progress, innovation, and improved access to modern medicine helps meet the objective of improved health and well-being. The Sustainable investments were also assessed by the investment manager as not causing significant harm to any environmental or social sustainable investment objective beyond SDG 3. The Sub-Fund committed to having a minimum of 30% of assets under management in sustainable investments. In the reference period the Sub-fund had 60.93% of AUM invested in Sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Sustainable investments were monitored using a third-party tool, mapping principal adverse impacts (PAIs), to ensure that they did not cause significant harm to environmental or social investment objectives outside of SDG 3 as described below.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

All mandatory principal adverse sustainability impacts indicators related to greenhouse gas emissions, biodiversity, water, waste, and social aspects applicable to companies and all additional indicators that are relevant for the investment universe were monitored for the sustainable investments that the Sub-Fund invested in. These indicators were considered by the Investment Manager in the due diligence procedures for investment selection and ongoing monitoring. The Investment Manager relied on a Principal Adverse Impact Data Solution from a third-party provider that provides a comprehensive set of datapoints that have been mapped to the mandatory as well as certain additional PAIs.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

During the reference period, the Sub-Fund had a controversy monitoring process in place, that among others ensured alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered a set of principal adverse impacts on sustainability factors in the following areas: controversial weapons, fossil fuels (Table 1 – PAI indicator 14 share of investments involved in controversial weapons and indicator 4 share of investments in companies active in the fossil fuel sector), social matters and human rights (Table 1 - PAI indicator 10 share of companies involved in violation of UN Global Compact Principles and OECD Guidelines For Multinational Enterprises). The Investment Manager followed a process to identify issuers that are exposed to principal adverse impacts on sustainability factors based on external data sources including ESG data providers, news alerts, and the issuers themselves. During the reporting period, no holding was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: June 30, 2023

Largest investments	Sector	% Assets	Country

What was the proportion of sustainability-related investments?

The proportion of sustainability-related investments was 98.07% (assets aligned with environmental and social characteristics).

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

98.07% of the investments of the financial product were used to attain the environmental and social characteristics (#1 Aligned with E/S characteristics)

60.93% of investments were sustainable investments (#1A Sustainable). These sustainable investments were included under assets aligned with E/S characteristics (#1 Aligned with E/S characteristics)

● **In which economic sectors were the investments made?**

Economic sector

Health Care Providers and Services: 28.65%

Pharmaceuticals: 23.80%

Biotechnology: 18.38%

Life Sciences Tools and Services: 16.41%

Health Care Equipment and Supplies: 7.88%

Health Care Technology: 1.42%

Food and Staples Retailing: 1.13%

Personal Products: 1.09%

0% of the total value of investments (NAV) were in companies involved in sectors that could be connected to fossil fuels, like "Energy & water supply", "Mining, coal & steel" or "Petroleum/Oil and natural gas". It's important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it's not their main focus.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	0.00%
enabling	0.00%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Investment share

0.00%

What was the share of socially sustainable investments?

Investment share

60.93%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Cash (1.24%)	Liquidity management	None

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The binding elements of the investment strategy used for the selection of the investments to attain the environmental and/or social characteristics promoted by this Sub-Fund have been monitored throughout the reporting period. During the reference period, the Sub-Fund invested 5.98% of its net assets in securities of corporate issuers that were on the Investment Manager's ESG Watchlist – meaning they scored in the bottom 20% on Sustainalytics ESG Risk ratings within their investment peer group. These investments were reviewed on a case-by-case basis and overall exposure was monitored to ensure that the 10% threshold was not exceeded. The investment manager engaged with all companies on the ESG Watchlist to encourage improvement and better disclosure of ESG practices and risk mitigation efforts.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Sub-Fund were met. The Sub-Fund: Mainly promoted social characteristics by investing partially in sustainable investments with a social objective. These consist of companies that contributed to an investment in human capital (good health and well-being), product quality and safety, tackling inequality by providing access to medicine, social integration and labour relations or independence of the board, and that the Investment Manager identified as sustainable investments. These companies are innovative biotechnology companies developing novel drugs in therapeutic areas with large unmet medical needs. Also promoted certain minimum environmental

standards and/or business practices. Therefore, it invested in issuers, that the Investment Manager considers well-prepared to handle material ESG (Environmental, Social and Governance) matters and by avoiding investments in issuers that are involved in severe controversies (i.e. that have a high controversy score). The Sub-Fund has not designated a reference benchmark for the purpose of attaining the environmental and social characteristics that it promotes. .

