GBP UN A1 DisU

Wellington Global Health Care Equity Fund (the "Fund") a Fund of Wellington Management Funds (Ireland) plc (the "Company")

ISIN: IE00BN6HHW67

Management company: Wellington Luxembourg S.à r.l.

OBJECTIVES AND INVESTMENT POLICY

- The Fund seeks long-term total returns primarily through capital appreciation.
- The Fund will be actively managed, investing primarily in health care companies globally with a market capitalisation typically above US\$1 billion. The Fund will invest across health care sub-sectors and may hold concentrated positions across sub-sectors but will be well diversified by issuer.
- The Fund will invest in shares and other securities with equity characteristics such as preferred stocks, convertible securities or depository receipts. The Fund may invest either directly or via derivatives. Up to 20% of the net assets of the Fund may be invested in Emerging Markets.
- While there are no restrictions on the Fund's ability to use derivatives for investment purposes (such as gaining exposure to a security), derivatives are mainly used to hedge (manage) risk.
- The MSCI World Health Care Index ("the Index") serves as a reference benchmark for performance comparison purposes. Whilst Fund securities may be components of the Index, the Index is not considered during portfolio construction and the Investment Manager will not manage the extent to which Fund securities differ from the Index.
- In line with the Fund's thematic investment approach, the Fund will seek to promote social characteristics by maintaining a portfolio which has a research and development expense to sales ratio that is at least two times greater than the Index.
- Any income allocated to the Share class from the Fund is distributed.
- Shares can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.
- This Fund may not be appropriate for investors who plan to withdraw their money within five years.
- The currency of this Share class is different to the base currency of the Fund and so the performance of the Share class will be subject to the impact of the movement of the exchange rate between the currencies.

RISK & REWARD PROFILE

< LOWER RISK

< Typically Lower Rewards

The indicator is not a measure of the risk of capital loss, but a measure of the previous ups and downs in value of the Fund. It is based on historical data and may not be a reliable indicator of the Fund's future risk profile. If the Fund has been in operation for less than 5 years, representative history, such as a comparable Share class or index, may have been used to create the indicator.

- The indicator may shift over time and is not a target or guarantee.
- The lowest category does not represent a risk-free investment.
- The Fund is classified as a 6 as over the past 5 years the average amount by which returns varied each year was equal to or above 15% and less than 25%.
