## Wellington Global Credit Plus Fund

EUR S AccH

Wellington Global Credit Plus Fund (the "Fund") a Fund of Wellington Management Funds (Ireland) plc (the "Company")

ISIN: IE00BF3MQ50

Management company: Wellington Luxembourg S.à r.l.

### OBJECTIVES AND INVESTMENT POLICY

- The Fund seeks long-term total returns (capital appreciation and income) in excess of the Custom Bloomberg Barclays Capital Global Aggregate Corporate (Fin 40% Cap) US\$/Euro/GBP 1% Cap \$500M Min Index (Ex Tier 1, Upper Tier 2 and Capital Credit securities) Index (the "Index").
- The Index is composed of investment grade corporate bonds with minimum amounts outstanding denominated in US Dollars, Euros, and Sterling within the industrial, utility and financial services sectors with individual issuers capped at 1%, financials capped at 40% and excluding certain subordinated debt instruments.
- The Fund will be actively managed, investing primarily, either directly or via derivatives, in a diversified portfolio of investment grade corporate bonds of issuers globally. It may also invest in securities issued by government or supranational issuers, mortgage and other asset-backed securities. The Fund will generally be diversified by country, currency, sector and issuer, but may hold positions that are concentrated from time to time.
- Derivatives will be used to hedge (manage) risk and/or volatility and for investment purposes (such as gaining exposure to a security, to create leverage and/or a short position). Derivatives will form a significant part of the strategy and will impact performance.
- The Index may be considered during portfolio construction and is used for performance comparison purposes. Fund securities may be components of the Index but are not expected to have similar weightings. The Investment Manager may limit the extent that currency and issuer weightings, as well as overall interest rate duration, differ from the Index but this should not be expected to limit the Fund's ability to achieve long-term total returns in excess of the Index.
- The Fund will seek to support certain environmental and social characteristics and will abide by the following binding restrictions:
  - The Fund will not invest in securities of any corporate issuers identified as failing to comply with the United Nations Global Compact.
  - The Fund will also apply exclusions to companies with business activities related to fossil fuel, thermal coal, controversial weapons, nuclear weapons, tobacco and cannabis.
- Any income allocated to the Share class from the Fund is reinvested.
- Shares can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.
- This Fund may not be appropriate for investors who plan to withdraw their money within five years.
- This Share class will, via derivatives, seek to provide similar benchmark relative performance to that of the Fund by managing the impact of the movement of exchange rates between the currency of the Share class and the underlying currencies within the reference benchmark.

### RISK & REWARD PROFILE

< LOWER RISK

< Typically Lower Rewards

The indicator is not a measure of the risk of capital loss, but a measure of the previous ups and downs in value of the Fund. It is based on historical data and may not be a reliable indicator of the Fund's future risk profile. If the Fund has been in operation for less than 5 years, representative history, such as a comparable Share class or index, may have been used to create the indicator.

- The indicator may shift over time and is not a target or guarantee.
- The lowest category does not represent a risk-free investment.
- The Fund is classified as a 4 as over the past 5 years the average amount by which returns varied each year was equal to or above 5% and less than 10%.

#### MATERIAL RISKS RELEVANT TO THE FUND WHICH ARE NOT FULLY CAPTURED BY THE INDICATOR:

**BELOW INVESTMENT GRADE:** Lower rated or unrated securities may have a significantly greater risk of default than investment grade securities, can be more volatile, less liquid, and involve higher transaction costs.

**CAPITAL:** Investment markets are subject to economic, regulatory, market sentiment and political risk which can trigger unexpected capital loss.

**COUNTERPARTY:** The institutions with which the Fund may trade or invest, or to which assets may be entrusted, may fail to meet their obligations which could impact the operational capability or value of your investment.

**CREDIT:** The value of a bond may decline, or the issuer/guarantor may fail to meet payment obligations. Typically lower-rated bonds carry a greater degree of credit risk than higher-rated bonds.

**CURRENCY:** The value of the Fund may be affected by changes in currency exchange rates. Unhedged currency risk may subject the Fund to significant volatility.

**DERIVATIVES:** Specific risks such as operational issues, complexity, and valuation may be linked to the possible use of derivatives.

**HEDGING:** Any hedging strategy using derivatives may not achieve a perfect hedge.

**INTEREST RATES:** The value of bonds tends to decline as interest rates rise. The change in value is greater for longer term than shorter term bonds.

**LIQUIDITY:** The Fund may invest in securities that are less liquid and may be more difficult to buy or sell in a timely fashion and/or at fair value.

**OPERATIONAL:** The impact of breakdowns in systems, internal procedures and human error.

**SHORT SELLING:** A short sale exposes the Fund to the risk of an increase in market price of a security sold short; this could result in a theoretically unlimited loss.

**SUSTAINABILITY:** A Sustainability Risk can be defined as an environmental, social or governance event or condition that, if it occurs, could cause an actual or potential material negative impact on the value of an investment. Further information on specific Sustainability Risks can be found in the Fund's prospectus.

A more detailed description of the risk factors that apply to the Fund is set out in the section "Risk Factors" in the Prospectus.