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

● How did the sustainability indicators perform?

Sustainability Indicator	Value	Comment
Controversy score: A controversy is defined as an event or aggregation of events relating to an ESG topic. The controversy score reflects a company's level of involvement in issues and how it manages these issues. Issuers are rated on a scale from 1 to 5, with 1 corresponding to a low impact on environment and society and 5 a severe impact on environment and society representing the most controversial companies.	0%	Excluded investment in stocks with Level 5 Controversies 0% of Sub-Fund holdings had a Controversy Score above 4.
ESG Risk Rating: The ESG Risk Rating measures a company's exposure to material industry specific ESG risks as well as how well those risks are being managed. Risk is scored on a scale of 1-100, with 100 corresponding to the highest risk. ESG Risk exposure is measured against industry peers and the global universe. ESG Risk management is assessed based on the company's published sustainability programs and policies.	8.34%	ESG Risk Ratings were monitored, and the manager compiled an ESG Watchlist of companies whose Risk Rating score (on a scale of 1-100) was in the top quintile of the relevant investment universe (indicating highest risk). The Watchlist included all stocks with an ESG Rating of 32.81 or above. 8.34% of Sub-Fund holdings were on the ESG Watchlist i.e., had an ESG Risk Rating above 32.81 (maximum exposure is 10%)
Percentage of issuers significantly contributing to Sustainable Development Goal 3 - Good health and well-being ("SDG 3"): Companies contributing to SDG 3 are those tackling unmet medical needs and improving the health and well-being of people around the globe. An issuer contributing to SDG 3 will be identified as such when the majority of the activities of an issuer, as measured by turnover, enterprise value, or for pre-revenue companies R&D spend, or similar metrics, contribute to SDG 3. This indicator will be used for the identification of sustainable investments as described below.	95.50%	Defined as having over 50% of activities, as measured by turnover, enterprise value, or for pre-revenue companies R&D spend, or similar metrics, contribute to SDG 3. 95.50% of Sub-Fund holdings were classified as contributing to SDG3.

Data sources and processing: “controversy score”, “ESG rating” and “Percentage of issuers significantly contributing to Sustainable Development Goal 3 - Good health and well-being” are based on data from the third-party ESG data provider selected by the Investment Manager. More information about the ESG data provider and the screening methodology can be found under <https://www.sectoral.com/en/sustainability>.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments that the financial product partially made have the social objective of improving good health and well-being, contributing to SDG 3. Sustainable investments were made in companies with the majority of activities (as measured by turnover, enterprise value, or for pre-revenue companies R&D spend, or similar metrics) related, but not limited to the sale of innovative medicines, discovery of new mechanisms of action offering potential cures or better management of diseases that were difficult to treat before, novel technology platforms as well as research tools and services in the biotechnology value chain. Medical breakthroughs have the power and potential to improve people’s life expectancy and quality of life. Therefore, the focus on medical progress, innovation, and improved access to modern medicine helps meet the objective of improved health and well-being. The Sustainable investments were also assessed by the investment manager as not causing significant harm to any environmental or social sustainable investment objective beyond SDG 3. The Sub-Fund committed to having a minimum of 30% of assets under management in sustainable investments. In the reference period the Sub-Fund had 76.44% of AUM invested in Sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Sustainable investments were monitored using a third-party tool, mapping principal adverse impacts (PAIs), to ensure that they did not cause significant harm to environmental or social investment objectives outside of SDG 3 as described below..

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

All mandatory principal adverse sustainability impacts indicators related to greenhouse gas emissions, biodiversity, water, waste, and social aspects applicable to companies and all additional indicators that are relevant for the investment universe were monitored for the sustainable investments that the Sub-Fund invested in. These indicators were considered by the Investment Manager in the due diligence procedures for investment selection and ongoing monitoring. The Investment Manager relied on a Principal Adverse Impact Data Solution from a third-party provider that provides a comprehensive set of datapoints that have been mapped to the mandatory as well as certain additional PAIs.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

During the reference period, the Sub-Fund had a controversy monitoring process in place, that among others ensured alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered a set of principal adverse impacts on sustainability factors in the following areas: controversial weapons, fossil fuels (Table 1 – PAI indicator 14 share of investments involved in controversial weapons and indicator 4 share of investments in companies active in the fossil fuel sector), social matters and human rights (Table 1 - PAI indicator 10 share of companies involved in violation of UN Global Compact Principles and OECD Guidelines For Multinational Enterprises). The Investment Manager followed a

process to identify issuers that are exposed to principal adverse impacts on sustainability factors based on external data sources including ESG data providers, news alerts, and the issuers themselves. During the reporting period, no holding was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: June 30, 2023

