What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Weisshorn Funds UCITS, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may also propose to dissolve a sub-fund at a General Meeting of that Compartment.

OBJECTIVES

Objectives and investment policy

The investment objective of the Sub-Fund is to seek long-term capital growth and income by investing in a debt portfolio of fixed/floating income instruments, Money Market Instruments, cash and cash equivalents and collective investment schemes ("UCIS") pursuing traditional strategies and to a lesser extent alternative strategies UCITS eligible funds.

The investment manager will select debt securities or issuers to build a portfolio with an overall average credit quality of investment grade. In order to reach its objective, the Sub-Fund will mainly invest in debt instruments (public and corporate issuers, short/long maturity bonds, fixed/variable rate securities, senior/subordinated debt, inflation-linked securities, perpetual bonds, investment grade/high yield bonds, convertible bonds), Money Market Instruments, cash and cash equivalents.

These investments may be obtained:

- directly in the securities/asset classes mentioned above; and/or
- in UCIs having as main objective to invest in the above-mentioned asset classes (within the below-mentioned 10% limit in UCITS and/or other UCIs).

The choice of investments will neither be limited by geographical area (including emerging markets), an economic sector, nor in a particular asset class, nor in currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country and/or in a single economic sector and/or single asset class and/or in a single currency. On an ancillary basis, the Sub-Fund may invest in other eligible assets such as equity and equity related securities and UCIs (within the 10% limit above-mentioned).

To a lesser extent, the Sub-Fund may invest in structured products as defined in the prospectus.

All investments will be made in accordance with the provision set out under article 41 of the Law of 2010.

However, the Sub-Fund may invest directly in the assets listed below, subject to the following limits:

- Debt securities or issuers may have credit rating of all types (as detailed in prospectus)
- The Investment Manager may invest in contingent convertible bonds up to 10% of the net assets.
- Up to 10% of the net assets in UCITS and/or other UCIs (including UCITS eligible funds with alternative strategies ("equity long/short", "equity hedge", "relative value", "global macro", "event driven", ...)).

If the investment manager considers this to be in the best interest of the shareholders, on a temporary basis and for defensive purposes, the Sub-Fund may also hold, up to 100% of its net assets in liquidities, such as cash deposits, money market UCIs and money market instruments.

Derivatives For hedging and for any other purposes, the Sub-Fund may use financial derivative instruments within the limits and descriptions set out in the prospectus. The use of derivative instrument may increase leverage, imply additional costs and risks.

Benchmark The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is USD.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

OTHER INFORMATION

Depositary Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depositary").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The NAV for the Class is calculated on each bank business day in Luxembourg ("Calculation Day") on the basis of the prices of the preceding business day ("Valuation Day"). The cut-off time to submit subscriptions and /or redemption orders is 12 noon at the latest on the relevant Valuation Day.

Switching Shareholders may apply for any shares of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target share class, type or sub-type, are fulfilled with respect to the Sub-Fund, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus, section which details the switch between sub-funds, which is available at www.fundsquare.net.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		5 years USD 10,000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	USD 8,250 -17.5%	USD 6,920 -7.1%	
Unfavourable scenario	What you might get back after costs Average return each year	USD 8,250 -17.5%	USD 9,130 -1.8%	This type of scenario occurred for an investment in the product between October 2017 and October 2022.
Moderate scenario	What you might get back after costs Average return each year	USD 10,240 2.4%	USD 11,280 2.4%	This type of scenario occurred for an investment in the proxy then the product between June 2016 and June 2021.
Favourable scenario	What you might get back after costs Average return each year	USD 12,130 21.3%	USD 12,790 5.0%	This type of scenario occurred for an investment in the proxy then the product between April 2014 and April 2019.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10,000 is invested

Investment of USD 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	USD 178	USD 1,014
Annual cost impact (*)	1.8%	1.8%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.2% before costs and 2.4% after costs.

Composition of costs
