Dear Unit-holders,

We are pleased to present you the following annual report for the WSTV ESPA dynamisch jointly owned fund pursuant to the InvFG for the accounting year from 1 March 2023 to 29 February 2024.

The companies managing the sub-funds contained in the Fund that are not managed by the Investment Firm assessed management fees ranging between 0.05% and 1.05%. No front-end surcharges were charged for the purchase of the units in these funds.

Development of the Fund

Economic and market review:

The reporting period got off to a volatile start on the capital markets stemming from the dire state of a number of banks in the USA and one bank in Switzerland, which led to fears of a new financial crisis and to significant price declines on the global equity markets. The measures taken by the supervisory authorities and central banks increased confidence among market participants and subsequently calmed the capital markets, which profited from budding expectations of less-restrictive interest rate policy. The bond classes were able to follow the positive trend being enjoyed by the equity markets. Subsequently, investors began to focus their attention on the upcoming central bank meetings, macroeconomic indicators, and corporate earnings. After a relatively calm phase in the financial markets, declining inflation and solid economic data in the USA in June boosted market sentiment and helped the global equity markets to continue their positive performance. Corporate bonds, especially high yield bonds, also posted gains. The continued restrictive interest rate rhetoric of the central banks and declining but still relatively high inflation rates had a negative impact on government bonds from industrialised countries, which were still unable to break out of their volatile sideways trend. In the following months, investors became more cautious because the robust development of the US economy combined with the high oil price caused the expected key rate cuts to be pushed far off into the future. This caused rising yields and price declines on the equity markets. In Europe, bond yields declined slightly in October due to the anticipated slowing of economic growth. Investor sentiment brightened in November on the heels of rapidly falling interest rates in the USA and Europe and solid economic data in the USA, which allowed global equities to post price increases. Expectations for interest rate cuts in 2024 rose rapidly and allowed the equity markets to close the month in positive territory. This trend continued in December and laid the groundwork for a possible economic soft landing, though the optimism about this possibility waned somewhat at the beginning of 2024 – causing risky asset classes to react with moderate price losses. The corporate reporting season was positive and was accompanied by encouraging economic data, ushering in the next upturn on the financial markets that helped equities achieve price gains at the end of the month. Asian high yield bonds were preferred over hard currency emerging market bonds. Good corporate results in the USA, especially in the tech and communication sectors, combined with solid economic data brought further price increases for equity investors in February despite inflation rates that were moderately higher than expected. Expectations for interest rate cuts in the near future took another hit, however, causing yields on government and corporate bonds to rise slightly in the investment grade segment. Overall, the reporting period saw positive price performance for global equities and most bond segments.

WSTV ESPA dynamisch had the following allocation at the beginning of the reporting period:

Global equities around 67%, EMU government bonds around 6.5%, US government bonds around 3%, EMU corporate bonds around 2%, US corporate bonds around 2%, EMU high yield bonds around 1.5%, US high yield bonds around 1.5%, local-currency emerging market bonds around 3%, emerging market corporate bonds 1.5%, Asian high yield bonds around 1.5%, EMU money market around 0.5%, and alternative investments around 10%.

At the beginning of the reporting period, the weighting of European government bonds and the money market was increased at the expense of equities. The equities allocation in the portfolio was increased again in June and July, with this increase being financed largely by the complete sale of all US government bond holdings. In August, equities were reduced in favour of EMU money market issues. After this, EMU corporate bonds were increased at the expense of US corporate bonds, which were sold off entirely. In the final quarter of the reporting period, the money market position in the portfolio was scaled back while shares and EMU high yield bonds were bought. The equity allocation was reduced again slightly in January.

Within the equities positions, the main focus was initially placed on Europe, the Pacific ex Japan, and the USA. The focuses at the sector and style levels were US quality shares and European small caps and high dividend shares. American shares gained steadily in importance for the allocation over the course of the reporting period, which led to the successive reduction of European shares. At times, Latin American shares and European energy sector shares were bought. All of these investments were made through funds.