Largest investments	Sector	% Assets	Country
Amgen	Pharmaceuticals, cosmetics & med. products	8.24	United States
Vertex Pharmaceuticals	Biotechnology	8.17	United States
Gilead Sciences	Biotechnology	7.16	United States
Regeneron Pharmaceuticals	Biotechnology	6.53	United States
Biogen	Pharmaceuticals, cosmetics & med. products	4.55	United States
Moderna	Biotechnology	4.43	United States
Seagen	Biotechnology	4.39	United States
Astrazeneca ADR	Pharmaceuticals, cosmetics & med. products	4.32	United Kingdom
Alnylam Pharmaceuticals	Pharmaceuticals, cosmetics & med. products	3.20	United States

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

The proportion of sustainability-related investments was 95.50% (assets aligned with environmental and social characteristics).

● *What was the asset allocation?*

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

95.50% of the investments of the financial product were used to attain the environmental and social characteristics (#1 Aligned with E/S characteristics)

76.44% of investments were sustainable investments (#1A Sustainable). These sustainable investments were included under assets aligned with E/S characteristics (#1 Aligned with E/S characteristics)

● ***In which economic sectors were the investments made?***

Economic sector

Biotechnology: 81.38%

Pharmaceuticals: 11.21%

Life Sciences Tools and Services: 4.25%

0% of the total value of investments (NAV) were in companies involved in sectors that could be connected to fossil fuels, like "Energy & water supply", "Mining, coal & steel" or "Petroleum/Oil and natural gas". It's important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it's not their main focus.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	0.00%
enabling	0.00%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Period	Investment share
year ending on June 30, 2022	0.00%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Investment share
0.00%

What was the share of socially sustainable investments?

Investment share
76.44%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Cash (3.16%)	Liquidity management	None

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The binding elements of the investment strategy used for the selection of the investments to attain the environmental and/or social characteristics promoted by this Sub-Fund have been monitored throughout the reporting period. During the reference period, the Sub-Fund invested 8.34% of its net assets in securities of corporate issuers that were on the Investment Manager's ESG Watchlist – meaning they scored in the bottom 20% on Sustainalytics ESG Risk ratings within their investment peer group. These investments were reviewed on a case-by-case

basis and overall exposure was monitored to ensure that the 10% threshold was not exceeded. The investment manager engaged with all companies on the ESG Watchlist to encourage improvement and better disclosure of ESG practices and risk mitigation efforts.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Variopartner SICAV - Sectoral Healthcare Opportunities Fund (FW_00418)

Legal entity identifier: 222100FVA3VE5JRU2V94

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 72.18% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Sub-Fund were met. The Sub-Fund mainly promoted social characteristics by investing partially in sustainable investments with a social objective. These consisted of companies that contribute to an investment in human capital (good health and well-being), product quality and safety, tackling inequality by providing access to medicine, social integration and labour relations or independence of the board, and that the Investment Manager has identified as sustainable investments. These companies are innovative healthcare companies developing differentiated drugs, services, life science tools and devices in therapeutic areas with large unmet medical needs. It

also promoted certain minimum environmental standards and/or business practices. Therefore, it invested in issuers that the Investment Manager considered well-prepared to handle material ESG (Environmental, Social and Governance) matters and by avoiding investments in issuers that are involved in severe controversies (i.e. that have a high controversy score). The Sub-Fund has not designated a reference benchmark for the purpose of attaining the environmental and social characteristics that it promotes.

