What is this product?

Type

The Product is a share of the Sub-fund Wellington Global Credit ESG Fund (the "Fund") which is part of the Wellington Management Funds (Ireland) plc (the "Umbrella Fund"), an open-ended investment company with variable capital and segregated liability between Funds incorporated with registered number 267944 and is authorised in Ireland as a UCITS pursuant to the Regulations.

Term

The Umbrella Fund and the Fund do not have a fixed term or maturity period, but the Management Company, with the approval of the Depositary, is entitled to give notice of the Umbrella Fund's dissolution at any time. In the event that the Management Company considers that changes in the political, economic, military, regulatory or business environments, or reductions in the scale of a Fund's total net assets compromise the effective management of a Fund, then the Management Company is empowered to liquidate the Fund at any time.

Objectives

The Fund seeks long-term total returns (capital appreciation and income) in excess of a custom Bloomberg Global Aggregate Corporate Index composed of investment grade corporate bonds with minimum amounts outstanding denominated in US Dollars, Euros, and Sterling with individual issuers capped at 1%, financials capped at 40% and excluding certain subordinated debt instruments.

The Fund will be actively managed, investing primarily in a diversified portfolio of investment grade corporate bonds of global issuers. It may also invest in securities issued by government or supranational issuers, mortgage and other asset-backed securities, as well as exchange-traded and over-the-counter derivatives. The Fund will generally be diversified by country, currency, sector and issuer, but may hold positions that are concentrated from time to time.

The Fund's construction is based on top-down analysis of global investment themes, rigorous fundamental economic analysis and specialist research on individual credit sectors with bottom-up security selection. The Investment Manager also applies an ESG framework to investment decisions. The Investment Manager uses proprietary ESG Ratings that are based on a comparative pool of global issuers and inputs from the Investment Manager's research analysts as well as third party sources. These are used to assess how ESG activities and attributes of issuers are likely to impact their ability to repay debt, both now and in the future. Issuers that have the worst ESG ratings are removed from the investment universe; issuers with below average ESG Ratings may only be included in the Fund if the Investment Manager determines that the Fund is adequately compensated for the additional risk.

In addition, the Investment Manager applies several binding restrictions. These restrictions support certain ESG characteristics by excluding issuers identified as being responsible for significant environmental or social harm around the world. A full list of these binding restrictions can be found in the Fund's prospectus.

The Fund will apply this ESG framework to its investment analysis and decisions on at least 90% of the holdings (excluding cash and cash equivalents) with the aim of achieving full coverage over time as the disclosure of ESG information improves.

The Fund aims to be fully invested with cash and cash equivalents held on an ancillary basis.

The Investment Manager will also seek to reduce the Fund's carbon footprint as measured by its weighted average carbon intensity (WACI) to net zero by 2050, or sooner, in line with the Paris Agreement. The investment manager will manage the Fund towards this 2050 net zero commitment by reducing the Fund's WACI figure by no less than 50% below the Index's 2019 baseline WACI by 2030 and aim to achieve net zero by 2050. The Investment Manager will seek to engage with companies that contribute at least 50% of the Fund's WACI, with the intent to encourage companies to disclose climate risks, publish carbon emissions data, set science-based targets or other credible carbon emission reduction targets and follow through with these commitments. The Investment Manager will engage with these WACI contributors at minimum once every two years to determine whether these companies are tracking towards meeting their net zero commitments.

The Index may be considered during portfolio construction and is used for performance comparison and baseline WACI purposes. Fund securities may be components of the Index but are not expected to have similar weightings.

Derivatives will be used to hedge (manage) risk and/or volatility and for investment purposes (such as gaining exposure to a security, to create leverage and/or a short position). Derivatives will form a significant part of the strategy and will impact performance.

This Share class will, via derivatives, seek to provide similar benchmark relative performance to that of the Fund by managing the impact of the movement of exchange rates between the currency of the Share class and the underlying currencies within the reference benchmark.

This Share class will, via derivatives, seek to provide similar benchmark relative performance to that of the Fund by managing the impact of the movement of exchange rates between the currency of the Share class and the underlying currencies within the reference benchmark.

Income policy

Any income allocated to the Share class from the Fund is reinvested.

Dealing Frequency

Shares can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.

Intended retail Investor

The Fund is intended for basic retail investors with a long-term investment horizon seeking capital appreciation and who are able to bear capital loss. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of net asset value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

Depositary

State Street Custodial Services (Ireland) Limited.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You may not be able to cash in early. You may have to pay significant extra costs to cash in early.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 3 out of 7 which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level. Poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the Prospectus for full details about any other risks materially relevant to the fund not included in the summary risk indicator such as liquidity, sustainability and operational risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 EUR	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

What happens if Wellington Luxembourg S.à r.l. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of the insolvency of the Management Company, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the 5 year holding period we have assumed the product performs as shown in the moderate scenario
- 10,000.00 EUR

	If you exit after 1 year	If you exit after 5 years
Total costs	654 EUR	1,284 EUR
Annual cost impact (*)	6.5%	2.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.4 % before costs and -1.2 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge. This person will inform you of the actual distribution fee.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.00% of the amount you pay in when entering this investment. This includes distribution costs of 5.00% of amount Invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 500 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.87% of the value of your investment per year. This is an estimate based on actual costs over the last year.	87 EUR
Transaction costs	0.67% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	67 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 5 years.

The Management Company shall redeem shares of this Fund at the redemption price on each dealing day. Redemptions of the applicable Fund will be effected at the valuation point on the relevant dealing day. The price is based on the net asset value per share of each class determined at the valuation point. Redemption requests received after the dealing deadline will be treated as having been received by the following dealing deadline unless otherwise determined by the Management Company.

Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.
