Objectives and Investment Policy

The objective of the Fund is to achieve a combination of returns and long-term capital growth through a growth-oriented portfolio with a medium- to long-term horizon.

This Sub-Fund is not managed by us in reference to a Benchmark. We follow an active management approach.

Min. 50% of Sub-Fund assets are invested in Sustainable Target Funds and / or in securities of companies that promote environmental or social characteristics or invest into sustainable investments.

We invest primarily in other funds. No less than 25% and no more than 90% of the Fund's assets can be invested in equity funds or equities and up to 75% in bond funds or bonds. We can invest any amount of the Fund's assets in money market funds or money market instruments. Up to 40% of the Fund's assets can be invested in the emerging markets category. Up to 30% of the Fund's assets can be invested in bond funds or bonds classified as high yield. Up to 20% of the Fund's assets can be allocated to

alternative investments. Up to 30% of the Fund's assets can be invested in assets related to the commodity futures, precious metals or raw materials sectors. In total, up to 100% of the Fund's assets can be invested in equity funds and equities, as well as in assets related to the commodity futures, precious metals or raw materials sectors.

You may redeem shares of the fund usually on each business day.

We usually distribute the income of the fund on a yearly basis.

Recommendation: the Share Class of the Fund should be held for at least a medium- to long-term investment horizon.

Derivatives may be used to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage).

Risk and Reward Profile

This risk and reward indicator is based on past performance data. It may not be a reliable indication of the future risk profile of the fund.

The categorisation of the fund is not guaranteed and may change in the future.

Even the lowest category 1 does not mean a risk-free investment.

Why is the fund in this category?

Funds of category 4 have shown in the past a medium volatility. The volatility describes how much the value of the fund went up and down in the past. The units of a fund of category 4 might be subject to medium price fluctuations based on the historical volatilities observed.

The following material risks are not fully captured by the risk and reward indicator:

The fund has to a significant extent entered into agreements with counterparties not handled through a stock exchange or a regulated market. If any such counterparty may fall into insolvency or may suffer economical problems the fund price may drop.