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Sub-Fund were met. The Sub-Fund promoted environmental and social characteristics and invested in issuers that the Investment Manager considered well-prepared to handle financially material environmental and social challenges. Issuers were selected based on the Investment Manager's ESG framework. The Sub-Fund had a portfolio-level carbon footprint lower than the investment universe (i.e., the European equity market). The Sub-Fund has not designated a reference benchmark for the purpose of attaining the environmental and social characteristics that it promotes.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Sustainability Indicator	Value	Comment
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund.	0%	excluded products and/or activities are indicated under the investment strategy section in the pre-contractual disclosure
Percentage of investments in securities of corporate issuers that pass the minimum ESG score that has been set for this Sub-Fund.	100%	based on a proprietary methodology, minimum is set at 2.9 out of 10
Percentage of investments in securities of issuers that are in violation of certain international norms and standards promoted by the Sub-Fund or that are exposed to severe controversies (unless a positive outlook has been identified). Such controversies may be related to environmental, social or governance issues.	0%	
Sub-Fund's carbon footprint compared to the Sub-Fund's investment universe (European equity market).	achieved	lower than the relevant universe

● **... and compared to previous periods ?**

Sustainability Indicator	year ending on June 30, 2022
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund.	N/A
Percentage of investments in securities of corporate issuers that pass the minimum ESG score that has been set for this Sub-Fund.	N/A
Percentage of investments in securities of issuers that are in violation of certain international norms and standards promoted by the Sub-Fund or that are exposed to severe controversies (unless a positive outlook has been identified). Such controversies may be related to environmental, social or governance issues.	N/A

Sustainability Indicator	year ending on June 30, 2022
Sub-Fund's carbon footprint compared to the Sub-Fund's investment universe (European equity market).	N/A

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

No applicable

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered a set of principal adverse impacts on sustainability factors in the following areas: Emissions (Table 1 - PAI indicator 3 GHG intensity of investee companies), controversial weapons (Table 1 - PAI indicator 14 share of investments involved in controversial weapons), social

matters and human rights (Table 1 - PAI indicator 10 share of companies involved in violation of UN Global Compact Principles and OECD Guidelines For Multinational Enterprises). The Investment Manager applied a process to identify issuers that are exposed to principal adverse impacts on sustainability factors based on in-house research and/or external data sources including ESG data providers, news alerts, and the issuers themselves. No investment was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: June 30, 2023

Largest investments	Sector	% Assets	Country
ASML Holding	Electronics & semiconductors	5.61	Netherlands

12.52% of the total value of investments (NAV) were in companies involved in sectors that could be connected to fossil fuels, like "Energy & water supply", "Mining, coal & steel" or "Petroleum/Oil and natural gas". It's important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it's not their main focus. Also, the Sub-Fund might invest in bonds labeled as green, social, or sustainability bonds. These bonds typically fund projects unrelated to fossil fuels, even if the companies issuing them can be active in sectors with potential links to fossil fuels.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
- In fossil gas
 - In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	0.00%
enabling	0.00%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Period	Investment share
year ending June 30, 2022	0.00%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Investment share
0.00%

What was the share of socially sustainable investments?

Investment share
0.00%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Cash (0.4%)	Liquidity	None

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The binding elements of the investment strategy used for the selection of the investments to attain the environmental and/or social characteristics promoted by this Sub-Fund have been monitored throughout the reporting period.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Variopartner SICAV - 3-Alpha

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Sub-Fund were met. The Sub-Fund promoted environmental and social characteristics and invested in issuers that the Investment Manager considered well-prepared to handle financially material environmental and social challenges. Issuers were selected based on the Investment Manager's ESG framework. The Sub-Fund had a portfolio-level carbon footprint lower than the investment universe (i.e., the US equity market). The Sub-Fund has not designated a reference benchmark for the purpose of attaining the environmental and social characteristics that it promotes.

- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	0.00%
enabling	0.00%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Period	Investment share
year ending June 30, 2022	0.00%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Investment share
0.00%

What was the share of socially sustainable investments?

Investment share
0.00%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Cash (0.21%)	Liquidity management	None applied
Investment not covered by ESG research (11.05%)	Diversification	The process for monitoring of severe controversies was applied

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The binding elements of the investment strategy used for the selection of the investments to attain the environmental and/or social characteristics promoted by this financial product have been monitored throughout the reporting period.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Variopartner SICAV - Vontobel ESG Global Allocation (FM_00817)

Legal entity identifier: 222100IJTE23X6XHOH34

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ____%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 47.60% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the financial product were met. The Sub-Fund promoted environmental and social characteristics and followed a multi-asset strategy. Equity investments were made in companies that contributed to pre-defined so-called "Impact Pillars" through their products and services. The Impact Pillars included clean energy infrastructure, resource-efficient industry, clean water, building technology, low emission transportation, and lifecycle management. The targeted companies provided products and services along the whole value chain, which tackled pressing environmental problems such as environmental pollution, climate change,

resource limitations, technological advances, and growing needs for water and wastewater infrastructure. Fixed income investments were made in green, social, or sustainability bonds. The Sub-Fund has not designated a reference benchmark for the purpose of attaining the environmental and social characteristics that it promotes.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Sustainability Indicator	Value	Comment
Percentage of investments in securities of issuers or securities issued for projects that contribute to at least one of the Impact Pillars.	85.7%	based on a proprietary methodology
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities listed in the exclusion list.	0%	excluded products and/or activities are indicated under the investment strategy section in the pre-contractual disclosure
Percentage of investments in issuers that are in violation of certain international norms and standards promoted by the Sub-Fund or that are exposed to severe controversies. Such controversies may be related to environmental, social or governance issues.	0%	