The allocation was as follows at the end of the reporting period:

Global equities around 67%, EMU government bonds around 10%, EMU corporate bonds around 3%, EMU high yield bonds around 3%, US high yield bonds around 1%, local-currency emerging market bonds around 2%, emerging market corporate bonds 1.5%, Asian high yield bonds around 1.5%, EMU money market around 1%, alternative investments around 10%.

The currency risk remained largely hedged with forward exchange agreements for much of the reporting period.

WSTV ESPA dynamisch achieved a positive performance of 11.59% (AT0000639364) for the reporting period.

General information about performance:

The performance of unit categories with no outstanding units at the end of the reporting period or no outstanding units during the reporting period is generally based on the dividend-adjusted performance of the overall fund. In these cases, the performance is not reported below.

When a unit category is issued during the reporting period, the performance and reinvestment are calculated from the point in time that the unit category is launched. Because of this and possible other fees and currency classes, the performance and reinvestment of this unit category differ from those of comparable unit categories.

The performance is determined assuming the reinvestment of all paid dividends and amounts at their nominal value on the day of disbursement.

Income Statement and Changes in Fund Assets

1. Value Development over the Accounting Year (Fund Performance)

Calculation according to the OeKB method per unit in the unit currency not accounting for a front-end surcharge

The performance of unit categories with no outstanding units at the end of the reporting period or no outstanding units during the reporting period is generally based on the dividend-adjusted performance of the overall fund. In these cases, the "performance", the "net earnings per unit", and the "total value including (notional) units gained through disbursement/payment" are not reported in the following.

When a unit category is issued during the reporting period, the performance is calculated from the point in time that the unit category is launched. Because of this and possible other fees and currency classes, the performance of this unit category differs from that of comparable unit categories.

Principles governing performance-based remuneration components

The Management Company has adopted remuneration principles to prevent possible conflicts of interest and to ensure compliance with the standard rules of conduct when awarding remuneration to relevant persons.

Fixed salary components make up a large enough share of the total remuneration of all employees of the Management Company that a variable remuneration policy can be applied on an individualised basis.

The total remuneration (fixed and variable components) is governed by the principle of balance and is linked to sustainability so that the acceptance of excessive risks is not rewarded. Therefore, the variable remuneration forms no more than a balanced portion of the total remuneration awarded to an employee.

The performance-based remuneration components serve the short-term and long-term interests of the Management Company and contribute to preventing risky behaviour. The performance-based remuneration components take into account individual performance as well as the profitability of the Management Company.

The size of the bonus pool is calculated based on the bonus potential that can be applied to the different employee categories. Bonus potential is a percentage of the fixed annual gross remuneration. The bonus potential can be no more than 100% of the fixed annual gross remuneration. The bonus pool is adjusted depending on the success of the Management Company. The personal bonus is linked to individual performance. The total of personal bonuses is limited by the size of the bonus pool after deduction of penalties.

The performance-based payments are capped at 100% of the annual gross remuneration for all employees, including the material risk bearers (according to the definition in the remuneration policy) and managing directors of the Management Company.

The remuneration system is made up of three components:

- 1) Fixed remuneration
- 2) Variable remuneration
- 3) Fringe benefits

The bonus potential is based on the fixed annual gross remuneration. The target agreements concluded with the employees contain qualitative and/or quantitative objectives. The payment of performance-based remuneration components is subject to a minimum profitability level for the Management Company and to performance targets.

Sixty per cent of the performance-based remuneration components are paid immediately; for employees who are involved directly in fund and portfolio management, 50% of this is paid immediately in cash and 50% is paid one year later in the form of non-cash instruments. The remaining 40% of the performance-based remuneration components are retained and paid out over a period of three years, with 50% of this also being paid in cash and 50% in the form of non-cash instruments for employees who are involved directly in fund and portfolio management. The non-cash instruments can consist of units in an investment fund that is administered by the Management Company, equivalent holdings or instruments linked to units, or equivalent non-cash instruments. Based on the principle of proportionality, the Management Company has set a materiality threshold below which there is no incentive to enter into inappropriate risks, for which reason there is no need to make delayed payment or payment in the form of a non-cash instrument. Other non-cash benefits are fringe benefits that are not associated with performance but with a specific position (e.g. company car) or that apply for all employees (e.g. holiday).