● **... and compared to previous periods ?**

Sustainability Indicator	year ending on June 30, 2022
Percentage of investments in securities of issuers or securities issued for projects that contribute to at least one of the Impact Pillars.	N/A
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities listed in the exclusion list.	N/A
Percentage of investments in issuers that are in violation of certain international norms and standards promoted by the Sub-Fund or that are exposed to severe controversies. Such controversies may be related to environmental, social or governance issues.	N/A

● **What were the objectives of the sustainable investments that the financial**

product partially made and how did the sustainable investment contribute to such objectives?

The Sub-Fund committed to invest at least 20% in sustainable investments that are green, social or sustainability bonds which comply with internationally recognized standards such as ICMA. During the reference period, the Sub-Fund invested 47.6% in green bonds. Green bonds' objective is to enable capital-raising and investment for new and existing sound and sustainable projects with environmental benefits that foster a net-zero emissions economy and protect the environment (example: renewable energy, pollution prevention and control, environmentally sustainable management of living natural resources and land use). An example of a Green Bond the Sub-Fund invested in was a bond issued by Eon, a German multinational electric utility company. The Eon Green Bond Framework includes four project categories, namely: - "Electricity networks": Electricity distribution infrastructure and equipment that meets certain criteria but excluding infrastructure dedicated to creating or expanding a direct connection of power plants that are more CO₂ intensive than 100g of CO₂ e/kWh. - "Renewable Energies": Renewable energy production and storage units, - "Energy Efficiency": Integrated on-site business and city energy solutions, composed of EU taxonomy-aligned technologies. - "Clean Transportation": Electric vehicle (EV) charging stations and supporting electric infrastructure for the electrification of transport. The framework is aligned with the ICMA Green Bond Principles.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

In order to ensure that the Sustainable Investments of the financial product do not cause significant harm to any environmental or social investment objective, the financial product takes into account all the mandatory indicators for adverse impacts and ensures that the financial product's investments are aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights as further outlined below.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

For the sustainable investments that the Sub-Fund partially made, the Investment Manager took into account the adverse impacts on sustainability factors by applying the following process: The Investment Manager identified the investments' exposure to principal adverse impacts on sustainability factors based on in-house research; data sources include ESG data providers, news alerts, and the issuers themselves. Where no reliable third-party data was available, the Investment Manager made reasonable estimates or assumptions. No investment was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The financial product has a controversy monitoring process in place, that among others takes into account the alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. This process is based on third party data and may be complemented by the Investment Manager's own ESG research

capabilities. The financial product excludes issuers that are (i) in violation of the norms and standards (defined under the investment strategy section) promoted by the Sub-Fund ; (ii) involved in severe controversies. Unless, in either case, the Investment Manager has identified a positive outlook (i.e., through proactive response by the issuer, proportionate rectification measures already announced or taken, or through active ownership activities with reasonable promise of successful outcomes).

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered a set of principal adverse impacts on sustainability factors in the following areas: Emissions (Table 1 - PAI indicator 3 GHG intensity of investee companies), Energy (Table 1 - PAI indicator 5 Share of non renewable consumption and production of investee companies), Controversial weapons (Table 1 - PAI indicator 14 share of investments involved in controversial weapons), Social matters and human rights (Table 1 - PAI indicator 10 share of companies involved in violation of UN Global Compact Principles and OECD Guidelines For Multinational Enterprises). The Investment Manager applied a process to identify issuers that are exposed to principal adverse impacts on sustainability factors based on in-house research and/or external data sources including ESG data providers, news alerts, and the issuers themselves. No investment was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: June 30, 2023