The Supervisory Board of the Management Company has set up a Remuneration Committee to ensure that the remuneration policy and its application are independently assessed. This committee consists of the following persons: Rudolf Sagmeister, Harald Gasser (remuneration expert), and Heinrich Hubert Reiner.

The complete remuneration policy of the Management Company can be viewed at http://www.erste-am.at/de/private_anleger/wer-sind-wir/investmentprozess.

The last audit of compliance with the requirements of the remuneration policy by the Supervisory Board in March 2023 revealed no deviations. There were also no material findings during the last audit by the Internal Auditing department.

No material changes were made to the remuneration policy during the past accounting year.

Audit Report*

Statement on the annual report

Audit opinion

We have audited the annual report prepared by Erste Asset Management GmbH, Vienna, for the fund under its management

WSTV ESPA dynamisch
Jointly owned fund pursuant to the InvFG

consisting of the statement of assets and liabilities as of 29 February 2024, the income statement for the accounting year ending on this date, and the other information specified in Annex I Schedule B of the Austrian Investment Fund Act 2011 (InvFG 2011).

Based on the findings of our audit, we believe that the annual report satisfies the legal requirements in terms of the reported figures and the pertinent regulations of the Alternative Investment Fund Manager Act (AIFMG) and provides a true and fair view of the assets and financial position as of 29 February 2024 and of the earnings position of the fund for the accounting year ending on this date in accordance with Austrian commercial law and the provisions of the InvFG 2011 and the AIFMG.

Basis for the audit opinion

We conducted our audit in accordance with § 49 (5) InvFG 2011 and § 20 (3) AIFMG and in accordance with the Austrian principles of good auditing. These principles require the application of the International Standards on Auditing (ISA). Our responsibilities under these regulations and standards are described in the section “Responsibilities of the auditor in auditing the annual report” of our audit report. We are independent from the company as specified by the Austrian commercial and industry regulations and fulfilled our other professional obligations in accordance with these requirements. We feel that the audit evidence that we obtained up to the date of the audit certificate is sufficient and suitable to serve as a basis for our audit opinion as of that date.

Other information

The legal representatives are responsible for the other information. The other information includes all information in the annual report except for the statement of assets and liabilities, the income statement, the other information specified in Annex I Schedule B of the InvFG 2011, and the audit report.

Our audit opinion does not cover this other information, and we provide no assurance whatsoever for this other information.

In the context of our review of the annual report, we are responsible for reading this other information and assessing whether the other information contains material inconsistencies with the annual report or with the information gathered by us during our audit, or appears to contain other manners of material misstatements.

Should we come to the conclusion on the basis of the work completed with the other information received before the date of the audit report that this other information contains a material misstatement, we are required to report about this fact. We have nothing to report in this regard.

Management and supervisory board responsibilities relating to the annual report

The legal representatives are responsible for preparing the annual report and for ensuring that this report provides a true and fair view of the assets and financial and earnings position of the fund in accordance with Austrian commercial law and the provisions of the InvFG 2011 and AIFMG. The legal representatives are also responsible for implementing the internal controls that they deem necessary to facilitate the preparation of an annual report that is free from material misstatements due to error or fraud.

The supervisory board is responsible for monitoring the accounting process of the company as it applies to the fund under its management.

Responsibilities of the auditor in auditing the annual report

Our goals are to ascertain with sufficient certainty whether the annual report contains material misstatements due to error or fraud and to issue an audit certificate that includes our audit opinion. Sufficient certainty is a high degree of certainty but no guarantee that an audit conducted in accordance with the Austrian standards on good auditing, which require the application of the ISA, will always discover material misstatements that may be present. Misstatements can result from fraud or errors and are considered to be material when it can be reasonably expected that individual misstatements or a combination of misstatements can influence economic decisions made by readers on the basis of this annual report.

As part of an audit conducted in accordance with the Austrian standards on good auditing, which require the application of the ISA, we exercise professional judgement and maintain professional scepticism during the entire audit process.

In addition:

- We identify and assess the risks of material misstatements in the annual report due to error or fraud, plan audit steps in response to these risks, perform the planned audit steps, and collect audit evidence that is sufficient and suitable to form a basis for our audit opinion. The risk that a material misstatement resulting from fraud will remain undiscovered is greater than for misstatements resulting from error because fraudulent activity can include collusion, the falsification of documents, intentional incomplete or misleading representations, and the circumvention of internal controls.
- We familiarise ourselves with the internal control systems that are relevant for the audit to plan audit steps that are appropriate under the specific circumstances, but not so as to state an opinion on the effectiveness of the company's internal control system.

- We assess the appropriateness of the accounting methods applied by the legal representatives and the reasonableness of the estimates made by the legal representatives in the accounts and of the associated information.
- We assess the overall presentation, the structure, and the content of the annual report including the figures as well as whether the annual report depicts the underlying transactions and events in a manner that provides a true and fair view.
- We discuss the planned scope and scheduling of the audit and any material audit findings, including material defects that we discover in the internal control system during our audit, with the supervisory board, among other issues.

Information pursuant to Article 7 of Regulation (EU) 2020/852 (Taxonomy Regulation):

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Fund Rules

WSTV ESPA dynamisch

The Fund Terms and Conditions for **WSTV ESPA dynamisch** (the “Fund” in the following) were approved by the Austrian Financial Market Authority (FMA).

The Fund is an alternative investment fund (AIF) in the form of an “other asset portfolio” and is a mutual fund pursuant to the **Austrian Investment Fund Act 2011 (InvFG) as amended** in conjunction with the **Alternative Fund Manager Act (AIFMG) as amended**.

The Fund is managed by Erste Asset Management GmbH (the “Management Company” in the following), which is domiciled in Vienna.

Article 1 Fund Shares

The partial ownership of the fund assets is evidenced by certificates having the characteristics of a bearer share.

The share certificates are depicted in global certificates for each share class. For this reason, individual share certificates cannot be issued.

Article 2 Custodian Bank (Depositary)

The custodian bank (depositary) appointed for the Fund is Erste Group Bank AG, Vienna.

The payment offices for share certificates are the custodian bank (depositary) or other payment offices named in the “Information for Investors pursuant to § 21 AIFMG”.

Article 3 Investment Instruments and Principles

The following assets may be selected for the Fund in accordance with the InvFG.

The Fund can invest up to 80% of its assets in shares in investment funds that, according to their terms and conditions, invest predominantly in equities or comparable assets or that are categorised as an equity fund or as comparable to an equity fund by an internationally recognised organisation, regardless of the country in which the respective management company is domiciled.

The Fund can also purchase a limited quantity of shares in investment funds that, according to their terms and conditions, invest predominantly in bonds or comparable assets or that are categorised as a bond fund or as comparable to a bond fund by an internationally recognised organisation, regardless of the country in which the respective management company is domiciled.

There are no geographical restrictions with regard to the domiciles of the issuers of the securities in the Fund or regarding the economic sectors in which these issuers are active.

The fund assets are invested in the following investment instruments in compliance with the description above.

The investment and issuer limits for UCITS apply analogously to the Fund with the exceptions specified in §§ 166 f InvFG.

a) Securities

Securities (including securities with embedded derivative financial instruments) may comprise **up to 49%** of the fund assets.

b) Money market instruments

Money market instruments may comprise **up to 49%** of the fund assets.

c) Securities and money market instruments

The Fund may purchase securities and money market instruments that are not fully paid up as well as subscription rights for these types of instruments and other financial instruments that are not fully paid up amounting to a **maximum of 10%** of the fund assets.

Securities and money market instruments may only be purchased for the Fund when they meet the criteria regarding listing or trading on a regulated market or a securities exchange pursuant to the InvFG.

Securities and money market instruments that do not meet the criteria described in the previous paragraph may comprise **up to 10%** of the fund assets **in total**.

d) Shares in investment funds

Shares in investment funds (UCITS, UCI) may **comprise up to 50%** of the fund assets per individual issue and may comprise **up to 100% in aggregate total**.