Largest investments	Sector	% Assets	Country
Vontobel Fund - Sustainable Emerging Markets Debt HI (hedged) EUR	Investment or pension funds/trusts	7.56	Luxembourg
European Union	Supranational organisations	2.38	Belgium
Madrid	Cantons, federal states, counties, provinces etc.	1.94	Spain
Credit Agricole Italia	Banks & other credit institutions	1.70	Italy
Acciona	Energy & water supply	1.57	Spain
Orsted	Energy & water supply	1.49	Denmark
Verbund	Energy & water supply	1.48	Austria
Energias de Portugal Finance	Financial, investment & other diversified comp.	1.41	Netherlands
E.ON	Energy & water supply	1.31	Germany
European Investment Bank	Supranational organisations	1.31	Luxembourg
Synopsys	Internet, software & IT services	1.31	United States
E.ON	Energy & water supply	1.30	Germany
Iberdrola	Energy & water supply	1.24	Spain
Kreditanstalt für Wiederaufbau	Banks & other credit institutions	1.23	Germany
Elia Transmission Belgium	Energy & water supply	1.22	Belgium

What was the proportion of sustainability-related investments?

The proportion of sustainability-related investments was 85.7% (assets aligned with environmental and social characteristics).

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

85.70% of the investments of the financial product were used to attain the environmental and social characteristics (#1 Aligned with E/S characteristics)

47.60% of investments were sustainable investments (#1A Sustainable). These sustainable investments were included under assets aligned with E/S characteristics (#1 Aligned with E/S characteristics)

● ***In which economic sectors were the investments made?***

Economic sector	
Energy & water supply	29.68
Electronics & semiconductors	10.4
Investment or pension funds/trusts	7.56
Financial, investment & other diversified comp.	7.37
Supranational organisations	6.34
Electrical appliances & components	6
Mechanical engineering & industrial equip.	3.79
Banks & other credit institutions	2.93
Building materials & building industry	2.03
Cantons, federal states, counties, provinces etc.	1.94
Internet, software & IT services	1.9
Chemicals	1.84
Traffic & Transportation	1.64
Telecommunication	1.59
Environmental services & recycling	1.43
Insurance companies	1.36
Vehicles	1.23
Forestry, paper & forest products	1.04
Real estate	0.93
Petroleum/Oil and natural gas	0.91
Miscellaneous consumer goods	0.56
Miscellaneous services	0.47
Countries & central governments	0.29

30.59% of the total value of investments (NAV) were in companies involved in sectors that could be connected to fossil fuels, like "Energy & water supply", "Mining, coal & steel" or "Petroleum/Oil and natural gas". It's important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it's not their main focus. Also, the Sub-Fund might invest in bonds labeled as green, social, or sustainability bonds. These bonds typically fund projects unrelated to fossil fuels, even if the companies issuing them can be active in sectors with potential links to fossil fuels.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

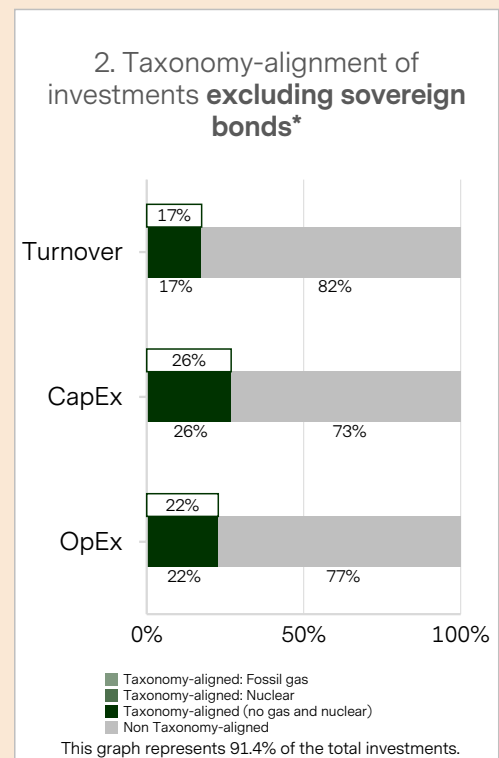

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	0.20%
enabling	4.16%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Period	Investment share
year ending on June 30, 2022	0.00%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Investment share
23.00%

What was the share of socially sustainable investments?

Investment share
0.00%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Cash (6.8%)	Liquidity management	None applied
Target funds (7.56%)	Diversification	Art. 8 fund

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The binding elements of the investment strategy used for the selection of the investments to attain the environmental and/or social characteristics promoted by this Sub-Fund have been monitored throughout the reporting period.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes.