Shares in investment funds in the form of "other asset portfolios" may comprise **up to 10%** of the fund assets per individual issue and may comprise **up to 100% in aggregate total**. If this "other asset portfolio" may according to its fund terms and conditions invest **no more than 10%** of its fund assets **in total** in shares in undertakings for collective investments, shares in this "other asset portfolio" may comprise **up to 50%** of the fund assets per individual issue and **up to 100% in aggregate total**.

e) Shares in undertakings for collective investments pursuant to § 166 (1) 3 InvFG

The Fund may invest in shares in undertakings for collective investments in an amount of **up to 10%** of the fund assets for a single undertaking but no more than an **aggregate total of 20%** of the fund assets for all such undertakings.

f) Shares in real estate funds

The Fund may invest in shares in real estate funds (pursuant to the Real Estate Fund Act) and in real estate funds that are administered by a management company that is domiciled in an EEA country.

The Fund may invest in shares in real estate funds in an amount of **up to 10%** of the fund assets for a single undertaking but no more than an **aggregate total of 20%** of the fund assets for all such undertakings.

g) Demand deposits or callable deposits

Demand deposits and callable deposits with a maximum term of 12 months may comprise **up to 49%** of the fund assets.

There are no minimum cash deposit requirements.

However, in the course of the restructuring of the fund portfolio and/or in the case of the justified expectation of impending losses, the Fund can hold a higher proportion of demand deposits or callable deposits with a maximum term of 12 months.

h) Repurchase agreements

Does not apply.

i) Securities lending

Does not apply.

j) Derivative financial instruments

Derivative financial instruments can be used for hedging purposes and as part of the investment strategy, and may comprise **up to 100%** of the fund assets.

k) Risk measurement method(s) of the Fund

The Fund applies the following risk measurement method: **commitment approach**

The commitment value is determined according to § 3 of the 4th FMA Regulation on Risk Calculation and Reporting of Derivative Instruments (4. Derivate-Risikoberechnungs- und MeldeV) as amended.

l) Acceptance of short-term loans

The Management Company may accept short-term loans for the account of the Fund **up to an amount of 10%** of the total fund assets.

m) Leverage pursuant to the AIFMG

Leverage may be used. Further information can be found in the "Information for Investors pursuant to § 21 AIFMG" (item 13.3.).

Investment instruments may only be purchased for the entire Fund and not for individual share classes or groups of share classes.

This does not apply to currency hedging transactions, however. Such transactions can also be concluded solely for a single share class. Expenses and income resulting from currency hedging transactions shall be allocated solely to the respective share class.

**Article 4
Accounting and Valuation Standards, Issue and Return Procedure**

Accounting and valuation standards

Transactions executed by the Fund (e.g. purchases and sales of securities), earnings, and compensation for expenses are recorded in the Fund's accounts as promptly as possible in an orderly and complete manner.

Particularly administration fees and interest income (including from coupon bonds, zero bonds, and deposits) are recorded on an accrual basis over the reporting period.

The **total value of the Fund** shall be determined on the basis of the prices of the securities, money market instruments, investment funds, and subscription rights contained in the Fund plus the value of the financial investments, cash and cash equivalents, account balances, claims, and other rights held by the Fund, less any liabilities.

The prices of the individual assets shall be determined as follows:

a) The value of assets that are listed or traded on an exchange or other regulated market is generally determined on the basis of the latest published prices.

b) If an asset is not listed or traded on an exchange or other regulated market or if the price reported for an asset that is listed or traded on an exchange or other regulated market does not adequately reflect its actual fair value, prices from reliable data providers, market prices for securities of the same type, or other recognised valuation methods will be used.

Issue and return procedure

The share value shall be calculated in the currency of the respective share class.

The share value is calculated at the same time as the issue and return price.

Calculation method

The most recent published prices will generally be used to calculate the net asset value (NAV).

Issue of shares and issue premium

The issue price will be calculated and shares issued on each Austrian exchange trading day with the exception of bank holidays.

The issue price shall be made up of the share value plus a premium per share amounting to **up to 4.5%** to cover the costs incurred by the Management Company in issuing the share, rounded up to the next equivalent sub-unit of the currency unit specified for the respective share class in the Information for Investors pursuant to § 21 AIFMG.

The Management Company shall be entitled to apply a sliding issue premium scale at its own discretion.

There is no limit on the issue of shares in principle. However, the Management Company reserves the right to temporarily or permanently suspend the issue of share certificates.

Return of shares and return fee

The return price will be calculated and shares redeemed on each Austrian exchange trading day with the exception of bank holidays.

The return price is the share value rounded down to the next equivalent sub-unit of the currency unit specified for the respective share class in the Information for Investors pursuant to § 21 AIFMG. No return fee will be charged.

Upon request by the Shareholder, his shares shall be redeemed at the current return price in return for the share certificate.

Article 5 Financial Year

The financial year of the Fund is from 1 March to the last day of February.

Article 6 Share Classes and Use of Earnings

The Fund features three different share classes and the corresponding certificates: dividend shares, non-dividend shares with capital gains tax payment, and non-dividend shares without capital gains tax payment, with certificates being issued for one share each and also for fractional shares.

Various share classes may be issued for this Fund. The creation of share classes and the issue of shares of a specific class shall be decided at the discretion of the Management Company.

Use of earnings for dividend shares

The earnings generated during the financial year (interest and dividends) less all costs can be distributed as deemed appropriate by the Management Company. Dividend disbursement may be suspended in the interests of the Shareholders. Dividends may also be disbursed at the discretion of the Management Company from earnings generated by the sale of fund assets, including subscription rights. Fund assets may be paid out in the form of dividends and interim dividends. The fund assets may in no case fall below the legally stipulated minimum volume for termination as a result of dividend disbursements.

The amounts shall be paid to the holders of dividend shares **on or after 1 June** of the following financial year. The remaining amount shall be carried forward.

An amount calculated in accordance with the InvFG must also be paid out **on or after 1 June** to cover the capital gains tax assessed by the tax authorities on the dividend-equivalent earnings from the fund shares unless the Management Company provides suitable proof from the banks managing the corresponding securities accounts that the share certificates can only be held by Shareholders who are not subject to Austrian personal or corporate income tax or who meet the conditions for exemption from capital gains tax according to § 94 EStG at the time of payment.

Use of earnings for non-dividend shares with capital gains tax payment (non-dividend shares)

The earnings generated by the Fund during the financial year less all costs will not be paid out. In the case of non-dividend shares, an amount calculated in accordance with the InvFG must be paid out **on or after 1 June** to cover the capital gains tax assessed by the tax authorities on the dividend-equivalent earnings from the fund shares unless the Management Company provides suitable proof from the banks managing the corresponding securities accounts that the share certificates can only be held by Shareholders who are not subject to Austrian personal or corporate income tax or who meet the conditions for exemption from capital gains tax according to § 94 EStG at the time of payment.

Use of earnings for non-dividend shares without capital gains tax payment (KESt-exempt non-dividend shares)

The earnings generated by the Fund during the financial year less all costs will not be paid out. No payment pursuant to the InvFG will be made. The reference date for the exemption from KESt payment for the profit for the year for the purposes of the InvFG shall be **1 June** of the following financial year.

The Management Company shall provide suitable proof from the banks managing the corresponding securities accounts that the share certificates could only be held by Shareholders who are not subject to Austrian personal or corporate income tax or who met the conditions for exemption from capital gains tax according to § 94 of the Austrian Income Tax Act (Einkommensteuergesetz) at the time of payment.

If these requirements are not met at the time of payment, the amount calculated pursuant to the InvFG must be paid out by the credit institution managing the respective securities account.

Article 7 Management Fee, Compensation for Expenses, Liquidation Fee

The Management Company shall receive an **annual** fee for its administrative activities of **up to 1.32%** of the fund assets, which shall be accrued on a daily basis and calculated using the month-end values adjusted for the accrued fees and shall amount

to **at least EUR 2,120 per month. If the monthly minimum fee is applied, this may exceed the maximum percentage specified for the administration fee.**

The Management Company shall be entitled to compensation for all expenses incurred in the administration of the Fund.

The Management Company shall be entitled to apply a sliding management fee scale at its own discretion.

The costs for the introduction of new share classes for existing investment funds shall be assessed against the share price of the new share classes.

Upon liquidation of the Fund, the party processing the liquidation shall receive a fee in the amount of **0.5%** of the fund assets.

Article 8
Provision of Information to Investors

The Information for Investors pursuant to § 21 AIFMG, including the Fund Terms and Conditions, the key investor document (KID), the annual and semi-annual reports, the issue and return prices and other information, shall be provided to the investor on the website of the Management Company at http://www.erste-am.com/en/mandatory_publications.

Further information and details about this Fund can be found in the Information for Investors pursuant to § 21 AIFMG.

Annex to the Fund Rules

List of exchanges with official trading and organised markets (As of November 2020)

1. Exchanges with official trading and organised markets in the Member States of the EEA as well as exchanges in European countries outside of the EEA considered to be equivalent to regulated markets

Every Member State must maintain a current list of the authorised markets within its territory. This list must be submitted to the other Member States and the Commission.

According to this provision, the Commission is required to publish a list of the regulated markets registered with it by the Member States once per year.

Because of lower entry barriers and specialisation in different trading segments, the list of “regulated markets” is subject to significant changes. For this reason, the Commission will publish an up-to-date version of the list on its official website in addition to the annual publication of a list in the Official Journal of the European Union.

1.1. The currently valid list of regulated markets can be found at

https://registers.esma.europa.eu/publication/searchRegister?core=esma_registers_upreg *

1.2. The following exchanges are included in the list of regulated markets:

- | | | |
|--------|--------------|--------------------------------------|
| 1.2.1. | Luxembourg: | Euro MTF Luxembourg |
| 1.2.2. | Switzerland: | SIX Swiss Exchange AG, BX Swiss AG** |

1.3. Recognised markets in the EEA according to § 67 (2) 2 InvFG:

Markets in the EEA that have been classified as recognised markets by the competent supervisory authorities.

2. Exchanges in European countries outside of the EEA

- | | | |
|------|-------------------------|---|
| 2.1. | Bosnia and Herzegovina: | Sarajevo, Banja Luka |
| 2.2. | Montenegro: | Podgorica |
| 2.3. | Russia: | Moscow Exchange |
| 2.4. | Serbia: | Belgrade |
| 2.5. | Turkey: | Istanbul (only “National Market” on the stock market) |

3. Exchanges in non-European countries

- | | | |
|------|------------|----------------------------------|
| 3.1. | Australia: | Sydney, Hobart, Melbourne, Perth |
| 3.2. | Argentina: | Buenos Aires |
| 3.3. | Brazil: | Rio de Janeiro, Sao Paulo |

*) To open the list, select “Regulated market” under “Entity type” in the column on the left side of the page and then click “Search” (or “Show table columns” and “Update”). The link can be changed by the ESMA.

When the withdrawal of the United Kingdom of Great Britain and Northern Ireland (GB) from the EU takes effect, GB will lose its status as an EEA member state and, in turn, the exchanges/regulated markets located there will also lose their status as EEA exchanges/regulated markets. In this event, we hereby inform you that the following exchanges and regulated markets located in GB shall be considered exchanges or recognised regulated markets in a third country as defined by the InvFG 2011 and the UCITS Directive that are expressly designated in the Fund Rules:

Cboe Europe Equities Regulated Market – Integrated Book Segment, London Metal Exchange, Cboe Europe Equities Regulated Market – Reference Price Book Segment, Cboe Europe Equities Regulated Market – Off-Book Segment, London Stock Exchange Regulated Market (derivatives), NEX Exchange Main Board (non-equity), London Stock Exchange Regulated Market, NEX Exchange Main Board (equity), Euronext London Regulated Market, ICE FUTURES EUROPE, ICE FUTURES EUROPE – AGRICULTURAL PRODUCTS DIVISION, ICE FUTURES EUROPE – FINANCIAL PRODUCTS DIVISION, ICE FUTURES EUROPE – EQUITY PRODUCTS DIVISION, and Gibraltar Stock Exchange.

**) Due to the expiry of Switzerland’s stock market equivalence, SIX Swiss Exchange AG and BX Swiss AG are to be subsumed under item 2 “Exchanges in European countries outside of the EEA” until further notice.
